THE FAMOUS *Argus* CANDID

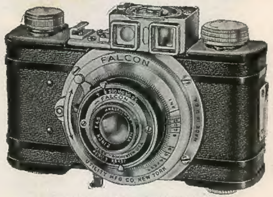
It's the most remarkable candid ever built, with amazing features that are found only in the most expensive cameras.

NEW COUPLED EXPOSURE METER: Just a flip of the finger and the built-in, coupled, extinction-type exposure meter adjusts the lens opening automatically.

ZONE FOCUSING: Takes sharp, clear pictures from 3½ ft. to infinity by means of zone focusing—all you do is turn the pointer to one of three focus zones. This fine Argus has a new, top loading system for daylight loading of all standard makes of 35 mm films, black and white or natural color, 18 or 36 exposures. Takes 35 mm double frame pictures which may be enlarged. F:4.5 triplet anastigmat, color-corrected fast lens with shutter speeds from 1/25 to 1/200 of a second.

BLACK AND WHITE AND COLOR: This beautiful, leather-covered, chrome-trimmed, Argus will meet the demands of the most exacting camera fan and take pictures of brilliant needle sharpness that have a wide latitude for enlargements. When color film is used, it takes pictures of amazing true to life realism in all the full brilliancy of natural colors, suitable both for projection and color prints. Saddle stitched leather ever-ready case protects camera when not in use but is ready for fast-action pictures by merely flipping back the cover.

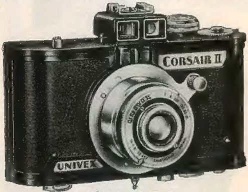
A35115	Camera With F:4.5 Lens	$27.30
A35116	Ever-Ready Carrying Case	6.00



FALCON SUPER ACTION CANDID

An outstanding "buy" in candid cameras at a record-breaking low price. 50 mm precision-ground F:4.5 lens. Deltax speed shutter with stop openings down to F:22. Shutter speeds from 1/25 to 1/200 of a second, also time and bulb. Built-in, extinction-type exposure meter. Shutter attachment for cable release. Bracket for range finder. Uses any standard 8-exposure No. 127 film, taking 16 pictures 1⅝x1¼ inches. Takes pictures of detailed sharpness that make splendid enlargements. Ever-ready carrying case of top-grain leather enables you to "snap" without removing camera from case.

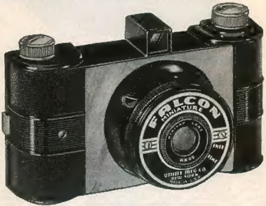
A35117	Camera With F:4.5 Lens	$21.35
A35118	Leather Covered Ever-Ready Case	5.34



35 MM CORSAIR II

Here's the amazing Corsair II that has created such a sensation among camera fans. The camera that makes prize winning shots easy to get. Equipped with F:4.5 lens, built-in extinction-type exposure meter, built-in photoflash synchronizer, self-retracting lens mount, needle-sharp focusing, automatic focus stop. New "Filminder" eliminates double exposures, indicates type of film and number of pictures taken. Automatic film rewind. Uses all standard makes of 35 mm film and takes perfect double frame 35 mm pictures, black and white or color, indoors or outdoors. With the Univex flash unit, will take pictures day or night. Ever-Ready carrying case priced separately.

A35119	Camera With F:4.5 Lens	$29.00
A35120	Ever-Ready Carrying Case	4.00
A35200	Univex Flash Unit (See Pg. 262)	7.00

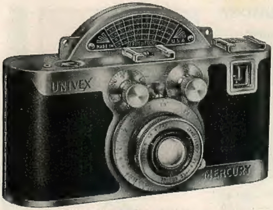


FALCON MINIATURE

Here's a top ranking favorite among amateurs who want quality at a low price. The Falcon Miniature is a compact, expensive-looking camera; case of beautiful Black Nellite. Telescopic eye-level view finder; fixed focus; large diameter 50 mm lens; chrome front plate; and uses any standard No. 127 8-exposure film, taking 16 pictures 1⅝x1¼ inches. Ever-Ready case with adjustable shoulder strap priced separately.

A35121	Camera	$2.64
A35122	Ever-Ready Carrying Case	.92

CAMERAS FOR "QUICK-ACTION" FANS



UNIVEX MERCURY CANDID

American-made super-speed Candid—at a price within the reach of everyone. Features usually found only in expensive foreign models—1/20 to 1/100 of a second, all-metal focal plane shutter, speed that turns what you thought "impossibles" into easy shots. Built-in photoflash synchronizer that takes the Univex flash unit; automatic film transport prevents double exposures, automatically counts exposures; built-in brilliant Parallax corrected view-finder; exclusive non-rotating micrometer focusing mount, focusing by 17 graduations from 1½ ft. to infinity; "instrument panel" arrangement of all controls for instant adjustments. Uses the quick loading, economical Univex 35 mm film; takes 35 mm single-frame pictures that are easily enlarged; cuts candid photography costs approximately 60%. Available with Tricor F:3.5, or Hexar F:2.7 lens. Interchangeable lens mount will take special Univex telephoto and other lenses. Handsome sole leather ever-ready case priced separately. The Univex Mercury candid is exactly what you need to get those superb shots.

A35125	Camera With F:3.5 Lens	**$41.60**

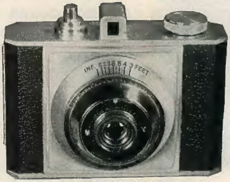
UNIVEX UNIFLASH CAMERA

Precision built news-type flash camera embodying features not offered in any camera anywhere near this price. Gives real news-photographer flash shots, sharp snapshots and excellent portraits indoors or outdoors, day or night. Flash unit quickly detachable, guaranteed accurate flash timing, automatic bulb ejector. Parallax corrected Magni-Field view-finder; Vitar 60 mm lens; case of Textolite, chromium trimmed. Complete with flash unit but without bulb or battery. Uses the economical Univex film, 6 pictures 1½ in. x 1⅛ in. per roll, easily enlarged.

A35131	Camera With Flash Unit	**$6.90**
A35132	Carrying Case	**2.85**



SUPER ROLLS CANDID
Leatherette Trimmed—Chrome Case

A quick, snap-shooting sturdy camera—simple in operation, smart in appearance and extremely low in price. The Rolls Super Seven-Seven camera takes brilliant, sharply defined pictures with instantaneous speed. Sturdily constructed of brushed chrome metal with Black leatherette-trimmed front in a modern candid design. Rollax achromatic lens with range of apertures from F:22 to F:7.7. Iris diaphragm with time, bulb, and instantaneous shutter speed; focusing mount from three feet to infinity; built-in eye-level view-finder; convenient push-button shutter release; hinged back. Uses any standard 8-exposure No. 620 film, taking 16 pictures 1⅝x2⅛ in. Ideal for snapshots—will take pictures as fast and as brilliant as many of the more expensive cameras. Ease of operation and sturdiness of construction recommends it to the beginner as well as the enthusiast.

A35135	PRICE	**$12.00**
A35137	Ever-Ready Case	**3.00**

FALCON AUTOMATIC

Here is the popular Falcon automatic folding camera that has established itself among the leaders in its price range. It takes 8 pictures 2¼x3¼ inches, using any standard No. 120 film. Light weight, solid metal case with baked-on, simulated leather finish. Equipped with focusing mount; stop opening adjustments from F:11 to F:22; snap-out front; new type winding key; new style shutter, time and snapshot; hinged back for easy loading. Just press the button—the camera automatically drops into focus, ready to take excellent pictures. Also available with F:7.7 lens and collapsible eye-level view-finder not shown on illustration above. Simulated leather carrying case with shoulder length strap priced separately.

A handsome folding camera that answers the needs of picture takers everywhere. Folds compactly, yet ready to take pictures in a jiffy. This new Falcon has a high precision lens and shutter and many features usually found only in the more expensive folding cameras. Wollensak Alphax shutter with speeds from 1/25 to 1/150 of a second including time and bulb. Wollensak Velostigmat F:6.3 lens; collapsible eye-level view-finder fitted with precision telescopic lenses; diaphragm settings F:6.3 to F:32; focusing mount from 5 ft. to infinity. Takes 8 pictures size 2¼x3¼ inches on any standard No. 120 film. Case attractively finished to simulate Black leather. A strong, Black simulated leather case with shoulder length carrying strap is priced separately.

A35136	Camera F:6.3 Lens	**$24.00**
A35130	Carrying Case	**2.00**

KITCHEN-AID MIXER

POPULAR PRICED ELECTRIC MIXER WITH TOP-QUALITY FIXTURES!

- **"Thoro-Mix" Action Insures Thorough Mixing —Without the Necessity of Turning the Bowl**
- **Ten Definite Speeds—Mixes Foods of Every Consistency — Assures Full-Power Performance at All Times. Won't Slow Down as Batter Thickens**

MAKES COOKING AND BAKING A PLEASURE

Saves time—saves energy—saves work! Every housewife will appreciate the many conveniences this KitchenAid Mixer affords. It mixes, beats, whips, stirs ingredients of all consistencies and quantities—extracts juice from fruits.

EASY, ECONOMICAL TO OPERATE

Anyone can operate this Mixer. Just put ingredients in the bowl, attach it to mixer, turn on the switch and, presto, in a few minutes the contents are ready for baking or serving, depending on the dish you are preparing. Ten definite speeds (with intermediate speeds) insure the proper speed for each individual use.

MODERN — EFFICIENT — DURABLE

Beautiful streamlined model in gleaming White Dulux finish with metal parts either bright chrome-plated or stainless steel. As handsome as it is practical in the modern kitchen. Easy to clean. Utility accessories are easily attached to the attachment hub. Has ultimate power of ⅓ H.P. Lifetime lubrication—requires no oiling. Durable, will give long-lasting satisfactory service.

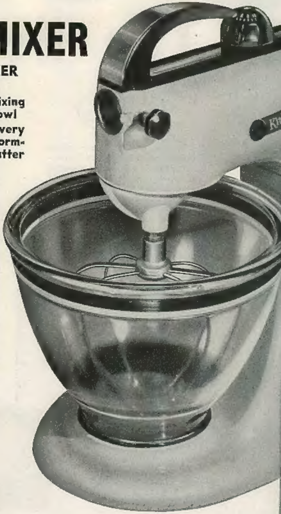
STANDARD EQUIPMENT

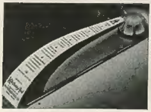
Mixer comes complete with one 3-quart, clear-vision, heat-resisting glass bowl (which screws rigidly into base), all-purpose beater, juice extractor.

Measurements

Height 13¾ inches, base 7½x12⅜ inches. Comes complete with juice extractor.

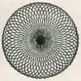
A63615 Price..**$43.70**





SPEEDS

Ten definite speeds (and intermediate speeds), controlled by electrical governor, assuring full motor power at all times. Easy to regulate.

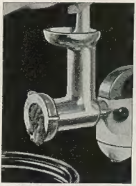


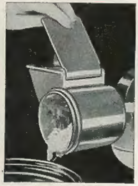
"THORO-MIX" ACTION

. . . exclusive on KitchenAid Mixers, eliminates the necessity of turning the bowl, and assures far superior results. The beater or whip is carried around stationary bowl, while beater turns, on its own axis, in the opposite direction.

JUICE EXTRACTOR

Crystal-glass bowl and glazed porcelain reamer. Simple to operate under low cupboard and easy to clean. Quickly and thoroughly extracts the juice of all citrus fruits. Strains seeds and fibre but retains pulp.





ATTACHMENTS MOST IN DEMAND

COLANDER AND SIEVE

Makes pie filler, apple, cranberry and other sauces. Removes skins and seeds from fruit—fibre from vegetables for purees and soups. Takes the "tedious labor" out of these daily chores and makes cooking a joy.

A63616 Price.......**$5.50**

FOOD CHOPPER SET

Chops or cuts meats, raw or cooked. Ideal for making meat loaves and savory chopped-meat dishes. Also nuts, raisins, dates, etc., an excellent aid in making salads, candies, cake fillers or toppings. No mashing. An accessory that will be used daily.

A63617 Price.......**$7.95**

ROTOR VEGETABLE SLICER

Slices potatoes, carrots and other vegetables—as well as firm fruits. Slicer plate is set for best thickness for most operations. Also accommodates Rotary Shredder and Grater Plate for cole slaw, grating cheese, etc. Worth every penny of its nominal cost.

A63618 Price.......**$5.80**

KITCHENAID KITCHEN HELPS

AN INVESTMENT IN LIFETIME SERVICE . . . THAT PAYS BIG DIVIDENDS DAY AFTER DAY IN HOURS SAVED AND KITCHEN DRUDGERY BANISHED

KitchenAid Mixers and Grinders deliver the greatest value for every penny of their cost. Designed to lighten the burden of kitchen tasks, they are built to the highest standards of perfection—every part a precision-made unit of flawless quality. The acknowledged leader among manufacturers of electric mixers, Hobart, makers of KitchenAid, scrupulously avoid any sacrifice of precision or quality to save pennies—knowing it would mean wasted dollars later. An untiring servant, KitchenAid brings electricity to do the heavy work in your kitchen . . . uncomplaining, versatile and thoroughly dependable. Proven to outperform and outlast any others on the market—KitchenAid is your best investment for generations of service.

Planetary Action—Exclusive on KitchenAid Mixers, eliminates the necessity of turning the bowl and assures for superior results.

KITCHEN-AID MIXER

Mixes—beats—kneads—whips food—thoroughly and quickly. Its unmatched skill in food preparation improves menus to an amazing degree. For small family or large—for simple or elaborate preparations—the utility of KitchenAid is as comprehensive as the need may be.

This Model "K-4" Food Mixer mixes any amount from as little as one egg white to bread dough or fruit cake. The Planetary Action beater travels around bowl in one direction, while turning on its axis in opposite direction. Sanitary, baked-on White Dulux permanent finish, easy to keep sparkling clean. Powerful three-speed motor, can be set for No. 1—Low, No. 2—Medium or No. 3—High—or any desired speed between these settings. Standard equipment includes, one 4-quart tinned-steel mixing bowl, one wire loop-whip, one combination flat beater, and pastry knife. Measurements: 14 inches high, 8x14 inch base.

Model "K-4" Food Mixer

A63612 With Standard Equipment....................**$78.80**

HOUSEHOLD COFFEE MILL

A perfect year 'round gift that will render years of service and pay handsome dividends in coffee satisfaction. This coffee mill saves money for you, because fresh grinding assures maximum coffee flavor in the cup, requires less coffee. Gleaming White lacquer-finished mill with glass container. Holds 1¼ lbs. of coffee beans. Graduated receiving glass accurately measures coffee as ground—by the tablespoonfuls. Grind regulator is easily set for any one of 16 grinds, by a simple turn. Modern in appearance, efficient in performance. Insures rich, full-bodied flavor in every cup—the perfect climax to every meal. Operates on alternating or direct current. Measures 13 inches high and 5 inches at the base.

A63839 ....**$12.95**

LADY DOVER MIXER & JUICER

Mixes, Beats, Whips in a Jiffy—Saves Time—Saves Energy—Easy to Operate—Efficient in Performance!

The new Lady Dover kitchen mixer by Knapp-Monarch. It has a sturdy, powerful motor with a variable speed adjustment that assures its ability to perform any beating, mixing and whipping task. Convenient adjustment for three speeds. Two strong, efficient beaters are easily snapped out for cleaning. Mixer slips easily from stand for portable use over stove; cool ebony plastic handle forms comfortable grip. Bowl plate revolves to add to efficiency and speed while mixing. Mixer comes complete with two White glass mixing bowls and juicer. Takes but a second to change from mixer to juicer! Finished in baked White enamel; works perfectly on A.C. or D.C. Shipping weight 16 lbs.

A63610 Price Complete **$21.25**

BUFFET and PRUEFER World-Famous CLARINETS

Benny Goodman, World-Famous Swing and Concert Clarinetist!

THE SWEETEST CLARINETS EVER MADE

PREFERRED BY SYMPHONIES AND SWING BANDS

The name of the maker means everything in art and industry! A gem-encrusted carved-gold bowl with the signature of Cellini stamps it as a masterpiece of the goldsmith's art—a precious museum item. The name Buffet or Pruefer on a clarinet distinguishes it as a product of the world's most famous makers. These beautifully-made instruments are endowed with the sweetest, most melodic tone ever found in a clarinet. These clarinets are made in the most completely equipped factories in the world. Musical instruments of outstanding quality. For years Buffet and Pruefer have meant full-toned instruments that respond to the most exacting requirements of the artist with the vital smoothness, evenness and richness of tone essential to produce sweet, mellow music that is so thrilling to hear.

THE CHOICE OF PROFESSIONAL MUSICIANS

You'll find Buffet and Pruefer clarinets used in America's greatest symphony orchestras and many popular swing bands. The New York Philharmonic, Boston Symphony, Minneapolis Symphony, Chicago Symphony, Philadelphia Symphony—all these and many more famous orchestras use these clarinets. Listen to the bands of Ted Weems, Freddy Martin, Ben Pollack, Dick Jurgens, Johnny "Scat" Davis, Tommy Dorsey, Rudy Vallee—and you'll be listening to Buffet or Pruefer clarinets. These orchestras know the value of good clarinets and unreservedly prefer Buffet and Pruefer.

FACTORY GUARANTEE BACKED BY JOHN PLAIN

Each and every clarinet is backed by the factory guarantee as well as by the famous John Plain guarantee—your assurance of complete satisfaction. Whichever model you choose to buy, you'll have a clarinet of which you can well be proud—a clarinet that will give full expression to your musical ability.

COMPLETE IN DE LUXE CASE

Each clarinet shown on this page comes complete with accessories in the deluxe carrying case illustrated above. The case is handsome and sturdy—covered with the best grade leatherette. Interior is lined with silky crushed plush. Accessories include grease box, screw driver and swab. The case furnishes complete protection to the instrument.

A77110 Price............$130.00

EVETTE & SCHAEFFER BY BUFFET

The finest and sweetest of all clarinets—as sensitive as a fine old violin! Absolute perfection in fifths and octaves without lipping; has the power needed for passages in fortissimo, the power for clear resonance. Yields a full, round tone without distortion. Beautifully sensitive without variation of tonal strength or accuracy for every note in the register from the highest "C" to the lowest "E." Boehm system, key of B♭ with 17 keys, 6 rings. Complete with accessories in deluxe carrying case.

A77111 Price............$168.00

PRUEFER'S EBONITE CLARINET

America's finest medium priced clarinet—with the tonal quality and perfection of intonation found usually in only the highest priced models. Made of genuine Ebonite with upper joint lined with nickel silver innertube that prevents breakage and improves tone quality. Guaranteed against cracking. Boehm system, key of B♭, 17 keys and 6 rings. Complete with accessories in deluxe carrying case.

A77112 Price............$93.00

PRUEFER'S ARTIST CLARINET

Illustrated above at the extreme right. Made of the finest Grenadilla wood, oil treated to eliminate all checking and cracking. Nickel silver keys of extreme hardness. A professional hand made wood clarinet of rich quality, produced in America's most modern and completely equipped factory. Boehm system, key of B♭, 17 keys and 6 rings. Complete with accessories in deluxe carrying case.

A77113 Price............$122.50

BARONET SILVER PLATED CLARINET

The Baronet metal clarinet, illustrated at the left, is the finest instrument available in the low priced field. Tone and intonation leave nothing to be desired. Sturdily built of finest brass, silver plated with no possible danger of ever cracking. Tone always remains smooth and even, because this clarinet is not affected by climatic changes. Exceptionally suitable for school bands, orchestras and students. Boehm system, key of B♭. Complete in form-fitting plush lined case with all accessories.

Sonora "Super-Seven"

STATIC FREE—POWERFUL

RECEIVES ALL AMERICAN AND FOREIGN BROADCASTS—AMAZING TONE FIDELITY—7 TUBES

←

There's a real thrill in the powerful two-band range of the Super-Seven. Not only long-distance reception of the American stations, but the stirring short wave broadcasts of foreign programs. Add to this the most critical tone receptivity ever found in a table model radio, and you will understand why this 1942 Sonora is the radio sensation of the year. The secret is in a cleverly devised new circuit arrangement that ingeniously intensifies sensitivity, blots out static, and brings you only the pure, life-like reality of the original broadcast performance. Illustrated at the left, the Super-Seven is styled along the most modern, yet classic lines, bright with beauty and with a look of luxury that is rarely equalled in sets costing less than twice its price. Case is built of choice Walnut veneers, hand-rubbed to a high, lustrous finish. Size 17¼ in. long, 9½ in. deep, 9¾ in. high, weighs 18½ lbs.

A29119 Price Complete..**$53.50**

"SUPER-SEVEN" FEATURES

F. M. AND TELEVISION CONNECTIONS

7-Tube AC superheterodyne, two full bands for standard broadcast (535 to 1720 kilocycles) and foreign (5.65 to 18.3 megacycles) reception. Built-in "Sonora-Scope" loop—no aerial or ground required. Giant 6x4½-inch clock-type dial; 6½-inch electro-dynamic speaker; phonograph, F. M., and television connections; continuously variable tone control; automatic volume control; special outdoor antenna connection for super-powerful reception.

SONORA "SPECIAL 6" →

"CLEAR-AS-A-BELL" TONE QUALITY—KEEN SENSITIVITY — POWERFUL RECEPTION — 6-TUBE AC-DC

Strikingly contemporary . . . decidedly sophisticated . . . infinitely de luxe in every detail of design and performance —that's the only way to describe this new Sonora triumph. A distinguished cabinet design fashioned of rich Walnut veneers. The unique curved speaker-grille lends a rich grace and charm to the design, as apparent in the illustration at the immediate right. 6-tube AC-DC superheterodyne circuit covers the complete standard broadcast band including police channel. Built-in "Sonora-Scope" loop—no aerial or ground required; clock-type dial; variable tone control; automatic volume control, 6-inch dynamic speaker of amazing fidelity tone-quality. Measures 14½ in. long, 7½ in. deep, 8½ in. high. A genuinely aristocratic looking radio of rhythmic modern lines—a show piece for any table.

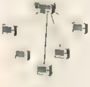
Send Your Voice . . . Just Where You Want It

MASTER SELECTIVE INTER-COMMUNICATING SYSTEM

This amazing economical new intercommunicating system brings unrivalled efficiency to offices, factories, stores, homes and farms—large or small. You can instantly talk with any one person or group of persons you wish—as far as 3,000 feet away—in whispers or with loud speaker volume. Locate the master station wherever you wish, by a flip of the knob you can instantly carry on a two-way conversation with any single substation or all simultaneously. Each substation can call the master station. Remarkable amplification power yet extremely economical in use—operates anywhere on 110-115 volts AC-DC. Units are beautifully designed to harmonize with the most luxurious settings. Master station in handsome Walnut cabinet 9¾x5¾x8 in. high. Substations in modernly-styled metal cabinets 5¾x3¾x7 in. high.

AS MANY UNITS AS YOU WISH



Illustrated above is only one of the many hookups that can be made with this intercommunicating system.

With the installation of a master station, you can set up a communication system as large or as small as you desire—a single substation or as many more as your requirements demand. The master selective intercommunicating system has more than enough power for all normal requirements; amazing natural tone quality; flexibility of operation; and quality construction that will stand up under all conditions and give continuous dependable service. Master station A77102 will operate up to 5 substations; A77103 up to 10. For systems requiring more than 10 substations, we will be glad to send complete information, illustrations, detailed drawings, specifications and prices.

EASY TO INSTALL

It is not necessary to be an electrician to install the master selective intercommunicating system—just plug into light socket. The units come to you as a complete package. Thorough, simple instructions are included, enabling any adult to make the installation Amount of cable needed depends on distances between stations Original system can be set up very easily and quickly, additions made later as desired. Write for complete information on intercommunicating systems of any size or type to meet your special needs.

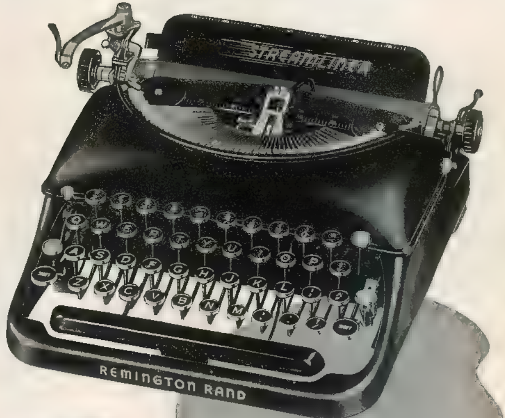
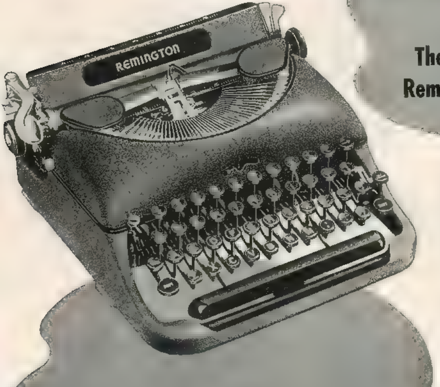
The Remington Portables described on these pages have exclusive gear action, fewer working parts, greater strength, and give complete visibility.

Each Remington offered is brand new, absolutely perfect in every detail and unconditionally guaranteed to give perfect satisfaction.

Every Remington comes complete with handsome carrying case and manual of touch-typing. Write the modern way at home, at school, at work—with a Remington!



The STREAMLINER
Remington's Newest!



DE LUXE MODEL 5
World's Best Seller

THE STREAMLINER

Remington's latest portable typewriter is shown directly above. The Streamliner combines in a portable most of the important full-size typewriter features, including, full width writing scale; left shift lock, released by right or left shift keys, margin release mechanism, which releases either right or left marginal stops; adjustable margin stops, warning bell. Paper scale has graduated scale; another visible guide just below the roller.

Standard four-row keyboard has black, non-glare keys shaped to eliminate finger-fatigue. Self-starter paragraph key indents at the tap of a key. Two-color ribbon mechanism has automatic reverse, stencil device. Handsome black Japan finish. Complete with touch-typing manual and carrying case. Pica type only.

A53108 Price..$74.25

DE LUXE MODEL 5

The ideal Remington typewriter shown at the left has new features for fast and easy typing, built to give enduring satisfaction. Exclusive "self-starting" paragraph key brings professional speed and neatness to the amateur typist. A light tap indents paragraphs, lines up columns, gets you off to a flying start. Personal touch regulator adjusts keys to balance the pressure of your individual typing stroke. Your fingers fairly fly over the keyboard! Fingers won't tire, for the standard keyboard has concave shaped keys. Easy action Remington geared type-bar gives fast, even movement to carriage. Remington Model 5 De Luxe is finished in Black crystallized enamel that is non-glare and scratchproof. Touch-typing book and smart carrying case included. State choice of type—Pica or Elite.

The Most Appreciated Gift!

The finest gift you could choose for any man or woman, boy or girl is one of these new Corona portable typewriters, a gift that will find constant use for many years and be a source of real pride to every owner. For the student . . . there is nothing like a Corona to improve scholastic standing . . . professional men find Corona the ideal home and travel typewriter . . . modern hostesses use their Coronas constantly. Everybody is delighted with such a beautiful, practical, durable gift.

CARRYING CASE INCLUDED

A smart carrying case and touch typing chart are included with all Coronas. Cases for the Speedline models are so free from fixtures that you can use them as week-end bags — they look like fine luggage and are sturdily built. Cases have two nickeled-finish locks, strong post-style handle, covered in rich grained leatherette

OFFICE MACHINE PERFORMANCE

Of all the portable typewriters manufactured in this country, Corona offers the finest performance with full-size office-machine efficiency. Corona portables are all precision made, adjusted with watchmaker accuracy, and possess every feature designed for ease and speed in typing. Every Corona is built to stand up under the most severe usage and dash off typewritten pages just as neat as the most expensive full-sized typewriters.

This Is Pica
This Is Elite

On all the war fronts, you'll find Corona the predominating choice of news correspondents. Wherever things are happening, you'll find Coronas recording the events. In schools, students overwhelmingly prefer the Corona and throughout the country. Coronas have become an indispensable aid to busy men and women.

DE LUXE CORONA ZEPHYR

Here is the most amazing portable typewriter ever designed—so light in weight it tips the scales at only 9½ lbs., carrying case and all. And compact, too, for it measures approximately one foot square and only three inches high—fits into brief case! Yet with all its lightness and compactness, the Corona De Luxe Zephyr has a full-sized, four-row, 84-character standard keyboard, plus many of the features indicated in the large illustration on top of these pages. Complete visibility, writes capitals and small letters, back spacer, swinging shift, right and left hand shift keys and shift lock, right and left hand platen knobs, ball-bearing carriage, paper bail with graduated scale, positive dual line lock, right and left margin release, automatic ribbon reverse, and many other features found only in the high priced portables. Sides and bottom are fully encased in steel finished in soft Green with Silver bands. One-piece matching steel cover.

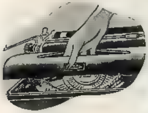
A53100 Price..**$59.50**

CORONA SPEEDLINE STANDARD

Here is the outstanding value in portable typewriters, Corona's largest selling speedline model with the famous "floating" shift. The Speedline Standard has practically all the features shown above for the Silent model, yet is priced extremely moderate. Protected touch selector, simplified margin setting, type bar speed booster, full standard height and width keyboard, finger-fit keys, all-around steel frame, complete visibility, one-stroke ribbon reverse, back spacer, right and left margin releases and many other features. The lightning fast escapement and exclusive piano-key action make it capable of greater speed than most experienced typists can attain. Black, non-glare ripple finish attractively striped, makes it one of the handsomest portables. Here is the biggest "dollar-for-dollar" value. Carrying case included which, by merely removing the typewriter, becomes a very attractive overnight bag. Shipping weight, 20 lbs.

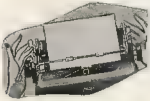
A53101 Price..**$82.00**

NEW! EXCLUSIVE WORK-SAVING FEATURES!



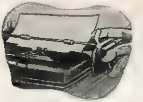
Dust-Protector Top

A work-saving feature on all Royal portables shown on these pages. Hinged top opens for type cleaning and ribbon changing. Snaps shut, protects type and inside mechanism from dust. Adds to the neat appearance of Royal machines.



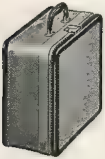
Co-ordinated Controls

Royal's carriage-mounted controls are scientifically placed. Everything within fingertip reach even with palms of hands on roller knobs. Designed for fast, intensive action.



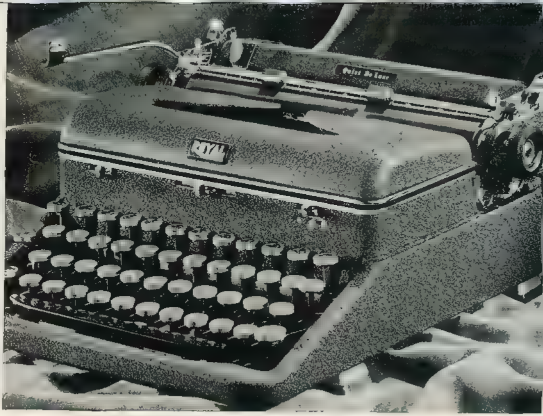
Automatic Paper Lock

A flip of the finger opens the lock; paper can be fed directly into it when in this forward position. At a slight touch the lock closes with an "ironing" action that holds paper firmly in place on the roller



Airplane Luggage Carrying Case

This sturdy, but lightweight carrying case is included with each Royal portable shown on these pages. Carries typewriter firmly anchored in position—has extra room for paper and envelopes. With typewriter removed, case becomes an exceptionally handy, attractive overnight case. Lid of case fastens firmly with metal lock, comes complete with key. Firm-grip handle makes case easy to carry. Easy to store away in a small space when traveling or when not in use.



New Improved ROYAL QUIET DE LUXE for 1942

BARELY WHISPERS AS IT WORKS!

Our Finest Portable!

- *Smooth, Quiet Operation*
- *New Magic Margin*
- *Personal Touch Control*
- *Full Standard Keyboard*
- *Finger Comfort Keys*
- *No "Bobbing" Shift Action*
- *Frictionless Carriage*
- *Automatic Paper Lock*
- *Touch Set Tabulator*
- *Automatic Ribbon Reverse*
- *Built-In Card Attachment*
- *Movable Paper Guide*
- *Shock Absorber Feet*
- *Streamline Construction*
- *Royal Velvetone Finish in Black or Brown*
- *Bright Chromium Trim*
- *Handsome Double-Duty Carrying Case*
- *Pica or Elite Type*

The most sensational portable typewriter ever presented! The Royal Quiet DeLuxe shown above has Magic Margin, touch control, everything. Plus this important "extra!" It's quiet! So quiet you can barely hear it in operation. No "clickety-clack"—just a subdued whisper.

You'll hardly believe your eyes when you see this new portable, or your fingers when you try it. It's so simple to use—so fast—so smooth in operation! When you touch the shift key to type a capital letter, the carriage doesn't "bob" up; instead the type moves downward easily, smoothly. No rattle or clatter to distract you as your fingers fly over the concave shaped Lucite keys. Shock absorber feet soften the typing stroke impact—keep the machine from sliding. Takes paper 9-7/8 in. wide, writes a line 9 in. long. Comes in Black or Brown Velvetone finish with Chromium trim. Handsome carrying case included. Be sure to specify type—Pica or Elite.

The Remette has back spacer, right and left shift keys, shift lock; Remington gear action, with positive alignment. Chrome finished line-space carriage return lever is handily located close to the roller, has single and double space adjustment. Two adjustable margin stops run on graduated guide—no guessing when you set the margin. Carriage release lever enables you to insert heavy paper or make as many as six carbon copies. "Soft roller" effect achieved by pressure-roll release lever.

The Remette is handsomely finished in Black crystallized enamel, will not scratch, glare or show finger marks. Complete touch-typing instruction book included with the Remette—even the children will be anxious to learn how to write this fascinating new way. Handsome carrying case for the Remette is also included. State your choice of type face—Elite or Pica.

CORONA

7 Outstanding Features

Every Corona portable typewriter is a member of a distinguished family of famous typewriters known the world over. Made and guaranteed by the oldest firm of portable typewriter manufacturers in the country, with an enviable reputation for producing portables that have turned in record-breaking performances. John Plain & Company unhesitatingly adds its own guarantee of utmost satisfaction to the famous Corona guarantee of service and top performance. Listed below are just a few of the many reasons why every Corona serves its user longer and better.

FAMOUS FLOATING SHIFT

To type capital letters and certain punctuation marks, you don't lift the heavy carriage when you shift—you lower the type segment. This means easier, quieter performance with a better anchored carriage and better alignment.

TOUCH SELECTOR

Hidden away from meddling hands under the hinged cover is a seven-position, positive adjustment key enabling you to quickly and easily adjust the tension of the keys from light to heavy to suit your own touch.

ALL-AROUND FRAME

Many Coronas have survived accidents that would wreck a machine less substantially built. Corona's sturdy frame completely surrounds and protects the mechanism. John Plain & Company guarantees the Corona to withstand abuse that would normally cripple another portable.

STANDARD KEYBOARD

The right width of keyboard—the correct spacing between keys—the proper spacing between rows—the same angles from key to key. That is why typing on a Corona is exactly the same as using a standard office machine. When you learn on a Corona, you have nothing to unlearn in switching over to the large office machine sizes.

PIANO-KEY ACTION

At the bottom of the finger strokes, the Corona key-tops are still parallel with the top position, not tilted forward. This permits the fingers to follow a natural arc, gives the user more speed with less finger strain and fatigue. No broken finger nails when you use the Corona.

CARRIAGE CENTERING LEVER

When you put the Corona back in its carrying case, press the centering lever. The carriage then takes a position to permit the case to be closed—the escapement is disengaged and thus protected against travel damage.

ONE-STROKE RIBBON REVERSE

Watch the ribbon eyelet, see it reverse then feed—on a single completed stroke. This feature prevents undue wear on the ribbon ends while middle of ribbon is still good. Saves much bother as well as money.

POPULAR COLORS

Handsome, modern designs give the Corona portables an attractive appearance that make it welcome in the most lavish surroundings. Available in the following colors: The Zephyr DeLuxe—soft Green with Silver stripes, the Standard—non-glare Gray—Black with contrasting Black stripe; the Sterling—Black or Gray non-glare ripple, attractively striped; and the Silent—rich, glossy Maroon, Black non-glare ripple or Gray non-glare ripple with stripes.

CHOICE OF FOUR MODELS

John Plain & Company presents the famous Corona portables in the four most popular models. The Zephyr DeLuxe, weighing only 9½ pounds, complete with case, the Speedline Standard, Speedline Sterling and the new improved Speedline Silent. The Standard, Sterling and Silent models are equipped with the famous "floating shift." Every Corona portable carries a double guarantee of satisfaction, the manufacturer's and John Plain's famous guarantee of quality.

CORONA SPEEDLINE STERLING

Just about everything you could ask for in a non-silent portable with a "floating" shift. Has all the features listed for the Corona Standard plus a few more like the convenient long-line space lever, the tabulator, folding paper-supporting arms, lateral paper guide and other extremely practical aids. The Corona Sterling Speedline is definitely a complete portable—well worth the slight difference in cost over the Standard. Choice of two colors, Black or Gray non-glare ripple, attractively striped. Carrying case included is hand made and, with typewriter removed, is a smart piece of overnight luggage. Here is a handsome, efficient portable typewriter, just waiting to give you many years of efficient service. Shipping weight, 20 pounds.

A53103	Black	**$89.20**
A53104	Gray	**89.20**

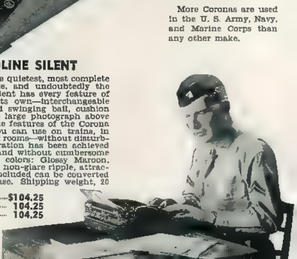
CORONA SPEEDLINE SILENT

Here is what we believe is the quietest, most complete portable typewriter ever made, and undoubtedly the best looking! The Corona Silent has every feature of the Sterling, plus many of its own—interchangeable platen, three-position forward swinging bail, cushion shift, cushion tabulator. The large photograph above points out many of the unique features of the Corona Silent. Here is a portable you can use on trains, in hotel bedrooms, in home living rooms—without disturbing others. Yet its quiet operation has been achieved without sacrificing efficiency and without cumbersome mechanism. Choice of three colors: Glossy Maroon, Black non-glare ripple or Gray non-glare ripple, attractively striped. Carrying case included can be converted into a handsome overnight case. Shipping weight, 20 pounds

A53105	Black	**$104.25**
A53106	Gray	**104.25**
A53107	Maroon	**104.25**

THERE IS NO
FINER GIFT
THAN A CORONA
FOR THE MAN
IN SERVICE

More Coronas are used in the U. S. Army, Navy, and Marine Corps than any other make.



ROYAL

Portable Typewriters with "MAGIC MARGIN"

A proven aid to faster, neater typing. "Magic Margin" eliminates the old, time-wasting method of setting margin stops by hand. No more fussing with gadgets. Just touch a tiny lever—and the margin is set—three times faster than by any other method! Only Royal has it.

THE 1942 "ARROW"

- **Personal Touch Control—Magic Margin**
- **Long Arm Carriage Return and Space Lever**
- **No "Bobbing" Shift Action**
- **Standard Keyboard—Finger Comfort Keys**
- **Back Spacer Key—Accelerating Space Bar**
- **Manual and Automatic Ribbon Reverse**
- **Smart Carrying Case—Instruction Book**

The new, streamlined "Arrow" portable has all the "big machine" features for which Royal is world famous. Amazing Magic Margin sets margins at the touch of a finger-tip! This remarkably efficient, fast-typing machine has concave Lucite keys that reduce finger fatigue. Locked-segment shift freedom eliminates "bobbing" carriage, operates with a touch almost as light as your typing stroke. Machine is finished in Royal Black Velvetone. Please state your choice of type—**Pica** or **Elite**.

A53114 Complete with Carrying Case....**$87.20**

THE 1942 "ARISTOCRAT"

- **Streamlined, Shock Absorber Construction**
- **Automatic Ribbon Reverse—Stencil Lever**
- **Touch Control—New Magic Margin**
- **Touch-Set Tabulator—Tabulator Key**
- **Frictionless Carriage—2 Cylinder Knobs**
- **Tilting Paper Table—Ruled Scale**
- **Card Holding Device—Movable Paper Guide**
- **Fast Action Standard Keyboard**
- **No "Bobbing" Shift Action—Time-Saver Top**
- **Complete With Case and Instructions**

The speedy, efficient "Aristocrat" is a compact edition of a full-size office model typewriter. Ideal for students, for the home, for travelers, for the office. This Royal portable will turn out work as quickly and neatly as any full-size machine, yet it is small enough to go along with you—easily carried in its own handsome carrying case A precision built typewriter that will give many, many years of service.

The sturdy, streamlined frame is mounted on four shock absorber feet—your desk or table-top is protected, the typewriter won't skid as you work. This king of Royal portables combines all these work-saving features. Magic Margin, locked-segment shift, touch control, touch-set tabulator and many others. Takes paper 9-7/8 in. wide, writes a line 9 in. long. Machine is finished in Royal Black Velvetone, chromium trimmed. Please state choice of type—**Pica** or **Elite**.

A53115 Comp. with Carrying Case .**$95.20**

ROYAL REBUILT

The World's No. 1 Standard 10-inch Office Typewriter
100% Guaranteed—Rebuilt at Original Factory
Fast Action Keyboard—Personal Touch Control
New Shift Device Eliminates "Bobbing" Carriage
Key Set Tabulator—Automatic Paper Lock
Dust-Proof Construction—Completely Enclosed

The easy-writing Royal office typewriter shown at the right meets every typing requirement. It is lightning fast, turns out beautiful work. It is a late model Royal completely precision rebuilt at the only **authorized** Royal rebuilding factory. The machine has been re-manufactured from the frame up, with restored and completely new parts. It looks like new, does the work of a new machine, and is a handsome addition to home or office. Takes a sheet of paper 9-7/8 in. wide, yet will type on a postage stamp! Comes complete with rubberized dust cover. State choice of type—**Pica** or **Elite**.

Enjoy Cool Comfort All Summer Long — Install

ELECTRIC FANS

Floor, Table, Wall Models . . . Attic Circulators

NITEAIR

Attic Circulating Fans Cool the Entire House

- **Quiet . . . Compact . . . Efficient**
- **Ideal for Apartments, Homes and Business Places**

NITEAIR Circulators are available in two types, each adapted to a specific use, designed for maximum cooling efficiency. PANEL UNIT (not illustrated) is similar to the unit shown above except that the fan is mounted on a single panel. Suggested where attic is airtight around the roof and eaves—installed in the outside attic wall Also as window panel in an apartment. Easy to install PACKAGE UNIT, shown above, is designed for installation where it is not practical to make the installation in the outside attic wall. This unit is placed on the attic floor or joists directly over an intake grille in hall or closet ceiling or over an attic stairway. This is the only effective installation if there is considerable air leakage through an attic window or under the eaves. Complete range of sizes listed below:

Please Specify Panel or Package Unit

Number	Fan Size	CFM	HP	Panel Unit	Package Unit

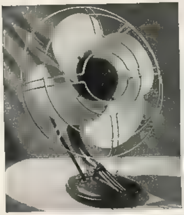
22-inch BEARCAT CIRCULATOR

CYCLONIC BLADES

3-Speed Motor

A high-power pedestal fan that delivers a steady stream of circulating, cooling air right where you want it! Changes hot, stuffy stores, offices or homes into enjoyably cool surroundings. Delivers 4,900 cu. ft. of air per minute. Has switch controlled, three-speed motor. Cyclonic blades are shaped for maximum efficiency plus operating silence. The pedestal mount adjusts for heights from four to eight feet. Handsomely finished in Duo Brown with bright trim and all-around grille guard. Motor is rigidly mounted on the wide-base pedestal. Smooth-running motor will give long, dependable service. Uses AC current only. Ship. wt., 107 lbs.

A75116 ....**$63.50**



GILBERT'S AERODYNAMIC

The last word in streamline style and aerodynamic efficiency. This 10-inch oscillating fan has four bright-finished metal blades with bullet nose — extremely quiet in operation with more air output than ordinary blades. Switch in base controls Low and High speeds with definite Off position. Oscillating mechanism is concealed, has automatic safety release. Moves through 80-degree arc—can also be used stationary Tilts up or down. Gunmetal finish with chrome trim and guard. Size 13½ in. high, 11¼ in. wide. Uses AC current Shipping weight, 12 lbs.

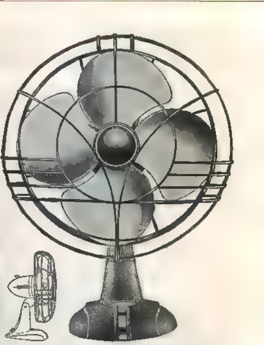
A63870 Price..**$16.50**

SAFETY SILENT SAMSON

Dynamic-Shaped Rubber Blades

Cooling breezes with soothing silence and perfect safety—are yours in this new Samson 10-in. oscillating rubber bladed fan. Needs no guard—won't injure even a Baby's finger Oscillates 90 degrees—can also be used stationary. Mounts on wall—tilts to any angle. Base, support and motor housing are Grey, crystallized baked-enamel. Complete with rubber cord. Uses AC current. Ship wt. 14 lbs.

A63874 Price..**$17.25**



The ARCTICAIRE

Oscillating and Stationary Fan . . . Powerful, Vibration-Free Motor

Our best selling fan. It is handsome and efficient; powerful yet quiet in operation. Available in three sizes. Each fan oscillates through a wide arc, can also be used stationary when desired. Dynamically-shaped metal blades are designed for silence and maximum air output. Sturdy motors are sealed for quiet operation. Need no attention—no oiling necessary. Operate on AC current only.

Three Models

The 10-inch fan has single-speed motor. Moves 710 cu. ft. of air per minute. The 12 and 16 inch fans have switch controlled, three-speed motors. 12-inch circulates 1,075 cu. ft. of air per minute; 16-inch circulates 1,725 cu. ft. of air per minute. Each fan is mounted on a heavy metal, vibration-free base. Can be mounted on wall if desired.

A63871	10-inch Fan	**$14.60**
A63872	12-inch Fan	**29.25**
A63873	16-inch Fan	**39.95**

ARCTICAIRE PEDESTAL FAN

For Home or Office

Oscillating or Stationary

At the right is the 1942 Arcticaire pedestal fan, designed for home or office use. It is easily moved, puts the breeze where you want it! Delivers 925 cu. ft. of air a minute. Sturdy two-speed motor; polished metal blades, shaped for silence. Has all-around grille guard. Sealed motor unit delivers dependable, smooth power to the four blades. Adjustable pedestal 33 to 56 in Can be used either oscillating or stationary. Beautifully finished in Rust Brown with chrome trim. Shipping weight, 25 lbs. Operates on AC.

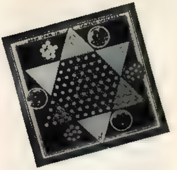
GAMES FOR LEISURE HOURS



CHINESE CHECKERS

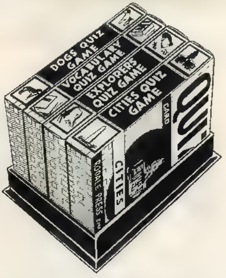
A game ages old in China but comparatively new in this country. This high quality set comes on large board and has set-in metal cups for holding the various colored marbles! From two to six persons may play; it's really a game of skill that sharpens the wits! Will give many hours of enjoyment!

A31287 Price..$0.70

ELECTRIC QUESTIONNAIRE

This set combines engrossing entertainment with a fund of worthwhile information. Simple to use; plug in the cord over the question desired, using the other cord to locate the correct answer. If your answer is right, the buzzer sounds. The set includes 12 question and answer cards, six of which are in color, telegraph practice key with the Morse and Continental Codes pasted into the lid. Complete with battery in sturdy wood box 11¼ in. square.

A31288 Price..$4.20



FOUR QUIZ CARD GAMES

A novel series of card games that teach as you play. Four complete decks of cards, each set chuck full of interesting facts. You can play solitaire or with as many as four players—it's a stimulating game all around. Each gaily-colored card has a picture on one side, interesting facts on the other side—the game with its penalties and moves depends upon your knowledge—a real test of wits. The four quiz games include a Dog Game, Cities Game, Vocabulary Game and Explorers Game. All neatly boxed in a transparent-top gift container, size 2½x2½x3¾ in.

A31289 Price..$1.40

SPELL IT
START

MAGIC SPELLING BOARD

The remarkable new educational toy "Spell It"—multiplies, adds, subtracts and spells! Actually teaches the young child to spell and do arithmetic in a clever and entertaining fashion—children find it fun to learn. The child simply dials the word or mathematical problem on the large dial—if he has done so correctly the answer appears at one of the three answer windows—like magic! Mystifying to young and old alike. Size 16 in. square.

A31290 Price..$1.40

Enjoyed by Millions as played over the N·B·C BLUE NETWORK
UNCLE JIM'S QUESTION BEE

UNCLE JIM'S QUESTION BEE

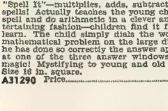
All the thrills and excitement of radio's most popular quiz program are packed into this entertaining game. Questions and answers have been taken from actual scripts used on the air. Subjects cover history, geography, travel, art—all sorts of interesting things. Any number can play—the more the merrier! Complete with one-minute glass for timing and 176 questions and answers. Neatly boxed.

A31291 Price..$1.40

FAMOUS POT O'GOLD

Everyone knows the exciting radio game Pot O'Gold—now you can play it in your own home. The equipment includes a large Black "Pot O'Gold," 12 telephone dials, a pair of special dice, a dice cup, a bankfull of "gold" pieces, toy money, chips and a pad of tally sheets. Two to twelve persons can play this hilarious game. Watch the excitement mount as each player tries to win the "Pot."

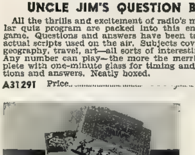
A31292 Price..$1.40



MYSTIFYING OUIJA BOARD

Here's entertainment that's fascinating, weird and mysterious—as unexplainable as Hindu magic. When used correctly, the board spells out answers to questions on love, life and happiness. No one can predict the results of this mystifying, almost psychic Oracle—but with patience and judgment it will satisfy your greatest expectations. The board measures 18x12 inches, complete with printed letters and numbers to receive messages. Heart-shaped planchette has a transparent window and pointer. Size 6 inches long.

A31293 Price..$1.40



JOLLY TREASURE HUNT

A stimulating, active game for from two to sixteen players. The game includes two sets of "Treasure Hunt" name cards, "Gold" and "Silver" "pieces-of-eight" and a full stock of alphabet cards. Each player receives five name cards, plus a fund of "pieces-of-eight." At a signal, players turn over name cards and "DIG" through pile of alphabet cards to find letters to spell words describing his cards. Comes in a "treasure chest" with complete directions.

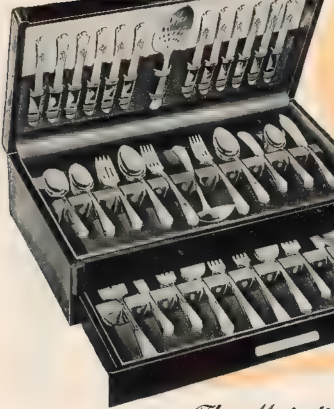
A31294 Price..$1.40

CHESS — CHECKERS — DOMINOES

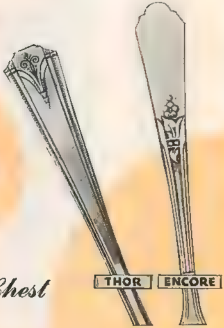
A three-in-one game kit complete in every detail for chess, checkers and dominoes. The folding game board is 16½x17 in. when open; made of sturdy fiber, brilliantly colored with Black and Red squares. Large size, Black dominoes have bold White markings. Complete set of checkers and chessmen are carved from solid wood. You get 75 individual pieces in this complete set! Packed in a strong fiber box 19½x12 in. Complete with instruction sheet on Chess and Checkers. Ideal for the boys in service.

A31295 Price..$2.80

SIMEON L. &
ROGERS



The Majestic Drawer Chest



THE IDEAL GIFT

Silverware of enchantment, in the tradition of America's finest Silversmiths—here, indeed, is the ideal gift for the bride! The one gift that reflects good taste, practical utility, and decorative charm for years to come.

QUALITY AND VALUE

Oneida, Ltd. present two lovely patterns of enduring sentiment in the fine silverplate of Simeon L. & George H. Rogers, each piece with the unmistakable look and feel of fine quality. Yet with all its appearance of richness, prices of this silverware are extremely moderate.

MADE TO ENDURE

Every piece is designed in perfect proportion—graceful to behold, properly balanced to use. To meet the challenge of constant use, each piece is extra plated and reinforced with triple the thickness of pure silver at the point of greatest wear. Thus beauty of design is matched by durability, a lustrous setting of long-lasting charm for the table.

A SUPERB CABINET FOR LOVELY SILVERWARE

Illustrated above is the attractive Majestic Drawer Chest solidly constructed of wood, as supplied with the two complete service sets of Simeon L. & George H. Rogers Silverware listed below. Both the 77-piece service for 12 (as shown in the cabinet above) and the 61-piece service for 8 include all the pieces needed for a proper dinner setting. The Majestic chest is handsomely finished in a rich Brown Mahogany with light colored drawer-pull and cover-lift. Interior is luxuriously lined with brilliant Castilian Red Velveteen, and vividly contrasted by White pleats in the cover. The silverware blocks are designed to hold more pieces as the set is increased. Here is a really beautiful chest worthy of display, yet thoroughly practical, for it protects against tarnish and keeps silver bright as new. Order by number and indicate pattern desired—*Thor or Encore.*

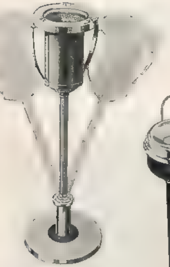
All Metal Smokers

Featuring "Smokador" — Stubs Go Down and Out in Roomy, Hidden Receptacle. No Muss—No Fuss— No Stale Odors.

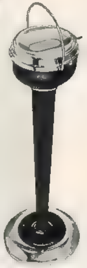
All Smokers Shipped from Our Stock in Chicago



TILTING FLEXADOR

Here's a smoker with knee-action! Bump into it — the stem gets out of your way, tilts on flexible joint and returns to upright position. Base remains stationary on the floor. Ash and stub receptacle is sanitary glass jar—fits down inside the housing, and has a patented smoke trap. A swinging baffle plate automatically prevents escape of smoke and odors. Stubs go out in 90 seconds. Jar is easy to remove and empty—washes clean with soap and water. Gracefully-designed stand is mounted on an extra wide base; smoker has two handles. Overall height 23 inches. Finished in your choice of Black with Chrome trim or Bronze with Chrome trim.

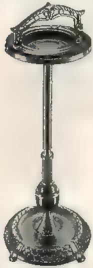
A48110 Black $12.00
A48111 Bronze 12.00



A VALUE "SPECIAL"

Trap-Ador smoker with an inner receptacle that traps smoke and odors. Lever on either side opens the trap door, deposits stubs into the receptacle—holds more than 100 stubs. Easy carrying handle, tip-proof base. Choice of Black and Chrome or Bronze and Chrome finishes. Stands 25½ in. high.

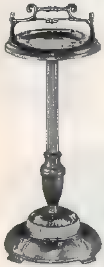
A48112 Black $4.20
A48113 Bronze 4.20



BRONZE FINISHED

Special—a super value in a low priced, all-metal smoker, richly finished in Bronze. Has an artistically-shaped metal carrying handle; glass ash receptacle; weighted base, diameter 10 in., ornately designed. The tray of the smoker is 7½ in. wide. Height overall 26 in.

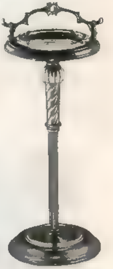
A48114 Bronze........$4.95



ALL METAL

A solid, heavy-metal smoker, beautifully finished in Bronze with Green, with Onyx-enameled inset in the wide base. Solid metal tray-top has heavy glass ash receptacle 7¾ in. in diameter, with four cigarette rests. Gracefully-shaped carrying handle is solid, cast metal. Stands 27 in. high, including the handle

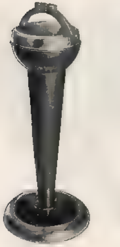
A48115 Bronze......$7.75



LOW PRICED

Beautifully designed, heavy metal smoker with an extra large capacity ash tray of heavy glass, 7¾ in. in diameter, rests in a solid metal tray. Decorative handle is handsomely-shaped cast metal. Extra heavy base is 10 in. in diameter. Finished in rich glowing Bronze with Brass-finished decorative knob and striping. Stands 27⅓ in. high.

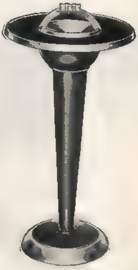
A48116 Bronze........$6.50



ASHAGON SMOKER

A real buy! Trim, modern smoker of all metal, equipped with sanitary glass receptacle that traps smoke and odors Receptacle lifts out for easy cleaning. Guaranteed not to smoke or smell! Smoker has convenient carrying handle and wide, tip-proof base. Stands 23 in high. Finished in gleaming Black with bright, polished Chrome trim.

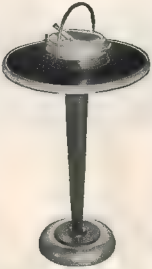
A48117 Black...........$9.90



"SERVADOR"

A handsome, streamlined smoker with an extra-wide tray top for pipes, matches, cigarette boxes, etc., fitted with deep glass receptacle. Stubs drop down through hole, swinging baffle plate traps smoke and odors—extinguishes stubs in 90 seconds. Tip-proof base is extra wide. Trap top measures 13½ in. in diameter. Overall height 23 in. Finished in rich Bronze and polished Chrome.

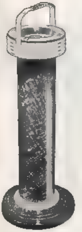
A48118 Bronze.......$12.00



SMOKER AND TRAY

Tray-top smoker fitted with Trap-Ador receptacle for stubs. Lever on either side opens trap door—stubs drop down out of sight. Easy to empty and clean. Stain-resistant tray top measures 13 in. in diameter. Handsome, baked Black finish with handle, edge of tray, levers and rim of base in glistening Chrome plate. Stands 25½ in. tall.

A48119 Black...............$6.00



WALNUT AND CHROME

A modern, all metal smoker, finished in a rich Walnut Brown enamel, trimmed with Ivory enamel and Chromium. The finish is guaranteed alcohol-proof! Removable ash receiver; convenient carrying handle. Diameter of base 8 in., overall height 22 in.

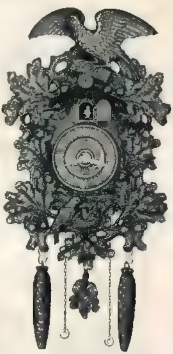
Trophies of the hunt are shown in dramatic relief on the handsome case of this Cuckoo clock. Case is Brown Walnut finished wood of carved effect showing in bold relief antlered deer head, two rifles, quail, rabbit, huntsman's horn and pouch. Large dial has White Roman numerals. White hands. 1-day movement operates on chains and weights—requires no winding—just pull the weights up each morning Pendulum decoration and solid metal weights have carved pine cone effect. Cuckoo cheerily calls the hours, cuckoos once each half hour. Case is 10x16 in. high Chain 75 in. long.

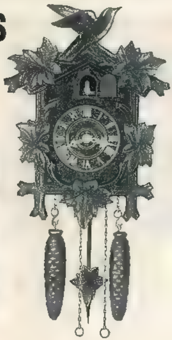
A26126 PRICE $23.86



"FOREST BIRDS"

Perfect replica of a hand-carved Swiss case, attractive Walnut finish. Birds, leaves, acorns and tree boughs are realistically reproduced on this wood case, synthetically carved, richly finished. Clock face has raised White Roman numerals, decorative metal hands are also White. Dependable 24-hour weight and chain movement. No key winding is necessary. Weights are solid metal, have matching carved effect and finish. Adjustable pendulum bob is wood, carved and finished exactly like clock case. Cuckoo merrily calls the hours; calls once for the half-hours. Clock size· 15½ in. high, 10 in wide. Chains are 75 in. long.

A26127 PRICE $22.04



"BIRD HOUSE" CLOCK

You'll be charmed with this handsome Cuckoo clock! Every half hour the door opens and the Cuckoo calls once, on the hours, he calls the exact number of hours Made entirely in America Case is Brown Walnut finished wood of ornately carved effect in an attractive bird design. Has dependable one-day movement operated by weights and chains—no key winding necessary. Raised, White Roman numerals and White hands on clock face. Clock size 11 in. high, 8 in. wide. Chains are 75 in. long, attach to solid metal weights. Pendulum bob is adjustable—regulates movement for faster or slower speed

A26128 PRICE..... . . .$16.66

Traditional Cuckoo clocks and cleverly designed, novelty clocks add color to the home — tell time accurately. Clocks shown on this page carry a one-year manufacturer's guarantee.

A63832 Price.......**$52.00**

Parfums Caron

NARCISSE NOIR
Caron's Black Narcissus

A heavy, tantalizing perfume that captures the mystery of the tropics in its fragrance. Expresses each mood of the feminine personality . . . accents your laughter, yet hints of your more serious moods. Not too bold, but frank enough to reveal your vivid personality. A heady fragrance that can be worn in the daytime and at night. In three sizes.

A20113	½ Oz.	$ 6.30
A20114	⅞ Oz.	9.80
A20115	1¼ Oz.	14.70

DRAM BOTTLES OR PARFUM CARON

Caron offers all the perfumes presented on this page, in convenient-for-sampling, dram size bottles. These enable smart women everywhere to choose the fragrances most suitable to their individual personalities, and to enjoy the "essence of loveliness" so perfectly blended in Caron's famous fragrances, at no great expense.

A20100	Bellodgia	$2.45

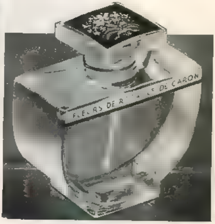
A20109	1¾ Oz.	35.00



FLEURS DE ROCAILLE
Caron's Rock Garden

Distinctive and refined is Caron's "Fleurs de Rocaille" with a delightful bouquet that hints of murmuring brooks and a heavenly summer night in a beautiful garden. It's as companionable with tweeds as it is with furs . . . and its very restraint suggests that you know more than you pretend to! Sealed in striking crystal-clear bottle.

A20116	⅝ Oz.	$14.70
A20117	1 Oz.	25.20
A20118	2 Oz.	56.00

FRENCH CANCAN
"Naughty But Nice"

An exciting and exhilarating essence with an intoxicating fragrance that fairly dances with gaiety. "French Cancan" depicts the spirit of the Parisian dancers, after which it is named . . . even to the bottle with its lace frill collar. Wileful and willful . . . it's irresistible. The smaller bottle comes in a French ribbon-tied box as pictured. The larger size comes in a hinged presentation box with quilted lining.

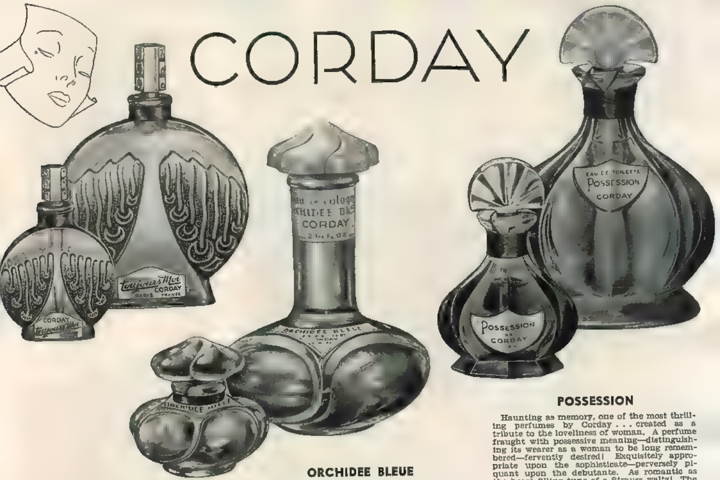
A20105	⅝ Oz.	$12.60
A20106	1⅝ Oz.	35.00

NUIT DE NOEL
Christmas Night

All the glory and festivity of Christmas has been mingled in this delirious scent—together with enough heart-filling fragrance for the other 364 days of the year! Here is one of the loveliest and the most alluring perfumes by Caron . . . and one of the most popular. An exquisite fragrance that compliments even the most discriminating women. The handsome Black crystal-glass bottles are encased in tasseled gift boxes

A20110	⅝ Oz.	$18.90
A20111	1 Oz.	35.00
A20112	2½ Oz.	70.00

CORDAY



TOUJOURS MOI

"Always Me!"

Toujours Moi—a queenly siren—for your imperative moods—your regal gowns. A fragrance of exotic magic, created with the inimitable artistry of Corday to endow you with a witchery as imperious as a queen's desire, and to whisper the irresistible insistence, "Toujours Moi"—"Always Me!" The most famous fragrance of Corday—lastingly lovely—romantic as summer moonlight—wistful as first love.

Perfume

Toujours Moi perfume is presented, beautifully bottled, in 4 popular sizes

A20125	Dram	$ 2.10
A20126	¼ Oz.	4.20
A20127	½ Oz.	8.40
A20128	1 Oz.	15.40

Eau de Cologne

Toujours Moi cologne. A tingling, stimulating rubdown after a delightfully relaxing tub. So very refreshing splashed on wrists and throat. Sends you forth prepared to conquer!

A20129	2½ Oz.	$2.10

ORCHIDEE BLEUE

Triumph Of Femininity! In this alluring perfume, Corday—foremost French parfumeur—captures the demure appeal of an old-fashioned garden and then spices it with the exotic enticement of the rare blue orchid, thus achieving a perfume as charming, as perversely alluring, as womankind itself!

Perfume

Orchidée Bleue comes in exquisite bottles designed in graceful swirls that seem to ebb with the very essence they contain. Comes in two sizes

A20130	Dram Size	$1.75
A20131	½-Oz. Size	7.00

Eau de Cologne

As rare and sweet as the flower after which it is named, "Blue Orchids"—lends an exhilarating fragrance after the bath. A note of infinite care and neatness.

A20132	2¾ Oz.	$1.40

POSSESSION

Haunting as memory, one of the most thrilling perfumes by Corday . . . created as a tribute to the loveliness of woman. A perfume fraught with possessive meaning—distinguishing its wearer as a woman to be long remembered—fervently desired! Exquisitely appropriate upon the sophisticate—perversely piquant upon the debutante. As romantic as the heart-filling tune of a Strauss waltz! The aroma of memory incarnate.

Perfume

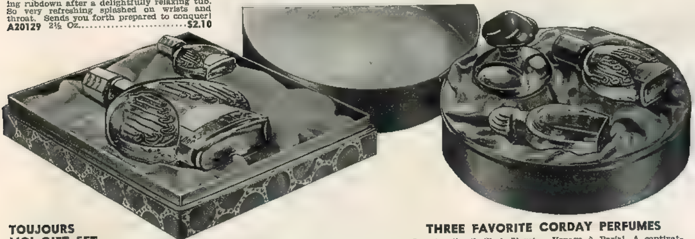
Possession comes in exquisitely modeled bottles, as pictured above. You have your choice of two popular sizes.

A20133	½ Oz.	$10.50
A20134	1 Oz.	17.50

Eau de Toilette

Now you can have Corday's seductive Possession in a toilet water of lavish fragrance. An assurance of freshness on the hottest, most tiresome day—a reviving essence of enchantment.

A20135	3 Oz.	$3.95



TOUJOURS MOI GIFT SET

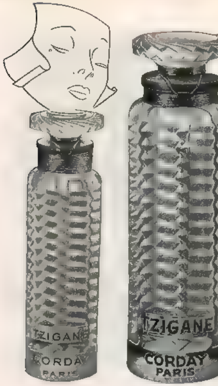
Enchant the ladies on your gift list with this beautiful set of Corday's Toujours Moi! Looks very extravagant. Consists of a 2½-oz. bottle of the delicate cologne and a dram of the perfume. Nestled in a deep puff of satin, they are presented in a manner befitting fine perfumes and make a flattering gift for a lovely lady.

A20136 PRICE $4.20

THREE FAVORITE CORDAY PERFUMES

Imagine the thrill she'll get when she receives this elaborate gift! It's an all gold-tone metal powder box with one dram each of Corday's Toujours Moi, Orchidée Bleue and Voyage à Paris! A captivating fragrance to express each of her different moods, or to complement her favorite costumes

A20137 PRICE $5.60



TZIGANE

For the Gypsy in Your Soul

Languorous as a gypsy violin—thrilling as a gypsy czardas exciting as gypsy love! Yet with a dash of sophistication that proclaims you a person of chic when you wear it. Its vibrant fragrance will enthrall you. Most provocative of Corday perfumes, it is bottled in a crystal flask created by the great Lalique himself! A perfect compliment to gay, adventuresome spirits. Comes in perfume and Eau de Toilette.

Perfume

Any lady will be flattered to receive such an elegant gift from you. You may obtain this enthralling fragrance in either of two sizes, as listed below. Attractively packaged.

SYPHON

"JUNIOR" STREAMLINE SPARKLET

The new Junior Sparklet Syphon combines marvelous convenience, streamlined beauty and amazing results at a surprisingly low price! It is a full-size, full quart refillable syphon, attractively finished in gleaming brushed Chromium with a brilliant Red plastic head and decorative striping.

Bullet-shaped top is removable for easy filling Chargers are inserted in the bottom of the Syphon . . a new feature! After contents have been charged, the bulb holder and charger are removed. No more fussing with unsightly charging mechanisms on the syphon head! Has new safety valve feature, automatically closes after water has been charged, preventing liquid from escaping.

Your Sparklet will convert still wines into sparkling wines, make milk shakes, whipped cream and aerate waffle batter. Comes complete with 3 chargers.

A59170	Sparklet Syphon	$6.75
A59171	Chargers (Box of 10)	1.00

"Sparklet" is a modern kitchen aid. Makes whipped cream, mixes ice cream ingredients, aerates waffle batter, makes delicious chocolate milk shakes and converts still wines into sparkling, tangy wines that taste like Champagne.

SPARKLET DELUXE

This newest Sparklet Syphon is neatly streamlined, attractively finished in sparkling Chromium, with base and removable syphon head in contrasting Red baked enamel. Stands 10½ inches high, has full quart capacity. Carbonates enough water to make about seven tall drinks. With cap removed, bottle mouth is wide enough to accommodate ice cubes for chilling the water before charging, thus insuring thorough carbonation.

Charges are inserted from the bottom. After complete carbonation, charger is removed, safety valve keeps water from escaping. No unsightly charger mechanism disturbs the sleek lines of the Sparklet DeLuxe. Comes complete with set of 3 chargers.

Large chromium serving tray is 11¾x16½ in.

A59156 PRICE **$17.50**

Cumberland County

By HENRY S. BEVERAGE

Within the boundaries of Cumberland County's 853 square miles can be found nearly every attraction the vacationist in Maine might desire. Here, on one hand, are shelving white sand beaches for sun and sea bathing, interspersed by rocky headlands over which flow the cool sea breezes from the Atlantic Ocean, yet a half hour's drive from the coast will quickly change the scenery to thousand acre forests. Here, in Portland, Maine's metropolis, will be found the largest shopping center east of Boston, yet a drive of only a few miles brings one to a typical cross roads country store. And here, in Cumberland County, is the widest variety of accommodations to be found in Maine, including modern commercial and resort hotels, coastal, island, and inland guest homes, lake and sea-shore camp and cottage colonies, country boarding houses and over-night camps.

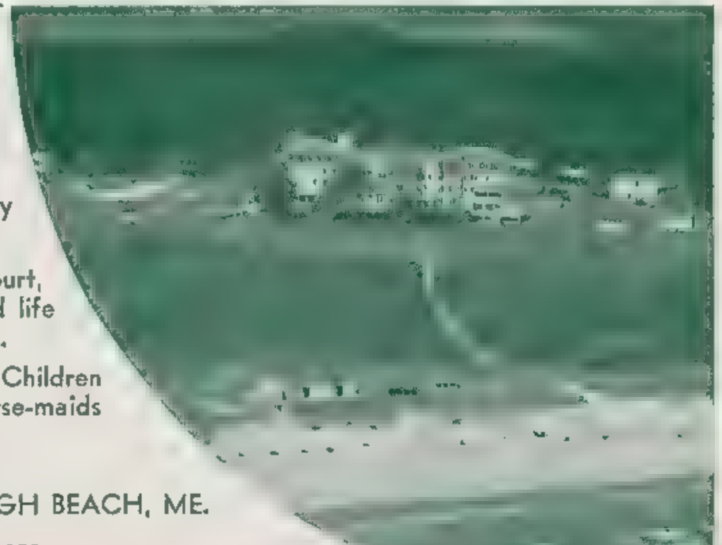
There is fishing in Cumberland County to delight the heart of any angler whether he seeks the largest game fish of them all, the giant tuna, or the trout, landlocked salmon and bass of the inland lakes and streams.

There are numerous golf courses where the visitor is always welcome; there are courts for the tennis enthusiast; there are bridle trails; lake and ocean cruises and trips for deep sea fishing can be arranged on short notice; camp sites are scattered throughout the county, canoe trips are numerous and even mountain climbing, in a modified form, is available for devotees of hiking.

To be more specific, consider Portland: A sea-coast city of 70,000 inhabitants, a vacation center, the central point of many attractions including day trips to nearby lakes, the Casco Bay islands, coastal communities and several beaches. Here is a cosmopolitan city built on a high peninsula less than a mile wide, nearly surrounded by water, swept by cool sea breezes, and bathed in sparkling clear sunshine; a city alive with gay summer throngs.

Fine public buildings distinguish the City of Portland. Excellent hotels, comfortable tourist homes, splendid restaurants featuring Maine shore dinners, large department stores and specialty shops, good banking facilities, theatres, libraries, churches, art, historical and natural history museums. The city maintains a fine municipal golf course, tennis and horseshoe courts, bowling on the green, and a splendid public beach for salt water bathing.

Of particular interest is the birthplace of the poet,



on Maine Coast

The Atlantic House has been host to a discriminating public for 90 years. Little of the original buildings remain, but the home-like, friendly atmosphere is unchanged.

Three shuffle-board courts, excellent tennis court, two nearby golf clubs, private bathhouses and life guard at beach, saddle horses at riding club.

Rates $28-$43 per week per person. Children about half price. Special rates for nurse-maids and chauffeurs.

Greetings from . . . .

NORTHERN MAINE

From northern Maine's great inland lakes and streams, from her forest trails and mountain passes, a cordial invitation is extended to the sportsmen of the nation to visit this vacationland, to rest or to play. In northern Maine, sportsmen will find the ideal sportland with every facility for the full enjoyment of their favorite sport; whether it be fishing, hunting, hiking, canoeing or golfing they can be assured of a friendly, homelike hospitality, reigning over all.

Northern Maine's hostelries are famed for their ideal settings, for their fine appointments and for a quality of hospitality that never fails to make a deep and lasting impression on all who come as guests. On the pine scented breezes from the forests that surround these hostelries is wafted a welcome to sportsmen from everywhere to visit northern Maine.

Travel by RAIL . . .

You'll find that travel by rail to this great sportland will be speedier, safer, more comfortable, more convenient and more economical than any other mode of travel. **For specific information** address J. Fred Smith, General Passenger Agent, Bangor and Aroostook Railroad, Bangor, Maine.

cently stated that it is the largest boulder in the world and of great interest to geologists.

The north portion of the county possesses fine trout and salmon fishing in scores of streams, small ponds, and includes the upper reaches of the Rangeley chain, namely Umbagog Lake washing the shores of Upton, Lower and Upper Richardson Lakes, and part of Mooselookmeguntic Lake with fine camps at Upper Dam. Further north are Aziscoos Lake, now called Sawyer, and in the extreme north Parmachenee Lake, famed for trout, and the lake for which the Parmachenee Belle trout fly was named. The northern portion of the county is hilly and mountainous; heavily wooded. There are excellent accommodations at Wilson's Mills.

One of the finest scenic drives in the State, particularly in the autumn foliage season is through Fryeburg, No. Fryeburg, and Evans Notch to Gilead in the western border of Oxford County.

The entire county offers good hunting for bear, deer, and small game; ducks, partridge, and other wild fowl. The activities of numerous fish and game protective associations are making fishing better every year.

Fine tours are offered by many routes in all but the extreme north portion of the county. For those who want wild rugged beauty, accessible only by tote road or canoe, the famous Magalloway region is a paradise.

Mountain climbers may find plenty of their sort of fun on Pleasant Mountain, Sabattus, East Royce, Peabody, Mount Zircon, and Speckled, Old Spec in Grafton Notch, Plumbago, Aziscoos, Deer Mountain and others.

Only the Products Are Different!

We are thankful here at Cadillac that, while helping to arm America, we're still working as we have always worked—that is, to the highest existing standards of engineering and craftsmanship. Our whole time and energies, of course, are devoted to the production of armaments. But the specific work we're doing today is *our kind* of work. We're still adapting precision workmanship to the requirements of quantity production—precisely the type of endeavor for which we've trained for the past forty years. And this combination of the right job in the right place is producing exactly the results you would expect. We are consistently meeting ever-increasing schedules on all armament projects assigned to us.

THE R.A.F.'s *Hit and Run* SPECIALIST!

Douglas
R.A.F. "Boston"

Photo courtesy Douglas Aircraft Co.

THIS shifty bomber can dart in and unload its bombs right on top of a target. It's fast enough to outsmart ack-ack gunners and dodge enemy interceptors. Such performance calls for a high degree of maneuverability—controls must respond to instant demands without friction, without drag, *without fail!*

Fafnirs guarding control efficiency supply the needed, extra margin of safety at the vital points of motion on many American-built battle planes figuring in the headlines these days. Fafnirs have always played a brilliant part in the development of our great aircraft industry. From "barnstormer" to airliner to fighting plane—Fafnirs on the controls have meant positive responsiveness and freedom from friction. The Fafnir Bearing Company, Aircraft Division, New Britain, Connecticut.

Send for copy of Fafnir Aircraft Service Manual you will find it an invaluable service guide

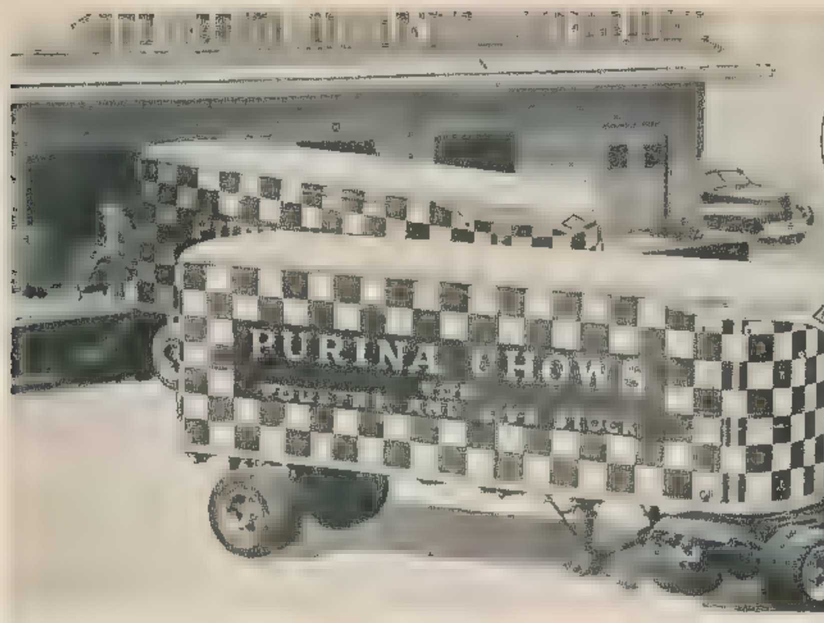
Another Example of How Truck-Trailers Are Aiding America!



A TRUCK IS LIKE A HORSE
IT CAN *PULL* MORE THAN IT CAN CARRY

Ralston Purina Solves Two Tough Hauling Problems

. . . and Contributes to Victory!

RALSTON PURINA COMPANY, St. Louis, makers of breakfast cereals and stock and poultry feeds, have an important part in the task of feeding America.

A few years ago, this company saw in Truck-Trailers the possible solution to one . . maybe two . . difficult hauling problems. One of these was the run from the mills in St. Louis to the big warehouse in East St. Louis . . five miles through heavy traffic and across the busy Municipal Bridge. The other problem was the economical distribution of Purina products to dealer-customers in many territories.

Trailers immediately handled *both* of these jobs so well that Ralston Purina now has a fleet of forty-seven . . all Fruehaufs!

Today, moreover, Ralston Purina's Truck-and-Trailer combinations are paying *extra dividends* that weren't even remotely anticipated when the equipment was purchased . . *dividends to America at War!*

FIRST—FEWER TRUCKS ARE REQUIRED, because the "shuttle system" is used in the haul from mill to warehouse. Two trucks handle five Fruehauf Trailers. Each truck is constantly busy pulling a Trailer while the other Trailers are being loaded and unloaded. No waste of time or equipment. Two motor units actually do the work of five!

SECOND—SMALLER TRUCKS ARE USED. For much of its distribution from mills and warehouses to dealer-customers, Ralston Purina uses economical 2½-ton rated trucks, pulling Fruehauf Trailers with 10- and 12-ton loads. Heavy-duty trucks, large enough to *carry* such loads, are freed for military work for which they are indispensable.

THIRD—GASOLINE IS CONSERVED. The smaller trucks use less gasoline than would heavy-duty trucks, despite the fact that they haul even bigger loads. Moreover, there are fewer trucks to use gasoline!

So . . Ralston Purina handles its work better and more economically with Truck-Trailers . . and America profits, too!

World's Largest Builders of Truck-Trailers

FRUEHAUF TRAILER COMPANY • DETROIT

Sales and Service in Principal Cities

CONSERVE RUBBER AND STEEL, TOO!

- ● A Truck-and-Trailer combination, with a load capacity of 11 tons, requires 1180 pounds of tires. Two trucks, with a total carrying capacity of 11 tons, require 1416 pounds of tires. Thus, for the same load capacity, the Truck-and-Trailer uses 236 pounds less tires—a saving of 16.6%.
- ● The empty weight of the above Truck-and-Trailer combination (less tires) is 12,417 pounds. The empty weight of the two trucks (less tires) is 16,638 pounds. Thus, for the same load capacity, the Truck-and-Trailer uses 4221 pounds less steel and other essential metals—a saving of 25.3%.

Has the war created new problems in your hauling operation? The trained, experienced, practical men at the Fruehauf branch nearest you will be glad to help you if they can . . and they probably can. No obligation at all. That's their principal job these days. Just write to us.

TRUCK-TRAILER TRANSPORT IS DOING AN ESSENTIAL JOB FOR ALL AMERICA

HSGI
Wear Resisting
PARTS

Meet the Most Exacting Requirements

THE fact that most of the modern power constructed during recent years is equipped with Wearing Parts made from HUNT-SPILLER *Air Furnace* GUN IRON is highly significant.

Naturally the requirements become more exacting every year but, long runs, increasing pressures and heavy frictional wear only serve to emphasize the necessity for H S G I Parts.

The wear-resisting properties are helping the railroads to maintain locomotive efficiency, eliminate waste of fuel and reduce maintenance costs. The more you use the greater the economies.

HUNT-SPILLER GUN IRON

Air Furnace

HSGI
Wear Resisting
PARTS

INSURE DEPENDABLE PERFORMANCE

THE present emergency dictates maximum availability from every locomotive. Every wearing part must measure up to the highest standards.

The wear-resisting properties of HUNT-SPILLER *Air Furnace* GUN IRON are helping many railroads to obtain greater mileage from those parts subjected to constant frictional wear and high superheat temperatures.

Performance reports show that many HSGI parts go through several shoppings before renewals are necessary. The increased service life is effecting unusual economies in running and classified repairs.

HUNT-SPILLER GUN IRON

Air Furnace

Keep 'Em Rolling

HSGI
Wear Resisting
PARTS

UNDER the war time program railroads are obtaining a greater freight car mileage with fewer locomotives than in any other period in history.

It is obvious that the quality of the wearing materials is a vital factor in this achievement. It is also significant that the vast majority of modern locomotives are equipped with wearing parts made from HUNT-SPILLER *Air Furnace* GUN IRON.

Application of all the H S G I parts listed below will help to keep your power rolling up maximum revenue miles per month at a minimum cost for fuel and materials.

HUNT-SPILLER
Air Furnace GUN IRON

York County

By JOY DOW, JR.

All states have to begin somewhere. Historically, Maine began in York County; geographically, Maine begins with York County. Over 80% of all visitors to the state come in through this southernmost tip of Maine.

Not only is the county the show-window of Maine — the part that folks see first when they enter the state — but it is also a miniature of all of its other fifteen counties. Here in York County one can find lakes, rivers, streams, beaches, even mountains in the Northwestern part. Here one can hunt, fish, swim, ski, hike or just take it easy. It has as great a variety of recreational resources and possibilities as any other county in the state.

Boston is only fifty miles away to the South. A seventy-five mile drive from that metropolis will bring you right smack into a virgin lake region which few people even know exists. Or the same drive will land you on the sparkling white sands of the largest and best beaches in the State of Maine.

Maybe you would like to own an old home in York County, an old farm house; the county has hundreds of them. Go back through Parsonsfield, Cornish, Limington, Limerick, Newfield or Shapleigh and you'll be shown more beautiful sites for homes and more beautiful homes than you will find in any other region of the same size in the country. Maybe you're interested in the farming areas around Hollis, Buxton, East Waterboro on Little Ossipee Lake, Waterboro, Dayton, Lebanon, Lyman, Acton and North Kennebunkport. This area has an average of 140 consecutive days without killing frosts and proudly boasts of the longest-growing season in Maine. Abundant rainfall of 23 inches in this area during the months of April to October inclusive is excellent for high crop yields. One orchard in the county has 16,000 trees, the largest orchard in the state. The county has 108,000 acres of farm forests alone.

Maybe you would like to take a drive to Sanford to do some shopping. Maybe to Biddeford; both large industrial and business centers. Maybe you would prefer to drive over to the Berwicks, famous historically, and the homes of authoress Gladys Hasty Carroll and the late historian, Sarah Orne Jewett. Saco, which was first settled in 1631 and was the seat of the first court in Maine over 300 years ago, is the only town in the county which produced a governor of the state. Its beautiful main street is one of the best preserved colonial main streets in Maine.

Eliot, together with Kittery, shares the distinction of being the first town to greet visitors in Maine. Along the coast, starting at Kittery where the incorrectly named "Portsmouth" navy yard is located, a visitor can find any kind of seashore property that he desires, Kennebunkport, Kennebunk Beach, Ogunquit, York Harbor, Biddeford Pool and Bay View are the largest of the more exclusive summer resorts. Old Orchard has the longest and finest beach in Maine and is the center of the greatest seashore tourist business in the state. York and Wells are close seconds.

(Continued on Page 9)

LANIER INN

Open All Year
On River Road
Eliot, Maine
5 Miles West of
Bridge at Kittery

Offers to discriminating guests, hospitality amid beautiful surroundings in the quiet rural countryside of Southern Maine, about ten miles from the ocean on the tidal Piscataqua River. Restricted clientele. Salt-water swimming, tennis. Easily reached from Portsmouth, N. H

Delicious meals are served on a glass-enclosed porch or under the apple trees in the adjacent Garden.

The Crafts Shed carries arts and crafts, gifts, and greeting cards.

Garden Concerts by the Lanier String Quartet on Wednesday afternoons and Thursday evenings through July and August. Admission $1 10, including tax.

After crossing OLD Portsmouth Bridge into Kittery on Route 1, turn left at signal light—follow Lanier signs five miles.

PACKING A YEAR
into 9 months

Lima-built locomotives
at work on the New York Central

According to recent estimates of the Shippers Advisory Boards, the number of freight cars that will have been loaded in the first 9 months of 1942 will be close to the full number loaded in all of 1941. An astonishing record of achievement, and one which was made possible only by organization and operational direction of the highest rank—particularly, when it is recalled that in 1941 the railroads already were drawing from their equipment over 100% more transportation than during World War I.

Modern Lima-built Locomotives are playing an important part in the great advance which has been taking place in railroading. In many cases they have supplied the greater power which made it practicable to move more freight, more miles, in less time than ever before.

LIMA LOCOMOTIVE WORKS LIMA LOCOMOTIVE WORKS INCORPORATED **INCORPORATED, LIMA, OHIO**

Piscataquis County

By O. L. EVANS

Piscataquis, the second largest county in Maine and containing literally hundreds of lakes and ponds, including Moosehead Lake, the whole crowned by majestic Mt. Katahdin, offers the summer and winter visitor a variety of unsurpassed recreational opportunities.

Piscataquis has well been called "the county of the lakes," for within its 4205 square miles are 252,872 acres of water, almost twice as great an area as in any other Maine county.

Moosehead Lake is one of the most widely known attractions in Maine. Forty miles long and twenty wide, its shores surrounded by forest extending for hundreds of miles to the Canadian border, Moosehead is the center of a vast recreational region. Its waters provide unexcelled trout, togue and salmon fishing from the time the ice goes out, early in May, until hunting season in October. From Moosehead Lake start five famous canoe trips: the East and West Branch trips, the Allagash, the Allagash Circuit and St. John River trip.

Sebec Lake, reached from Dover-Foxcroft, is thirteen miles long and is one of the original homes of landlocked salmon in Maine. Here salmon, bass and perch fishing is good. Lake Onawa is a gem among Maine lakes, nestled at the foot of Borestone Mountain. Eagle, Chamberlain, Chesuncook, Caucomgomoc, Lobster Lakes, situated in the North Woods, all have their charms and provide good fishing.

The fifty-seven-foot falls on Little Wilson Stream, reached from Greenville, in a sheer slate canyon is one of the best known cascades in the state; and for real grandeur there is nothing finer than the Gulf on the West Branch of Pleasant River. Here the stream is deeply entrenched in a slate canyon. Water falls, sheer walls, fantastic shapes and formations succeed each other in bewildering number, the whole making a picture of surpassing beauty.

Both of these scenic wonders are on the Appalachian Trail whose northern terminus is Mt. Katahdin. By means of this well marked route the hiker may visit some of the most beautiful spots in Piscataquis County, the trail being so laid out that nightfall of each day finds the hiker at a camp where he can find good food and a comfortable bed.

If a man stands alone on the summit of Mt. Katahdin in the early morning and faces East, he will be the first person in the United States on that particular day to greet the rising sun whose rays touch the mountain's crest before any other spot in the country. Katahdin is indeed the king of Maine mountains, rising 5672 feet

1892

OUR FIRST FIFTY YEARS—

1942

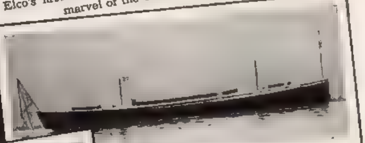
A Log of the Famous Elco Cruisers—Known The World Over For Their Superior Design and Quality Construction

1893 Elco's first order! 55 of these craft were the marvel of the Chicago World's Fair.

Just half a century ago, the first Electric Launch was water-borne at Morris Heights on the Harlem River. Some idea of the pioneering progress of Elco since then is given by the pictures on these pages. We think they will interest all yachtsmen as a partial record of the history of a great industry and a greater sport.

On this our 50th Birthday, we wish to express our thanks to our many friends in the industry for their cooperation, and our appreciation also to the thousands of Elco owners for the support they have given us. Today in 1942, our entire plant is devoted to building Elco Motor Torpedo Boats for the Navy. Thus another proud chapter is being added to our 1915-1918 record of national service. Unfortunately, the size of this program has forced us to discontinue construction of pleasure craft until the emergency is over.

Looking forward to our return to private construction, we hope that 1992 will mark another 50 years of pioneering Elco service to America's Yachtsmen!



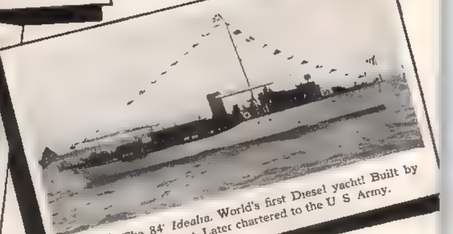
1895 An Electric Launch deluxe. Built to order for the Czar of Russia!

1904 The Elco Autoboat – hit of the first Motorboat Show, forerunner of the runabout.

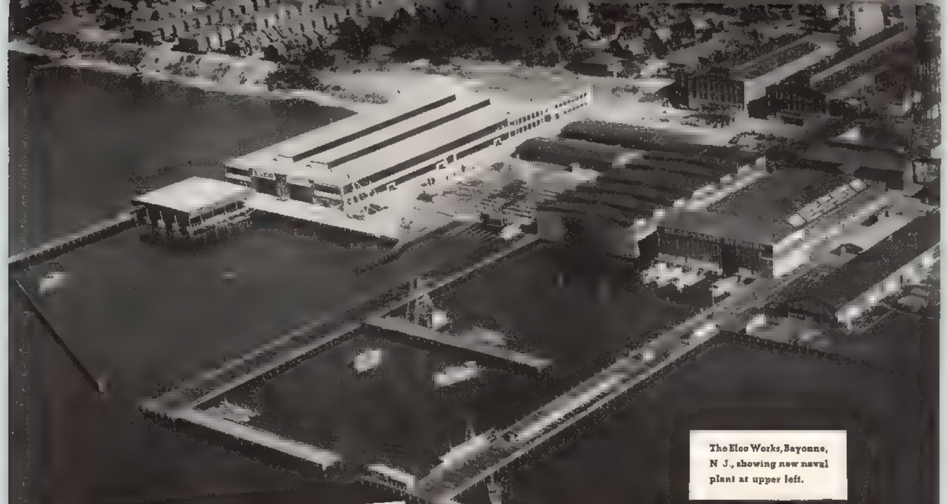
1904 The first self-bailing, self-righting, non-sinkable power lifeboat. Built by Elco.

1914 The first standardized cruiser ever built! This double cabin model was an Elco "First"!

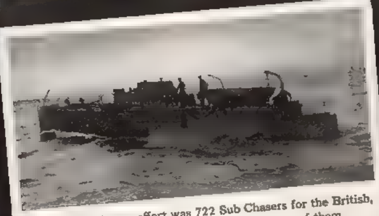
1908 Elco builds this mine-laying motor boat for the U. S. Army! One of an order of 32 of these craft



1911 The 84' *Idealia*. World's first Diesel yacht! Built by Elco as an experiment Later chartered to the U S Army.



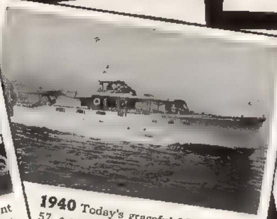
The Elco Works, Bayonne, N. J., showing new naval plant at upper left.



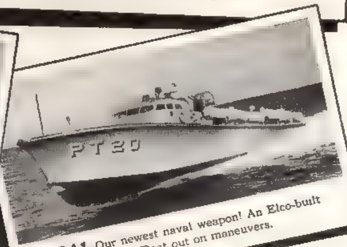
1917 Elco's war effort was 722 Sub Chasers for the British, French, Italian and U. S. Navies! This was one of them.

1927 34′ single cabin Elco Cruisette, one of the most popular models the Company ever built.

1923 World's first permanent motor boat showroom, Port Elco, still at the same address.



1940 Today's graceful Motor Yacht 57 a superb yacht in every detail.



1941 Our newest naval weapon! An Elco-built Motor Torpedo Boat out on maneuvers.

Elco
THE ELCO WORKS, BAYONNE, N. J.

For Half A Century, America's Leading Builders of Fine Cruisers and Motor Yachts

INITIALED WARE

Wherever shown and however used Salem's Initialed Dinnerware has proved an immediate and continued favorite. Its success has been nothing short of phenomenal. Every woman loves to have personalized articles about her—initialed silverware, table linens, towels, etc. Each piece carries her own initial in 23-karat gold. Further decoration consists of three gold bands on the edge of the ware, and gold on the handles. The decoration is rich in its simplicity, the shape is modern, smooth flowing, truly "Streamline" in both name and design. **BE SURE TO STATE INITIAL WANTED.**

Identified by the full name stamped on every piece, these entrancing sets of Theodore Haviland china are the very finest in the world. For more than a century this famous china has been recognized as the supreme achievement in quality, beauty, perfection. Originally made in Limoges, France, Theodore Haviland ultra-fine china is now produced in its new American factory—with exactly the same standards of perfection. All the lovely, inspired patterns illustrated in color on the opposite page and priced on this page are guaranteed genuine Theodore Haviland. Every piece is unconditionally certified to be perfect quality and without a single flaw. Write for sample plates on memorandum, if you wish to see and compare before ordering

CONCORDE — Shown Below — Choice of Two Gold Stripings

Rich simplicity reflects the classic beauty of this superb quality Theodore Haviland china. Flawless white with a wide ivory border. The symmetrically shaped rim has a pure coin gold edge accentuating the scallop and the inside of the border is banded in gold also. Identical in design is the LEEDS, with a slightly narrower striping, a saving in coin gold that makes possible the lower prices. Shown in color on the opposite page, also illustrated below in a grouping of pieces.

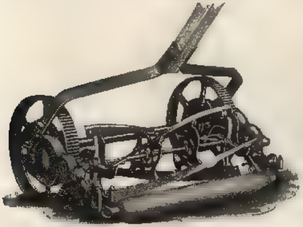
PENNSYLVANIA LAWN MOWERS

FINEST LAWN MOWERS MADE IN AMERICA. HIGHEST GRADE MATERIALS—PRECISION TOOLED—RIGIDLY INSPECTED AND PRICED CONSISTENT WITH QUALITY.

YEARS OF SERVICE ARE BUILT IN EACH PENNSYLVANIA LAWN MOWER.

Continental



The Mower for Extra Hard Wear

Recommended for railroads, parks, large estates, particularly for high and tough grass.

Cutting Reel—diameter 6½ inches, 4 blades driven by a chain of 3 cut gears on each wheel.

Blades—4 crucible steel, oil hardened and tempered

Bed Knife—special design spring pattern.

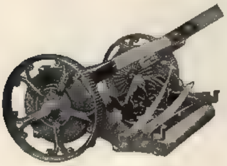
Adjustment will cut grass from ½ to 1½ inches.

Wheels—metal, diameter 9½ inches.

Width Cut, In.	Each	Weight, Lbs.
17	$23.95	76
19	25.85	80

Pennsylvania Junior

STANDARD MODEL



A masterpiece of construction ideal for parks, cemeteries, or large estates. Easily cuts tough Bermuda, devil or crab grass.

Superior construction made the more desirable where subject to hard use.

Cutting Reel diameter 6 inches, 5 blades

Ball Bearing—driven by a chain of 3 cut gears on both sides.

Blades—5 crucible steel oil hardened and tempered

Bed Knife—hardened steel with raised lower edge.

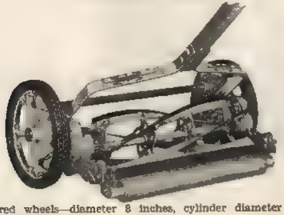
Adjustment—eccentric screw with positive lock.

Bearing—self-aligning, hardened steel cup and cones.

Wheels—metal, diameter 10 inches.

Width Cut, In.	Each	Weight, Lbs.
15	$22.75	66
17	24.95	69
19	26.85	72
21	28.75	75

RUBBER TIRED MODEL



Rubber-tired wheels—diameter 8 inches, cylinder diameter 6 inches, 6 blades. For bent grass.

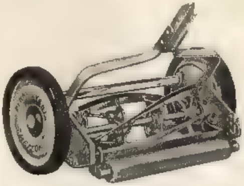
Width Cut, In.	Each	Weight, Lbs.
18	$29.95	63

Meteor

Light Weight—Weighs only 36 pounds complete—one-third lighter than regulation mower -yet it holds the ground and clings to terraces while cutting toughest grass.

Quiet—Flexible rubber tires reduce clattery noise to a minimum

Accurate ball bearings.



Tough Aluminum alloy side plates and wheels. Hexagon steel shaft, bolted to frame. Steel lower blade with raised cutting edge—lasts longer.

Ball-bearing revolving reel, with high carbon steel blades riveted to unbreakable brackets. Extra long unbreakable roller brackets adjustable for height of cut.

High wheel—10 inches in diameter, 1½-inch tread, with rubber tires

Ball-bearing revolving reel cutter Diameter, 6 inches.

Adjustable to leave grass standing ⅝ to 1½ inches high.

Handle—steel dull aluminum finish. Length, 40 inches.

Roller—varnished hardwood. Diameter, 2 1/16 inches.

Finish—aluminum, highly polished, trimmed with red and yellow.

PENNSYLVANIA LAWN MOWERS

Anniversary

Modern in appearance and performance. Light running—built of the best materials. Highly recommended for medium size estates, and general household use. These mowers have several features not usually found in moderate priced mowers.

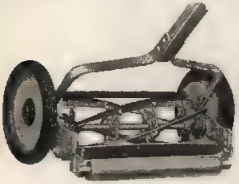
Adjustment with spring back of cone keeps mower adjusted. Cone is locked with screw preventing constant pressure and wear on bearing parts.

Staytite handle prevents handle from becoming loose due to shrinkage.

Bed Knife—hardened steel raised edge—firmly bolted to lawn bar.

Hexagon frame shaft giving added rigidity

Hardened Steel Pawl with shoulder to prevent slipping.



RUBBER TIRED—BALL BEARING

Wheels—10 inch disc pattern with clincher type rubber tires.

Tires are removable and can be operated on metal rims.

Streamline—Wheel and side plates.

Blades—5 or 7 high carbon steel riveted to four unbreakable spiders.

Height of cut—½ to 1½ inches.

Beautiful finish—Silver and gold, red and green trim.

5 Blades—17 Inch Cut

ART517 .... Each $12.50

Here is a set that will please those of your customers who want the rich distinctive beauty of a gorgeous cabinet in addition to the many internal features that are indispensable to superior reception. Equals sets costing twice as much what a saving! Because in this Imperial you can enjoy the advantages of every exclusive development and effects of the greater drawing power of the built-in Parascope antenna. And, too, plus a **large 5-inch electro-dynamic speaker** that reproduces the entire musical register with fine fidelity, bringing into the home a purity of tone never dreamed of in a set of this class—actually recreating the stirring realism of the originating performance. Tone is kept at desired level by automatic volume control. **Covers tuning range extending from 540 to 1700 KC for standard American broadcasts.** Exceptionally large lighted airplane dial with 5½ to 1 cord drive tunes stations speedily. The circuit includes the [illegible] one each 12SA7, 12SK7, 12SQ7, 50L6GT, 35Z5GT. Exquisite modern Walnut cabinet **size 13x7½x6¼ in.** For AC-DC power.

This New **Imperial** IN MODERN CABINET OF FINEST WALNUT

Supremely beautiful cabinet with graceful curved front [illegible] richness of design. Finest of American sliced walnut veneers, substantial on solid base. The vertical bar over grille adds to its charm. Hand rubbed high lustre finish. Size 13x7½x6¼ in.

Imperial Modern Sloped-Dial Table Model

5-TUBES

Built-In Loop Aerial

Illuminated **Dial Is Easy to Read from Standing or Seat Position.**

Automatic Volume Control

De Luxe Superheterodyne

The eye as well as the ear can detect outstanding distinctions in this unique new Table Model radio. Unusual in cabinet design yes—but one's first glance catches the idea of **ease in finding any station on its big-lettered slide rule tilt-dial,** lighted up from the side, and **slanted at such an angle that a person can see to dial any point** [illegible] directly in front of the dial. Placed on a regular table or low end-table the "face" of this radio "looks up at you" whether you are sitting or standing—always right within eye-reach.

That slanting-front dial panel is an advantage, but only one of many in this otherwise remarkable 5-tube Superheterodyne. For it affords definitely superior tone quality and fidelity of all broadcast entertainment in the range of [illegible]50 to 1600 KC band. **Built-in loop aerial**—with provision for outside aerial and ground connections to increase its receiving capacity. 5-inch **electro-dynamic speaker, automatic volume control, tone control, and operates on any 105-125 volt A.C., or D.C.** 5 tubes, one each, 12SA7, 12SK7, 12SQ7, 50L6GT, 35Z5GT. **Housed in a solid wood cabinet of rich walnut finish,** revealing the beautiful wood grains with attractive fluted corner columns. Size 11 in. wide, 6¾ in deep, and 8¾ in. high.

Safeguard the Democratic Way of Life With Your Dollars

The price of liberty is "Eternal vigilance," said an eminent American statesman years ago when this nation was cradled in freedom after having been born in the throes of revolution. As in that day liberty could be preserved only by the loyal support of its citizens, so today, threatened by foreign foes, it is incumbent upon all who love liberty to do everything possible to prevent this menace from gaining advantages that might lead to its ultimate triumph.

Those unable to distinguish themselves in active service can back up the armed forces with the sinews of war—the materials and equipment without which success is impossible. Your money enlisted in the service of your Uncle Sam will substantially support the men "fronting" for you. Buy Bonds and War Savings Stamps yourself and encourage others to do the same—**but BUY NOW!**

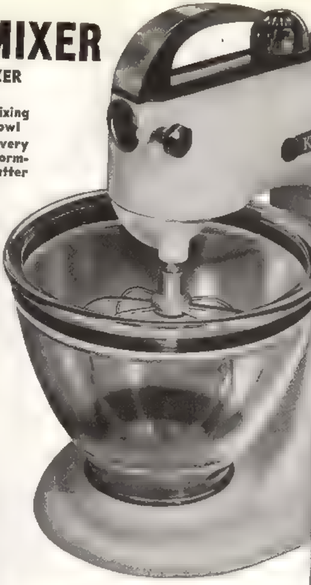
KITCHEN-AID MIXER

POPULAR PRICED ELECTRIC MIXER WITH TOP-QUALITY FIXTURES!

- **"Thoro-Mix" Action Insures Thorough Mixing —Without the Necessity of Turning the Bowl**
- **Ten Definite Speeds—Mixes Foods of Every Consistency — Assures Full-Power Performance at All Times. Won't Slow Down as Batter Thickens**



MAKES COOKING AND BAKING A PLEASURE

Saves time—saves energy—saves work! Every housewife will appreciate the many conveniences this KitchenAid Mixer affords. It mixes, beats, whips, stirs ingredients of all consistencies and quantities—extracts juice from fruits.

EASY, ECONOMICAL TO OPERATE

Anyone can operate this Mixer. Just put ingredients in the bowl, attach it to mixer, turn on the switch and, presto, in a few minutes the contents are ready for baking or serving, depending on the dish you are preparing. Ten definite speeds (with intermediate speeds) insure the proper speed for each individual use.

MODERN — EFFICIENT — DURABLE

Beautiful streamlined model in gleaming White Dulux finish with metal parts either bright chrome-plated or stainless steel. As handsome as it is practical in the modern kitchen. Easy to clean. Utility accessories are easily attached to the attachment hub. Has ultimate power of ½ H.P. Lifetime lubrication—requires no oiling. Durable, will give long-lasting satisfactory service.

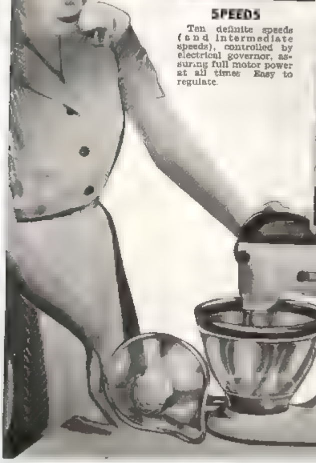
STANDARD EQUIPMENT

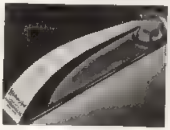
Mixer comes complete with one 3-quart, clear-vision, heat-resisting glass bowl (which screws rigidly into base), all-purpose beater, juice extractor.

Measurements

Height 13¾ inches, base 7⅛x12⅝ inches. Comes complete with juice extractor.

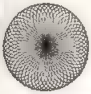
A63615 Price.............................. **$43.70**





SPEEDS

Ten definite speeds (and intermediate speeds), controlled by electrical governor, assuring full motor power at all times. Easy to regulate.

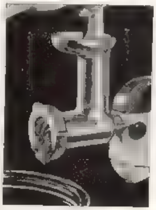


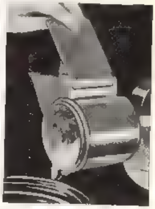
"THORO-MIX" ACTION

. . . exclusive on KitchenAid Mixers, eliminates the necessity of turning the bowl, and assures far superior results. The beater or whip is carried around stationary bowl, while beater turns, on its own axis, in the opposite direction.

JUICE EXTRACTOR

Crystal-glass bowl and glazed porcelain reamer. Simple to operate under low cupboard and easy to clean. Quickly and thoroughly extracts the juice of all citrus fruits. Strains seeds and fibre but retains pulp.





ATTACHMENTS MOST IN DEMAND

COLANDER AND SIEVE

Makes pie filler, apple, cranberry and other sauces. Removes skins and seeds from fruit—fibre from vegetables for purees and soups. Takes the "tedious labor" out of these daily chores and makes cooking a joy.

A63616 Price......**$5.50**

FOOD CHOPPER SET

Chops or cuts meats, raw or cooked. Ideal for making meat loaves and savory chopped-meat dishes. Also nuts, raisins, dates, etc., an excellent aid in making salads, candies, cake fillers or toppings. No mashing. An accessory that will be used daily

A63617 Price......**$7.95**

ROTOR VEGETABLE SLICER

Slices potatoes, carrots and other vegetables—as well as firm fruits. Slicer plate is set for best thickness for most operations. Also accommodates Rotary Shredder and Grater Plate for cole slaw, grating cheese, etc. Worth every penny of its nominal cost.

A63618 Price......**$5.80**

THE UNIVERSAL FOOD MIXER

MORE CONVENIENT — MORE ECONOMICAL THAN EVER BEFORE

FOOD AND MEAT CHOPPER

This attachment has a 28-hole cutter. Inside cutter grinds meat without crushing. A coarse plate and 2 cutters are furnished for chopping vegetables Cutter knives and meat plates are hardened steel with ground cutting surfaces. Comes complete with wooden stomper.

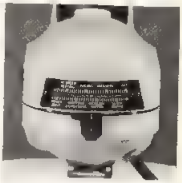
PEA HULLER

A sturdy, double-duty attachment. Peas and lima beans are hulled quickly, easily. It slices green beans quick as a wink. Fits direct to power unit . . . is absolutely safe and automatic. Easily cleaned.

SHREDDER AND SLICER

Ideal for shredding and slicing fruits and vegetables. This attachment has many uses — does them all in a jiffy. Equipped with safety clutch Cutters cannot operate when feed trough is open Cutters are stainless steel, have ground cutting edges. Attaches direct to power unit in a few seconds. Cutting or shredding speed can be regulated by speed control dial.

- **BEATS, MIXES, JUICES**
- **BUILT-IN POWER UNIT**
- **AIR-COOLED MOTOR**
- **USES AC-DC CURRENT**
- **ADJUSTABLE SPEEDS**
- **TWIN IN-LINE BEATERS**
- **USEFUL ATTACHMENTS**
- **PORTABLE POWER UNIT**



EASY-TO-READ SPEED DIAL

Multi-speed control dial is an exclusive Universal feature Dial is located on rear of motor housing, has knob that moves from right to left on calibrated plate. White printing on black background of plate gives correct speeds for mashing, juicing, general and slow mixing, whipping, creaming, etc. A centrifugal governor maintains full-power at any speed you choose. Convenient, easy-to-use speed dial assures correct speed for each operation

FULL POWER AT EVERY SPEED NO "POWER UNIT" NEEDED

The streamlined, efficient Universal Food Mixer is an appliance that every woman needs in her kitchen. It beats and mixes everything with full power at every speed You can order the Universal with or without attachments for juicing slicing, shredding, chopping and hulling The mixer has a direct drive so designed that you do not have to buy costly extra "power units" All attachments fit direct to the power unit in the mixer itself It is equipped with an exclusive centrifugal governor that maintains full power at every speed New speed control assures correct number of revolutions-per-minute for every type of mixing—banishes guesswork

MIXING BOWLS AND JUICER IN COMPLETE UNIT

Included with the complete Universal Food Mixer unit are two sanitary glass mixing bowls—1-quart and 3-quart capacities. Also included is a juice-extractor, with strainer, that gets every drop from citrus fruits. The Universal is equipped with an automatic, smooth running turntable. This feature speeds mixing assures perfect blending of ingredients Motor tilts back and can easily be removed. Evenly balanced and light in weight, the motor can be carried anywhere in the kitchen The chip-proof, acid-resisting, baked White enamel finish of the Universal is easily kept spotlessly clean.

BANISH TIRESOME HAND BEATING FOREVER

The Universal will do a multitude of formerly fatiguing tasks, easily and speedily—will give a lifetime of reliable, economical service

A63605	Mixer with Juicer	$32.50

New Super-Power NEPTUNE-MUNCIE OUTBOARD MOTORS

LONG LIFE DEPENDABILITY

Neptune-Muncie motors offer more exclusive features conducive to finest performance, speed, power and ease of handling, than any other outboard motors can show at such low cost. Sell with least resistance on reputation backed by widespread national advertising in Sports and Outing Magazines.

ONLY LOW COST MOTORS WITH THESE FEATURES

Embodied in Most of the Models Shown on Both Neptune Pages

Underwater Exhaust

Silences exhaust of gas vapors in slip-stream behind boat. Muffler and exhaust discharge under water into propeller stream. (On ALL models.)

Synchronized Control

Spark and gasoline control both synchronized in one simple lever Adjusts automatically (On 2 5, 3 5, 6 and 9 5 H.P. motors.)

Alternate Firing

Gives more power with less weight, plus smooth operation Insures absolute minimum of vibration at any speed. (On 3.5, 6, and 9 5 H.P.)

New Water Pump

Rollator type water pump provides positive cooling at all speeds. Can't fail — can't overheat Pump enclosed in gear housing. (On 2 5, 3 5 H P)

Recoil Starter

Just a pull on the handle and motor starts. No rope to coil. Automatically re-coils when released. (On 2.5, 3.5, motors.)

Needle Valve Adjust.

Simply set lever on calibrated dial to adjust needle valve for rich or lean mix or quick starting. (**On ALL** but 2 and 4 H.P)

Automatic Pilot

Holds motor steady on course without hand on handle Eases strain on operator of steady steering (On all but 1.5 H.P. Junior Single.)

Reverse Operation

Motors turn on pivot in full 360 degrees to drive boat in reverse—handy to back away from shore. (On 2 5 H P and 3 5 H.P. motors.)

JUNIOR SINGLE

1.5 H.P. MOTOR

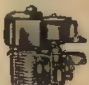
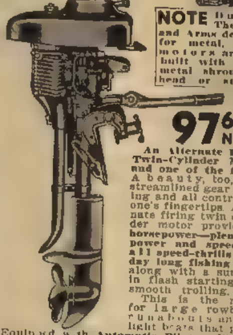
THE NEPTUNE "SIX"

6 H.P. MOTOR 2 CYLINDERS

Alternate Firing

This Motor With This Head





NOTE Due to The War and Arms demand for metal, these motors are not built with usual metal shroud on head or starter.

Dealer Price, **97.65 Net**

An Alternate Firing Twin-Cylinder Motor, and one of the finest. A beauty, too, with streamlined gear housing and all controls at one's fingertips. Alternate firing twin cylinder motor provides 6 **horsepower—plenty of power and speed for all speed-thrills and day long fishing trips** along with a surprise in flash starting and smooth trolling.

This is the motor for large rowboats, runabouts and for light boats that plane. Equipped with **Automatic Pilot;** calibrated **dial type needle-valve control, and under water silencing,** with gasoline vapors exhausted into slip-stream. Other strong points are its synchronized spark and gas control, ball-bearing crank shaft, needle-roller bearing drive shaft, and centrifugal pump and siphon cooling system. Length 41½ in., width 13 in., stern height 7⅞ in. Weight 47 lbs. LIST 139.50.

Be Prepared for Fire with Pyrene Fire Extinguishers

FULLY CHARGED—READY FOR IMMEDIATE USE TO PROTECT YOUR PROPERTY

Pyrene fire extinguishers are the most effective type for smothering all classes of fire in incipient stages, fires in flammable liquids or electrical equipment.

Double-acting pump with patented rotating pick-up will discharge a steady, continuous stream 25 to 30 feet, no matter in what position the extinguishers are used.

Uses only Pyrene fire extinguishing liquid, as other liquid may cause corrosion or make use on electrical equipment dangerous. Always dependable—does not freeze at 50 degrees below zero Fahrenheit. Non-injurious to delicate fabrics.

Initial charge is good until used. Annual recharging is not required. Periodic inspection should be made to assure instant readiness.

Colors—In addition to standard metal finishes listed below, Pyrene Fire Extinguishers can be supplied in colored duco finishes to match interior decorative schemes.

Approvals—Inspected and labeled by the Underwriters' Laboratories, and approved by Associated Factory Mutual, the U. S. Bureau of Navigation and Steamboat Inspection, and Good Housekeeping Institute.

MOTOR CAR TYPE

Complete with special bracket for mounting on an automobile steering post, above or below the instrument board, easy to reach, out of the way, instantly available.

Efficient for fires in oil, gasoline, wood or upholstery

Capacity 1 pint. Length over all 11¼ inches

Nos.	Each	Finish
M-C11A	$10.50	Polished Brass
M-C14A	12.50	Chromium Plated

Heavy Vehicle Type

More substantially constructed than regular type to withstand the hard usage of truck service. Brackets furnished with these extinguishers are of heavy gauge steel with metal strap and quick-opening buckle extending around the extinguisher, in addition to retaining cup at bottom and spring clips at top. Polished brass regular finish.

PRESSURE TYPE

Adaptation—for industrial use. Recommended for fires in flammable liquids, electrical equipment, and incipient fires in ordinary combustibles. Discharged without pumping—by air pressure

Construction—Top stamping and bottom casting of high pressure brass. Inner and outer shell of heavy gauge seamless drawn tubing, forming two chambers—inner for air pressure, outer for Pyrene liquid.

Open face air pressure gauge at top. Inspection glass provided to observe liquid level. Tank pressure 100 pounds, stream range 30 to 40 feet. For use where 100 pound air pressure line is available. A special nozzle, standard equipment on the 2 quart unit and supplied, when specified, and at slight additional cost on the 1 gallon, provides either a solid stream, a fan shaped spray or a temporary shut-off. Both units are operated by opening a valve which releases the air pressure to liquid chamber expelling liquid in a continuous stream

Approval. Inspected and labeled by Underwriters' Laboratories and approved by Associated Factory Mutuals and, with built-in pump, approved by Bureau of Marine Inspection and Navigation for Marine Service.

ONE GALLON

Especially designed for larger capacity industrial use. Shoulder strap can be used

Height over all 24 inches, diameter of tank 6 inches.

Nos.	Each	Finish
M-C45	$70.00	Polished Copper
M-C42	P.O.A.	Nickel Plated
M-C44	P.O.A.	Chrome Plated

TWO QUART

Nos.	Each	Finish
M-C104	P.O.A.	Chromium Plated
M-C102	P.O.A.	Nickel Plated
M-C105	$40.00	Polished Copper

With Built-in Air Pump

Discharges without pumping by internal stored air pressure.

M-C105M.............Each ‡$44.00

PYRENE FIRE EXTINGUISHERS

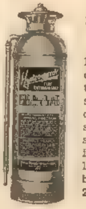
Two-Gallon Pump Type

Construction—Sturdily built of copper

Adaptation—Designed for use where additional capacity is needed for fighting such fires as electric arcs, gasoline, kerosene, grease, varnish, etc. Especially adaptable in industrial plants where there are large installations of electrical equipment

Approval—Inspected and labeled by the Underwriters' Laboratories, and approved by the Associated Factory Mutuals. Use only Pyrene Fire Extinguisher Liquid. Will not freeze at 50° below zero. Height over all 24⅝ inches, diameter of tank 7 inches.

Nos.	Each	Finish
M-C94	P.O.A.	Chromium Plated
M-C92	P.O.A.	Nickel Plated
M-C93	‡$70.00	Polished Copper



HYDROGARDE WATER TYPE

2½ Gallon Capacity

Ruggedly constructed of finest quality cold rolled copper—tested to withstand 350 pounds pressure. Especially designed to exclude moisture. Screen devices safeguard against clogging. A safety valve protected by a conical screen in the ring cap relieves excessive pressure caused by overfilling with water. Height 24 inches, diameter 7 inches.

Nos.	Each	Finish
M-H13	‡$26.00	Polished Copper

M-WC1—Extra Cartridge complete P.O.A.

Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added.

‡ **Goods marked thus (‡) are not carried in stock and can be furnished only by shipment direct from factory.**

Pyrene Fire Extinguishers

Efficient protection from fires in free burning materials such as wood, rubbish and textiles where a cooling and quenching effect is of first importance

Simple operation—When turned upside down these dependable extinguishers eject a wet chemical stream 40 feet in any direction Should be recharged immediately after use. Charges are compounded only with high grade materials, full weight, accurately proportioned. Should be protected against frost.

Approval—Inspected and labeled by Underwriters' Laboratories and approved by Associated Factory Mutuals and Bureau of Marine Inspection and Navigation for use where not exposed to freezing temperatures.

ESSANAY SODA AND ACID TYPE

2½ Gallon Capacity

Riveted shell, dome and bottom are made of the finest quality cold-rolled copper. Seams thoroughly sweated and heavily backed with solder Side seam riveted in addition to soldering. Fully tested to withstand a pressure of 350 pounds.

Height 24 inches, diameter 7½ inches. Complete with wall bracket

Nos.	Each	Finish
M-SX14	P.O.A.	Chromium Plated
M-SX12	P.O.A.	Nickel Plated
M-SX13	$18.00	Polished Copper

GUARDENE SODA AND ACID TYPE

2½ Gallon Capacity

Seamless drawn one-piece body. Collar assembled to body without solder by patented process. No side seam—no rivets—no beads New clean-cut appearance gives immediate impression of strength and durability Interior completely coated with a corrosion resisting alloy for longer life. Fully tested.

Height 24 inches, diameter 7½ inches.

Nos.	Each	Finish

Brackets With Special Finishes Are Extra Prices on Application

FASTFOME

2½-Gallon Capacity

Smothers fire in oil, gasoline, naphtha, tar, wax, grease, shellac and inflammable solvents. Releases 22 gallons of tough fire killing foam that spreads over the burning surface, liquid or solid, cuts off the supply of oxygen and forms a tough, airtight and fire-proof blanket.

Construction—Standard riveted shell—outer shell dome and bottom of finest quality cold rolled copper, removable inner container of seamless drawn copper tubing entirely coated with a corrosion resisting alloy

Operation—Turned upside down to mix contents of inner and outer chambers, it ejects a stream 40 feet in any direction Should be recharged immediately after use.

Approval—Inspected and labeled by the Underwriters' Laboratories, approved by the Factory Mutual Laboratories.

Maintenance—Must be recharged yearly and protected against frost. **Height 24 inches.**

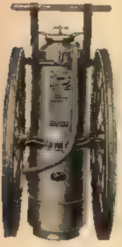
Pyrene Ever-Reliable Fire Extinguishers

Fire-Fighting Efficiency for Every Type of Fire

PHOMENE FOAM TYPE—ENGINE ON WHEELS

Mobile protection for hazards too large for hand extinguishers. Consists of an outer tank and an inner removable receptacle. Outer tank made of sheet-steel, seam-welded and brazed, and a drawn steel bottom and dome, welded to the tank cylinder. Coated entirely by hot dipped galvanizing process. Cold rolled copper inner container coated inside and outside with a corrosion-resisting alloy of lead and tin. Tested to 400 pounds pressure. Attractively finished in red enamel.



Ideal portable machines wherever quantities of oily or highly flammable materials are manufactured, used or stored.
OPERATION—A manually operated stopple closes the container to prevent splashing and premature operation. Unscrew top valve to open inner container—lower engine to horizontal position with handle resting on ground. Delivers a tough heavy foam blanket that clings to walls or floats on surface of burning oil. The foam is long lasting and re-ignition proof. Efficiently puts out fire and keeps it out. Operated best between 55 and 90 degrees Fahrenheit.
APPROVAL—Inspected and labeled by the Underwriters' Laboratories and approved by the Associated Factory Mutuals.

GUARDENE SODA AND ACID TYPE

Designed for protection of free-burning materials—such as lumber yards, camps, heated warehouses, ships, textile factories, and small town protection.
OPERATION The loose stopple engines (SD1K and SD2L) are operated by lowering handle to ground. Manually operated types (SD2M and SD3M) operate by first unscrewing valve at top and then lowering handle to ground. To stop discharge bring engine back to standing position. Complete with approved chemical hose and a brass shut-off nozzle.
APPROVAL—Inspected and labeled by the Underwriters' Laboratories.

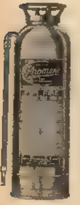
PHOMENE FOAM TYPE

2½ Gallon



Delivers about 22 gallons of free-flowing foam that smothers fire with a flexible, insulating, fire-resistive blanket that floats on liquid, clings to solids and excludes air. Recommended for fires in ordinary combustibles and especially for fires in oil, gasoline, naphtha, tar wax, grease shellac, lacquer, paints and flammable solvents.
CONSTRUCTION — Seamless drawn one-piece body and patented solderless collar assembly constitutes an important improvement in fire extinguisher construction. Side seams and rivets are eliminated. Interior completely coated with a corrosion resisting alloy. Each extinguisher fully tested for efficiency.
OPERATION—Turned upside down to mix contents of inner and outer chambers it ejects a stream 40 feet in any direction. Should be recharged immediately after use.
APPROVAL—Inspected and labeled by Underwriters' Laboratories, and approved by Associated Factory Mutuals; also by Bureau of Marine Inspection and Navigation when supplied with pressure relief valve.
CHARGES—Phomene charges are especially compounded, accurately proportioned, of high quality, full weight chemicals packed in airtight cans. Operate efficiently in any standard foam type extinguisher.

DURAGARDE ANTI-FREEZE PUMP TYPE

ADAPTATION—Approved for the protection of heated and unheated property where the hazards are free-burning materials, as wood, paper and textiles. Large capacity—refillable while being operated—suitable for farms, lumber yards and camps, docks, ships, bridges, coal yards, summer homes, cottages, unheated warehouses and grass and bush fires.

CONSTRUCTION—Made of finest quality sheet copper, heavily tinned inside to resist corrosion. Fitted with a mechanically perfected, double acting, non-syphoning pump with seamless drawn brass cylinder and brass piston operating in ball-bearing smoothness. A copper screen in the pump prevents clogging.

OPERATION—Simple and accurate—operate the pump with one hand and direct the steady 45 foot stream with the other. Convenient foot rest attached for holding the extinguisher steady.

CHARGES—Accurate freeze-proof charges dissolved in water give anti-freeze protection to 40 degrees below zero. Protect your extinguisher by using charges compounded especially for Duragarde extinguishers.

APPROVAL—Inspected and labeled by Underwriters' Laboratories and approved by Associated Factory Mutuals and Bureau of Marine Inspection and Navigation.

General Electric and Sonora PORTABLES

The miracle of modern radio — built with the precision of the finest watches; marvelous in performance; amazingly light and small.

GENERAL ELECTRIC PERSONAL RADIO

Illustrated directly above is the famous G. E. radio sensation. Plays anywhere—on self-contained batteries or AC-DC outlet. Measures 4$\frac{7}{8}$x3$\frac{11}{16}$x8$\frac{13}{16}$ inches—weighs only 5 lbs.—yet receives even distant broadcasts with remarkable sensitivity, rich tone fidelity, and volume to spare. Full 5-tube superheterodyne circuit with "big" set performance. No aerial or ground needed. Dynamic speaker; new, midget, low-drain tubes; and long-life batteries. Camera-type case of Blue leatherette with light plastic trim. A genuine G. E. precision instrument—at a real "value-giving" price.

A29103 Complete..............................$41.50

SONORA 3-WAY "CANDID" RADIOS
OPERATE ON SELF-CONTAINED BATTERIES AND AC-DC OUTLETS

Illustrated at the right and above are two styles of the famous Sonora personal radio; tiny in size—mighty in performance—with the rich beauty of a jewel. It will be your constant companion wherever you go, indoors and out, bringing you your choice of the air waves.

PLASTIC MODEL. Molded in luxurious Gray-Black plastic with hinged door and carrying handle. 8$\frac{3}{8}$x5$\frac{1}{4}$x4 inches. Weighs only 4½ lbs.

LEATHER COVERED MODEL. Sturdy wood-box construction covered with genuine top-grain Cowhide leather in rich Florida Tan finish, Walnut instrument panel hinged door, and carrying handle. Same size and weight as Plastic Model described above.

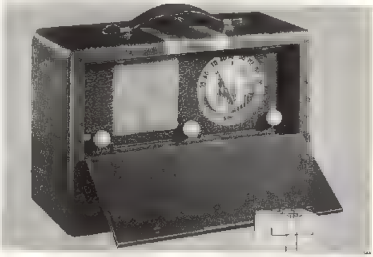
Both models are equipped with identical Sonora instruments. A compact, 5-tube superheterodyne circuit of amazingly versatile design that brings in distant stations just as effectively as many large sets. Covers the complete standard broadcast range, has the new slide-rule dial; automatic volume control, dynamic speaker; visual "off, AC-DC, battery" switch. Self-contained power cord and batteries. Famous "Sonora-scope" loop-no aerial or ground required. The Sonora "Candids" bring you the finest in personal radio performance—a richness of fidelity tone reception that surpasses many larger, more expensive sets.

A29100 Plastic Model (Illustrated Top Right)..............................$35.90
A29104 Leather Covered Model (Illustrated at Right)..............................$41.90

TRIPLE-DUTY SONORA PORTABLE
LUGGAGE-TYPE CASE—AC-DC AND BATTERY

A smart piece of luggage to carry with you—it will entertain you wherever you go. Brown luggage-type case with a handsome dual-grille effect. 9½ inches high, 6 inches deep, 14 inches long, weighs 11 lbs. Within this handsome case with its slide-rule dial is a master-built Sonora 5-tube superheterodyne circuit. Remarkable tone quality sensitive tuning and "big set" volume throughout the standard broadcast band. 5-inch dynamic speaker, built-in "Sonora-scope" loop—no aerial or ground needed! Long-life batteries and power cord built in. The perfect radio companion, versatile and dependable whether you stay at home or go places. A truly low price for such thrilling performance

A29105 Complete..............................$37.90



SONORA TRAVEL-COMPANION RADIO
"SHIP-SHAPE AIRPLANE" LUGGAGE CASE

The favorite of America—at home or "on-the-go"! The luxurious striped Brown luggage cloth covered case with hinged protective lid and sturdy carrying handle, 14x9½x6 inches, that weighs only 12 lbs., is as modern as the transcontinental stratoliners. Operates on its own self-contained long-life batteries or any AC-DC outlet—indoors or out of doors. Five-tube superheterodyne circuit, 5-inch dynamic speaker, big airplane type dial and latest 3-way switch. Built-in "Sonora-scope" loop—no aerial or ground needed. Small illustration above shows protective lid closed. Compact and light in weight, yet built with the same precision and dependable performance qualities found only in the expensive "big" sets.

America's Most

SENSATIONAL G-E "CHUMMY"

5-TUBE PERFORMANCE ON 4 TUBES

The famous General Electric plus-power midget superheterodyne, that attains 5-tube operating efficiency from four newest type G-E tubes. Only 7¼x4¼x5 inches high and weighs 5 lbs., but delivers remarkable performance. Large oversize dynamic speaker matched to the audio output provides surprisingly fine tone, with ample volume for any size room Super-sensitive disc tuning brings in station after station all around the dial Built-in G-E bank antenna—no external ground connection required. Combination off-on switch and volume control Beautiful Walnut-finished plastic case with tuning controls in contrasting color. Its outstanding performance makes this little G-E "Chummy" the ideal "second radio" for the home . . the favorite personal set for the young stars . . and a real "honey" of a value at this low price!

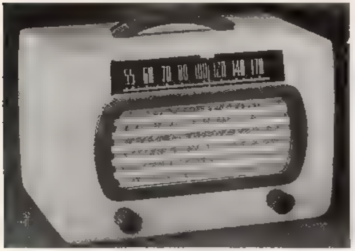
A29108 Price Complete $16.90

STEWART-WARNER "MODERNE"

AMAZING LONG RANGE RECEPTION

Designed and built by Stewart-Warner, nationally known maker of precision, high fidelity radios. Constructed with unique features that offer superb performance at a moderate price. Strikingly modern molded bakelite case, mottled in rich Walnut tones, simulating the warm shading and graining of the most expensive woods. 13 inches high, 12¾ inches wide, 8 inches deep, weighs 19 lbs. A super-powered radio that will bring in distant stations regardless of where you are located. Picks up even the weakest signals with marvelous clarity, richness of tone, and amazing volume. Six dual-purpose tubes deliver full 8-tube performance. Oversize electro-dynamic speaker with resistance-coupled, beam-power output audio system Speaker and speaker grilles are projected above dial for improved resonance Illuminated magic dial with large, easy-to-read numerals covering the standard broadcast and police bands. For master performance, we highly recommend this set—for real value, we haven't seen a set that offers anywhere near as much for this price

A29109 Price Complete.......................................$35.00



DE WALD "JEWEL"

5-TUBE AC-DC—RICH CATALIN CABINET

Encased in a rich, jewel-like cabinet of Alabaster White catalin with speaker-grille trim, control knobs, dial face and handle in warm Ivory or brilliant Red. Measures 9¾ x 7⅛ x 5 11/16 inches deep. Weighs 5½ lbs. Small in size but gigantic in performance! Rich beauty that will add distinction to any room—definitely the preferred extra set for the bedroom or guest room Advanced superheterodyne circuit with five new-type, high efficiency tubes. New tilt-top, easy-vision slide-rule dial with high ratio vernier tuning automatic volume control; beam-power output, large dynamic speaker, and built-in loop antenna that eliminates outside aerial and ground. A "jewel" of a radio at a "down-to-earth" price.

A29110 Ivory Trim $27.90

A29111 Red Trim.............. 27.90

SONORA "STRATOLINER"

5-TUBE AC-DC—STYLED FOR TOMORROW

Newer, brighter, more beautiful than ever—styled to meet the future—designed to give the most in true tone performance Streamlined molded plastic case with sweeping louvre-type speaker-grille in warm Walnut or soft Ivory shades. Beautiful easy-to-read dial, set at an angle for easy tuning With the Sonora 1942 5 tube superheterodyne circuit covering standard broadcast band and police channels. Large dynamic speaker; built-in "Sonora-scope" loop. 10⅝x8¼x7 in. high, weighs 7¼ lbs. This Sonora Stratoliner will fit into any spot you'd like to put a radio and will give years of rich, full-toned, full-volumed reception. Like every radio sold by John Plain & Company, this model is delivered to you guaranteed in absolutely perfect mechanical condition For that "extra" radio you need for the bedroom, dining room or kitchen.

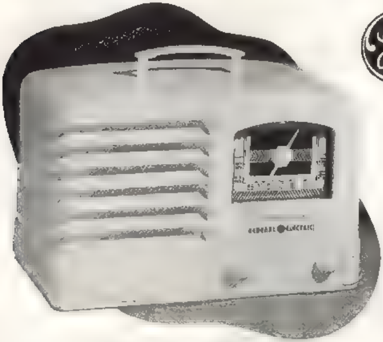
Popular Radios

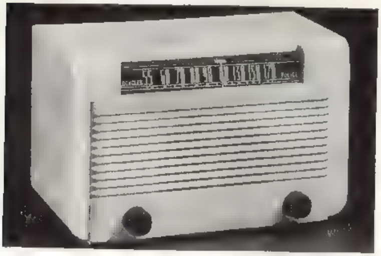


GENERAL ELECTRIC "SUPER 5"

THE GOLDEN TONE RADIO—7-TUBE PERFORMANCE ON 5 TUBES—WITH THE FAMOUS "BEAM-A-SCOPE"

A masterpiece of modern design—a sensation in radio performance. Distinctively-styled bakelite case finished in rich, gleaming Ivory with a convenient drop handle. The smart beauty of the case is accented by a large illuminated Gold and Black dial with Red pointer. Within this case of exquisite styling is the famous General Electric superheterodyne radio that delivers 7 power tube performance, though it has only 5 tubes. This highly sensitive radio receives all stations on the standard broadcast band and police calls 540 to 1670 kilocycles. Power dynamic speaker assures faithful "golden-toned" reception. Built-in famous G E 'Beam A-Scope,' the magic antenna that requires no aerial or ground. Automatic volume control. This handsome G-E radio will not only add a note of graceful beauty to any room but also bring you the finest instrument of long-distance fidelity reception built to last many years. Moderately priced yet rivaling many radios that are considerably more costly. AC or DC current. Weighs 10 lbs. and measures 12 in. long, 8 in. high, and 7 in. deep. Doubly guaranteed by General Electric and John Plain.

A29115 Price Complete **$26.50**

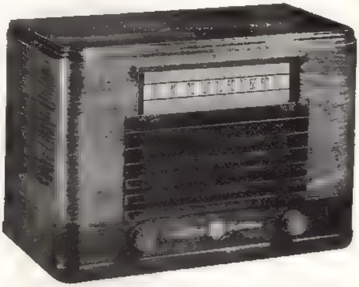


GENERAL ELECTRIC VALUE LEADER

5-TUBE—AC-DC—BEAM POWER OUTPUT

Styled for tomorrow—for practical-minded people of today! Beautiful Ivory-finished bakelite case with Maroon tuning knobs that match the new type, illuminated countersunk linear dial. Powerful, genuine superheterodyne circuit using five newest type G-E tubes. Covers the complete standard broadcast range, including police calls. Rich-toned power dynamic speaker accented by beam-power output. Built-in antenna—no ground needed. Operates on AC-DC, weighs 7 lbs., measures 9¼ in. long, 6 in. high, 5 in. deep. The perfect "second radio" for any home, yet definitely suitable for all-time use. Don't try to measure its value by our low price—it rivals the performance of many sets costing twice as much.

A29116 Price Complete **$21.90**



GENERAL ELECTRIC "MASTER 6"

OUTSTANDING 8-TUBE PERFORMANCE ON 6 TUBES 6-INCH DYNAMIC SPEAKER—"BEAM-A-SCOPE"

The famous G-E radio with power to spare! With its extreme sensitivity and hairline selectivity, this radio offers performance of outstanding brilliance. Gracefully-curved rich-grained Walnut case with the new slide-rule dial and contrasting grille louvres. Darker-toned Walnut band around base adds distinction to this handsome modern set. Newest 6-tube superheterodyne with the latest G-E tubes that deliver 8-tube efficiency. Large 6-inch dynamic speaker gives the clearest high fidelity tone known to radio engineering. Operates on AC-DC and covers the full standard broadcast and police bands. Picks up distant stations with amazing clarity and non-fading volume. Famous G-E "Beam-A-Scope" eliminates all necessity for outside ground or aerial. Weighs 10 lbs., and measures 13 in. long, 9¼ in. high 6¾ in. deep. The amazingly efficient performance and vivid "true-to-life" tone recommends this radio to the value-seeking purchaser. Its graceful, modernly-styled, rounded-edge cabinet of highly polished, hand-rubbed Walnut, makes it suitable for even the most luxurious living room.

A29117 Price Complete **$31.30**

Sonora "Super-Seven"

STATIC FREE—POWERFUL

RECEIVES ALL AMERICAN AND FOREIGN BROADCASTS—AMAZING TONE ← FIDELITY—7 TUBES

There's a real thrill in the powerful two-band range of the Super-Seven. Not only long-distance reception of the American stations, but the stirring short wave broadcasts of foreign programs. Add to this the most critical tone receptivity ever found in a table model radio, and you will understand why this 1942 Sonora is the radio sensation of the year. The secret is in a cleverly devised new circuit arrangement that ingeniously intensifies sensitivity, blots out static, and brings you only the pure, life-like reality of the original broadcast performance. Illustrated at the left, the Super-Seven is styled along the most modern, yet classic lines, bright with beauty and with a look of luxury that is rarely equalled in sets costing less than twice its price. Case is built of choice Walnut veneers, hand-rubbed to a high, lustrous finish. Size 17¼ in. long, 9½ in. deep, 9¾ in. high, weighs 18½ lbs.

A29119 Price Complete..**$53.50**

"SUPER-SEVEN" FEATURES F. M. AND TELEVISION CONNECTIONS

7-Tube AC superheterodyne, two full bands for standard broadcast (535 to 1720 kilocycles) and foreign (5.65 to 18.3 megacycles) reception. Built-in "Sonora-Scope" loop—no aerial or ground required. Giant 6x4½-inch clock-type dial; 6½-inch electro-dynamic speaker; phonograph F. M., and television connections. continuously variable tone control, automatic volume control, special outdoor antenna connection for super-powerful reception.

SONORA "SPECIAL 6" →

"CLEAR-AS-A-BELL" TONE QUALITY—KEEN SENSITIVITY — POWERFUL RECEPTION — 6-TUBE AC-DC

Strikingly contemporary . . . decidedly sophisticated . . . infinitely de luxe in every detail of design and performance—that's the only way to describe this new Sonora triumph. A distinguished cabinet design fashioned of rich Walnut veneers. The unique curved speaker-grille lends a rich grace and charm to the design, as apparent in the illustration at the immediate right. 6-tube AC-DC superheterodyne circuit covers the complete standard broadcast band including police channel. Built-in "Sonora-Scope" loop—no aerial or ground required, clock-type dial; variable tone control, automatic volume control, 6-inch dynamic speaker of amazing fidelity tone-quality. Measures 14½ in long, 7½ in. deep, 8½ in. high. A genuinely aristocratic looking radio of rhythmic modern lines—a show piece for any table

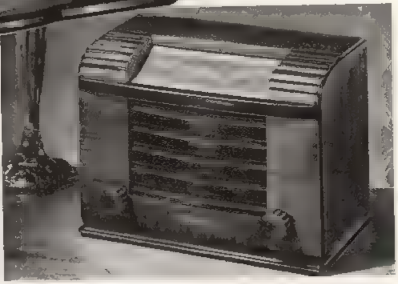
DE WALD "GLOBE TROTTER"

7-TUBE DE LUXE 3 BAND S-P-R-E-A-D TUNING

Magnificent to view—unbelievably thrilling to hear! The de luxe DeWald radio pictured above measures up to and beyond the fondest hope of the housewife who seeks beauty in appearance and the radio enthusiast who craves superiority in performance. The "Globe Trotter" has 7 high-efficiency tubes, band-s-p-r-e-a-d tuning on two short wave bands, as well as standard broadcasts. These include police, aviation, foreign and American reception. All bands with tuned RF stage. Super-powerful AC superheterodyne circuit with large, illuminated, direct-vision slide-rule dial, synchro-beam tuning eye; 6½-in. electro-dynamic speaker; full automatic volume control, variable tone control, built-in wave trap code rejector; and "looptenna" that eliminates outside aerial and ground. The handsome cabinet is superbly created with expensive hand-rubbed Walnut with Zebra-wood inlays and a distinctive, easy-vision tilt top. Measures 17 in. long, 11¼ in. high, 8 in. deep. Weighs 12½ lbs. This DeWald "Globe Trotter" is an ideal all purpose set for every home.

A29121 Price Complete..**$57.50**



SONORA "ALL-AMERICAN"

"SONORA-SCOPE" LOOP — FLAWLESS TONE QUALITY LONG DISTANCE RECEPTION—5-TUBE AC-DC

Built to the famous Sonora standard of quality, designed in the richest tradition of creative styling, the Sonora All-American illustrated directly above brings out all the vivid reality of every program you tune in on—gets distant stations with remarkable clarity and brilliant tone. The cabinet is fashioned from contrasting Walnut veneers with intriguing, beaded rolled-top effect, and louvred-type speaker grille. Latest superheterodyne circuit with five tubes, standard broadcast band and police channels, 535 to 1720 kilocycles. Built-in "Sonora-scope" loop eliminates outside aerial or ground. All-vision, slide-rule dial, dynamic speaker, automatic volume control. A handsome, remarkable performing radio that outshines many costly sets, even though its price is extremely modest. It will fit into any surroundings with astonishing adaptability and poise—just the radio that is preferred for fine homes where a combination of beauty and performance perfection is demanded.

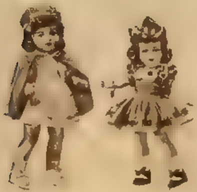
A



Why $1.39 for one and $4.59 for the other?

Both Dolls are made of composition. Both have human hair, sleeping eyes, real lashes. Yet the doll on the left sells for $1 39 and the other, though smaller, sells for $4.59 The difference is not size but in quality . . quality in workmanship and finishing, quality of eyes hair and clothing These determine the price of the doll.

EFFANBEE Dolls, shown on the opposite Page and on Pages 78 and 79, are finest quality throughout. Bodies are as beautifully formed as children. Composition parts are baked longer than parts for less expensive dolls; they're less fragile, *hand finished* with several coats of enamel to look and feel like real skin.

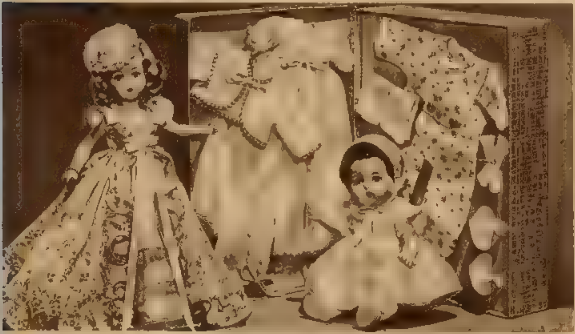
Arms on most EFFANBEE girl dolls are hard rubber which makes possible their exquisite hands individual slender fingers, palm markings, wee tinted finger nails. On less carefully made dolls the fingers are coarser and not separated

The Wig is another mark of quality Human hair wigs may be coarse or fine and silky; may be skimped or full. A good mohair wig is more desirable and costs more than a poor quality human hair wig. All human hair on Wards dolls is cleansed and sterilized.

Sleeping Eyes are of two types. The best, most lifelike are Glassene with a deep celluloid iris and pupil over a steel base. Second quality, printed on metal, do not have the sparkle of Glassene eyes.

Doll Clothes vary considerably in quality In finer dolls the fabrics are the best . . . cut, fitted and finished as well as a child's Material is not skimped Frocks have button or snap closings. Clothes on cheaper dolls are poorer fabrics, simply sewn, casually fitted, with pinned edges.

We try to tell you facts about each doll on the following pages There's a quality reason for every difference in pri



12 in. tall —small jewel like EFFANBEE doll . . . one of the finest in the world. Made entirely of composition with tilting head, jointed arms and legs, sleeping Glassene eyes, real lashes. Finest quality mohair curls sweep to her shoulders. Dainty hat of rayon and lace Blue colonial dress of flowered rayon over pink skirt with lace trim. Lace-trimmed pantalettes. Sandals with real heels.

48 T 2552—Ship. wt. 2 lbs. 2 oz. $3.49

Tiny "Tousle-Tot" with hair of curly lambskin pelt that *can be shampooed.* Finest EFFANBEE quality . . . made entirely of composition with tilting head, sleeping Glassene eyes, real lashes. Dressed in embroidered organdy, lace trimmed lawn slip, birdseye diaper, socks, shoes. "Tousle-Tot" and complete layette are packed in gift box with bonnet to match organdy dress, long lace-trimmed infant's dress and matching extra bonnet. Crinkle-crepe cotton pajamas, crepe jacket, extra diaper, extra socks and shoes.

48 T 2568 —9 in. tall Ship. wt. 3 lbs. 2 oz. . . $5.45

FIVE OF THE BEST MADE DOLLS IN THE WORLD

GENERAL ELECTRIC MODERN COFFEE MAKERS

Takes the guesswork out of coffee making—clear, delicious coffee, cup after cup. Ingenious brew compensator enables you to brew 2 cups the same strength as 8 cups. Vacuum action insures uniformity Lower bowl marked to show you exact cup measurement.

Dependable G-E stove unit—2-heat (Hi-Low) operation. High heat for speedy, thorough brewing—low heat keeps coffee at drinking temperature. Low heat thermostatically controlled.

Perfect combination of beauty and utility—made of genuine Pyrex glass—warranted against breakage from heat. Compact drainer assembly and wide-mouth bowls, easy to clean and use. Simple, efficient filter Wide bottom bowls prevent easy tipping. Cool Textolite handle with non-slip finger grip Complete with 6-foot Underwriters' Laboratories labeled cord and GE moulded rubber plug.
The perfect gift—a thoughtful remembrance, welcomed by hostesses who delight in tasteful table settings

FULLY AUTOMATIC 8-CUP

Saves you time and trouble — no watching necessary Completes coffee brewing all by itself. You merely measure in coffee and water, press and release red starter button—it does the rest for you. When properly brewed, coffee returns to lower bowl—stove automatically switches to low heat, keeping coffee piping hot Pilot light indicates when unit is on.

Smartly styled to express today's love of smooth, balanced lines. Bright platinum bands on both bowls New type clamp-on upper bowl lid with convenient handle Lower bowl handle has thumb rest for easier pouring Tea cap for covering lower bowl—keeps contents warm.

600 watts—115 volts—60-cycle A. C.

E-129-P-8 .... **Each $12.95**

NON-AUTOMATIC 8 CUP

Easily operated switch controls two heats—high heat for fast, accurate brewing—low heat for keeping coffee hot. Flip the silent mercury switch when coffee is brewed—thermostatically controlled low heat keeps coffee at drinking temperature

Pleasant, modern lines. Time-saving design Clamp-on lid for upper bowl has convenient handle Thumb rest on lower bowl handle for easier pouring. Tea cap for covering lower bowl keeps contents warm

550 watts—115 volts—60-cycle A. C.

E-129-P-7 .... **Each $7.95**

One in a carton.

NON-AUTOMATIC 8-CUP

Perfect performance, moderately priced.

Two-heat stove quickly brews delicious coffee then keeps it hot for drinking. Heats controlled by positive, silent, mercury switch

Harmoniously styled to match today's decorative schemes.

550 watts—115 volts—60-cycle A. C.

E-129-P-6 .... **Each $6.95**

One in a carton.

8-CUP

Makes coffee brewing a pleasure. Men's Watch
by HAMPD

They can take it—take the eye with modern smartness—take the hard knocks that men are bound to give them.

HAMPDEN movements embody the newest technical improvements in watchmaking: Glucydur-balance which is non-magnetic and non tarnishable, metalinvar hairspring, steel polished escapement with cap jewel, and Rhodium non tarnishable plates.

The parts used in HAMPDEN movements are standard and interchangeable. They are generally available at any reliable jewelry store or watch repair shop.

SPLENDID NATURAL-GRAINED WALNUT CABINET
FULL 14 INCH PHILHARMONIC True-Tone SPEAKER
DROP-FRONT COVERS DIAL OF 11-TUBE THREE BAND SUPERHET RADIO . . .
BUILT-IN ROTATING POWER-SCOPE ANTENNA
WIRED FOR F-M AND TELEVISION CONNECTION

Only This Combination Has the Magic CAPEHART-FARNSWORTH PROGRAM CONTROL

The action of the Capehart-Farnsworth Automatic Record Changer is simple, rapid and silent—with nothing to listen to the complete enjoyment of an entire program of recorded music. Will play up to ten 12-inch or twelve 10-inch records in one loading, one after another, without stopping.

This miracle of mechanism combined with such tone perfection in reproduction spells the difference between a phonograph that might become just another piece of furniture and a fine instrument that will be a constant source of pleasure.

So simple in every detail, so lacking in complicated parts or adjustments is the **Capehart-Farnsworth Automatic Record Changer** that even a child may be allowed to load it with the chosen records and start its operation. Its capacity plus the special air cushioned drop feature, and the new improved crystal pick up arm with its permanent sapphire needle—no need to change needles—insures long life enjoyment of recorded recreation.

THE RADIO **is a splendid 11-tube Superheterodyne equipped for outstanding reception on THREE BANDS**—2 bands of Foreign Short Wave broadcasts as well as American regular broadcast. Easy to tune. Large horizontal illuminated dial, including 25-31 meter **SPREAD BAND—Electric Push Button Tuning** with 8 Buttons; 6 for selected stations, one for phonograph switch-over, one for manual-tuning release. Has **separate Bass and Treble controls**—built-in ROTATABLE POWERSCOPE ANTENNA, and separate short-wave antenna. It is WIRED FOR F-M SOUND and Television converter connection. **Push-pull power** with 10-watt audio output. **Giant 14 in. Magnavox philharmonic speaker.** Tubes: 1—6SA7, 2—6SK7, 3—6J5, 2—6SQ7, 2—6V6GT, 1—5X3G

PERIOD CABINET **presents all dignified beauty in Chippendale detail design,** is truly a fine piece of furniture, a classic specimen of skilled cabinet-making art—constructed of **select grained choice grade genuine Walnut,** carefully hand-finished. Radio dial panel is concealed behind drop-leaf door in the upper right half of the front. Record-Changer Phonograph compartment under hinged cover forming left half of divided top, with **lamp to light turntable.** Also space for records. Size of cabinet 38½ in. wide, 38 in. high, 18½ in deep. A.C. only. LIST, 29[illegible]

Imperial 9-TUBE RADIO-PHONOGRAPH

SUPERHET.

3-BAND

Covering all the air-waves, this fine 9-tube superheterodyne with its 3 band reception picks up all important European and American shortwave channels including amateur, aircraft, one police band and Spread Band, 25-31 Megacycles, for simplified foreign tuning

American and Foreign Short Wave Bands—25-31 MC Spread Band.

Power-Scope Antenna. Separate Short Wave Aerial for Foreign.

Wired for F-M Sound and Television Use with Converter.

12-Inch Console Type Philharmonic Speaker.

Underwriters' Approved

With AUTOMATIC Record Changer

The New, Improved Automatic Record-Changer with which the Phonograph of this fine combination is equipped is quiet, positive in action, and will play and change as many as ten 12-inch or twelve 10-inch records in one continuous program. The tone-arm of the phonograph is fitted with a **permanent sapphire needle** that need not be changed and which at the same time reduces surface noises and causes less wear on the records. The phonograph pick-up and **Automatic Record-Changer** are concealed in left hand top compartment under hinged divided top lid. Plays whole group of records as if it were a regular broadcast program

The Radio is a powerful 9-tube superheterodyne new type low-noise circuit with **3-gang tuning condenser** for greatest selectivity, and push-pull power output giving 7 watts of audio output. Also has **Colorature tone control:** continuous variable automatic volume control; and **Bass Compensator**—suits tone of any program to listener's liking. This great set is also **wired for F-M (Frequency Modulation), Sound and Television,** for use with converter or picture attachment. **Console type, 12-inch Philharmonic loud speaker.**

The Cabinet is a handsome Console style in beautifully grained walnut in period design — with radio control panel and phonograph concealed in separate top compartments under hinged divided top lid, easily accessible for operation. Cabinet measures 40 in. high, 34 in. wide, 16 in. deep. **A.C. only.** LIST, 262.00.
No. 1R-FS7400-2.
Dealer's Price, each, 141.50.
Less 2%, net **138⁶⁷**

AUTOMATIC TUNING—6 PUSH-BUTTONS

AUTOMATIC ELECTRIC PUSH-BUTTON TUNING, with five automatic permeability tuned station selectors for any five preselected stations—tuning in each of the five with instantaneous accuracy at a touch—also a **sixth button for switch-over to phonograph** operation. Large, easy-to-read, **illuminated horizontal slide rule type dial,** showing all 3 bands for easy, accurate manual tuning

BUILT-IN ANTENNA—SEPARATE SHORTWAVE AERIAL

The 9-tube superheterodyne chassis in the radio of this combination is equipped with **built-in Power-Scope antenna** for American broadcasts and **separate aerial for foreign short wave** reception. Complete with full compliment of tubes, as follows: Two 6SK7, one 6SJ7, one 6J5GT, two 6SQ7, two 6F6G and one 5Y3G. Each outfit bears label indicating 'Underwriters' Laboratories Approval

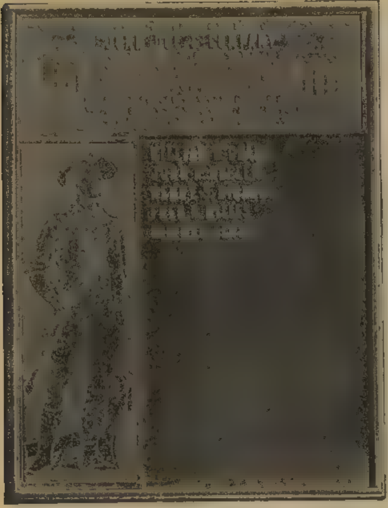
Honor the Men Who Went to the Front

Emblazon their Names on this Patriotic Reminder

THE VICTORY HONOR ROLL PLAQUE



Size 24 x 30 Inches (2 Feet Wide, 2½ Feet High)
As Illustrated, with Embossed Minute Man

Same Size, Same Top Panel, Less Minute Man
With Two Column Space for Heroes' Names

Also 24 x 54 Inches (2 Feet Wide, 4½ Feet High)
For Large Companies, Clubs, or Plants — With Large List of Names to Post of Men in Service

Sells Wherever Americans Work to Back Fighters

Everywhere—today—there is a place and demand, for such a patriotic loyalty emblem as this. In every town, on every street there are stores, business places, factories, clubs, offices, schools, lodges—places where some employees, members of the firm, brothers of the lodge, former students or some group of associates, have gone forth to serve in America's far-flung battle fronts.

Here then is a tangible sign to hang in a place of honor, in lobby, outer office, display window—or in locker room, beside time-clock, where present fellow workers can see it daily—to show, and remind the ones still here, of every Real American's Pledge to back those men with every ounce of war effort, here at home.

For Industrial Plant, Store, Business Office — Naming Fellow Employees Who Are in Service

Same Style Plaque Designed for Clubs, Lodges and Schools or Colleges to Honor Members in Service

Even this plaque does its patriotic bit to conserve war material. With all the beauty and appearance of enduring bronze and gold, it uses no metal whatever that might find use in war needs. Yet it sacrifices nothing in the tribute of dignified beauty and realistic resemblance to metal form. **The hand sculptured lines of the raised Minute Man figure, decorations and lettered pledge against stippled background are as if cast in actual metal**—while the names attached in raised-surface, three-dimension letters of gilt finish stand out in bold contrast on the gold-bronze metallic finish panel. The letters, all capitals, are ¾ in. tall. **Plaques in sizes and panel arrangement for 4 or 5, or up to as many as 50 or 60 names.**

Handsome Bronze and Gold Metallic Finish—Sculptured Effect Lettering and Decorations

Names Attached in Raised Gold Finish Lettering

Sturdy construction from selected wood and Masonite skillfully fashioned and finished in the traditional appearance of antiqued gold-bronze. Symbols, letters, figure and framed edge are in high relief, contrasting boldly against the stippled panel background. May be sold complete with names attached or sold with supply of letters needed to complete names of those intended for entry upon the panel.

POWERFUL 5-TUBE AC SUPERHET RADIO

This instrument offers the finest of features in both radio and phonograph, plus the luxury of fine cabinetry. Design is strictly modern—cabinet work of unexcelled beauty, with sweeping graceful lines. Constructed of exquisitely grained Walnut, overlayed with imported Mahogany. The handsome hardwood grille is backed by richly patterned Monk's cloth. **Size 18 in. long, 11½ in. high, 14½ in. deep.** Ship. wt., 23 lbs.

Has expensive features of large console type Radio-Phonograph combinations—an instrument in a compact 5-tube table model that leads all in value. The PHONOGRAPH has precision, extra fast action record changer. Plays as many as 12 records continuously in sequence or picked records by selector, automatically. Trouble-free mechanism without gears, permanently lubricated, operates noiselessly.

Plays home recordings as well as commercial records, and operates automatically with or without starting groove on record. Adjustable featherweight, spring mounted tone arm with everlasting needle. Records too, can be removed as easily as from an ordinary phonograph. Single adjusting mechanism for manual or automatic operation.

The RADIO is a powerful 5-tube AC superheterodyne, with a new type 6 in. oval electro-dynamic speaker of remarkable power, and natural tone. **Built-in Parascope antenna.** Beam Power Output tube. **Tunes all standard broadcasts over full range of 1700 to 540 KC.** Tubes 12SA7, 12SK7, 35Z5GT, 12SQ7, 50L6GT.

In every feature, a truly deluxe instrument which affords an inestimable volume of pleasure. For 110 volt AC only. LIST 59.50.

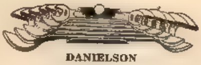
Wrench Sets



DANIELSON

6 Piece—Open End

Six medium sized wrenches of controlled steel Twelve openings have range from 5/16 to ⅞-inch. Bright nickel finish.

X2459 .... Each $0.99

DANIELSON

5 Piece—Open End

Five medium sized wrenches.

Twelve openings range from 5/16 to ¾-inch.

X2163 .... Each $0.75

DANIELSON

Open End Twelve Point

Made from vanadium alloy steel giving unusual strength. New thin models with no loss of strength.

Made to S.A.E. specifications and will fit every nut on an automobile

Nickel plated with polished and buffed ends.

Wrenches held in new design open end case by set screw.

Set consists of six of the following size wrenches.

Length, In.	12 Point Opening Size, In.	Open End, In.
4	5/16	7/16
4½	7/16	½
5	½	9/16
6	9/16	⅝
6½	⅝	¾

Williams' "Superrenches"

Strength and Toughness Without Bulk

"Superrenches" grip the tightest nuts and make them yield. No bulk in the head to interfere where clearance is limited. Chrome-molybdenum steel, the best material for the purpose ever produced, makes "Superrenches" absolutely dependable—no matter how hard the work.

Drop-forged, heat-treated.

The 15-degree angle of opening is the most efficient that can be devised. With it, a hex nut can be rotated completely where the wrench can swing only 30 degrees.

Chrome plated finish.

Engineer's Pattern

15-Degree Angle — Double Head

Long thin jaws but the greatest strength ever put in a thin wrench.

WILLIAMS SUPERIOR WRENCHES

Drop forged from improved quality carbon steel, hardened and shot blasted, openings milled to fit nuts correctly. Sizes stamped.

Structural

Jaws narrow and long provide substantial bearing on square nuts.

Long handle is round for greater part of length tapered end for easy insertion into bolt holes when bringing them into line.

Offset and angle of handle gives easy clearance of obstructions.

WILLIAMS "SUPER-SOCKET" WRENCHES

Chrome-plated over nickel—Standard pattern—½-inch square drive.

**REGULAR
STRAIGHT WALL
12 POINT**

**EXTRA DEEP
STRAIGHT WALL
12 POINT**

Square Taper Nose Sockets

Three styles: regular and extra deep, with straight walls and 12-point openings, and taper nose with square openings. All have thin walls for easy operation in close and awkward corners—no needless bulk to hinder use in cramped places.

Extra deep sockets are long and slim. They are especially designed for spark-plug and other service, such as U-bolts and brake-rod-ends, where the nuts lie some distance from the other end of the threaded stem. Their 12-point openings will rotate hex. nuts where the handle can be swung only 30°. All have cross-hole in drive and for use with sliding bar, if desired.

Made from high tensile Chrome-Molybdenum steel and accurately heat-treated in electric furnaces for maximum toughness and strength. Attractively finished in high grade chrome-plate.

EASY TO KEEP EACH TOOL IN ITS PLACE

●

SYSTEMATIZE YOUR WORK WITH A HANDSOME, MANY-COMPARTMENT KENNEDY TOOL KIT

Torque "Measurrench"

Reversible Ratchet—Indicating Signal

½-Inch Square Drive

Most efficient and durable tool for torque indicating service on the market. It can be used with any detachable socket having ½-inch square drive-opening

The wrench permits use in two ways by sight and by "sound" reading up to pressures of 200 foot-pounds. In sound reading, a sharp sound noise signal is given when the applied pressure reaches the desired point

Accuracy does not depend on delicate gears, levers, or dials, but upon rugged sections of high tensile steel. Although right hand torque only is measured, the wrench action reverses for left hand turning

With each wrench is supplied a chart giving the foot-pounds tension to be applied on cylinder heads, connecting rods, main bearings of motors, etc. This data covers all popular makes of cars and is as recommended by their manufacturers.

M-S-57 Length 19½ inches. Each $26.00

Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added

‡Goods marked thus (‡) are not carried in stock and can be furnished only by shipment direct from factory

Williams "Superector" Reversible Ratchet Wrenches

Fully guaranteed

QUADRUPLE PAWLS—DROP FORGED HANDLE

Built for rapid operation in the most severe service such as bridge, structural and other work requiring fast, dependable tools of rugged strength. Instantly reversible in action. Ample leverage for the hardest jobs. Finished in light gray enamel.

Quadruple Pawls—Two pawls engaging 2 teeth for both on and off rotation of nuts, providing increased bearing and strength. Made of hardened tool steel designed to provide pure crushing action on the pawls—the sturdiest construction possible—no "backlash."

Handle—Drop-forged (not cast) from special high grade steel.

Gear Teeth—20 teeth in ALL socket gears instead of the usual 16 teeth. All wrenches will rotate with only an 18° swing of the wrench as against 22½

Shifter—When in neutral, completely disengages all gears for easy insertion and removal of the socket. A flip of the lever reverses the action of the wrench.

Collar for retaining socket has a projection on inner surface which registers easily with a corresponding slot in the neck of the socket. No fumbling for set screw "spots."

Cap, securely seated in wrench head is fastened with one screw, fully enclosing mechanism and permitting easy removal.

Sockets all have hole through center turn nuts on any length of bolt Made in three groups—M-E1 M-E2 M-E3—to fit corresponding wrenches, see table Sockets in different groups are not interchangeable All are heat-treated for maximum strength.

Wrenches only.

Williams Improved Hollow Screw Wrench Sets

Chrome Plated Over Nickel—With Torque "Measurrench"

Unusually efficient wrenches for all hex socket hollow-screws in table.

Provide all advantages of detachable socket wrench system for users of hollow screws.

Detachable "bits" with projecting hex plug substituted for conventional sockets.

Unique torque "Measurrench," M-B-21 indicates proper working load for the smaller "bits," ⅛ to 7/32-inch hex plug; avoids injuring screws and socket bits. Serves, also, as regular sliding T handle

"Superratchets" instantly reversible, are rugged, drop-forged tools—no delicate springs, or fragile construction.

Chrome-alloy steel, accurately machined, heat-treated in electric furnaces, chrome-plated, polished.

Fitted steel case 13x7½x1¾ inches—weight 10 lbs. complete.

WILLIAMS "SUPER-SOCKET" WRENCH SETS

Strong—Dependable—Designed for Real Service

Chrome-plated over nickel

STANDARD SET

Thin Wall 12 Point Sockets ½ Inch Square Drive

This efficient set includes all sockets and accessories required for usual garage work and offers wide selection for desirable wrench combinations. In strong steel case 20¼x6½x3¾ inches.

21 piece set contains: 13 straight-wall sockets with 12-point openings, 7/16, ½, 9/16, 19/32, ⅝, 11/16, ¾, 25/32, 13/16, ⅞, 15/16, 31/32 and 1-inch sizes and 8 accessories Nos. M-S-10, M-S-15, M-S-20C, M-S-41, *M-S-51, M-S-110, M-S-115 and M-S-140.

M-20 .... **Per Set ‡$42.20**

***Note**—Ratchet No. M-S50 with reversible locked-in plug connector as shown on preceding page may be substituted for No. M-S51 at a reduction of $2.25 in list price of each set.

HEAVY DUTY SETS

12 Point Sockets — ¾ Inch Square Drive

For bus, truck and other severe service requiring tools of trim design, yet of ample strength. Unusually handy, efficient and economical. The handles and parts are easily connected with the sockets (and as readily disconnected), but are held firmly against unintended displacement.

In strong steel case 19¾x5¼x2¾ inches.

Twelve-point sockets cover all U. S. std. nuts ⅝ to 1 inch; all cap screws ⅞ to 1⅛ inches; all S.A.E. std. nuts ¾ to 1⅛ inch, all Amer. std. regular and jam nuts ¾ to 1 inch; light and castle nuts ¾ to ⅞ inch.

Complete 15 piece set as listed below

M-50 .... **Per Set ‡$48.54**

Set consisting of 13 pieces—all of below except ratchet M-H-50 and universal Joint M-H-140.

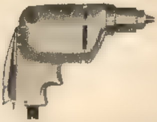
BLACK AND DECKER PORTABLE ELECTRIC DRILLS



3/16-INCH HORNET BALL-BEARING DRILL

110 Volt A. C. or D. C.

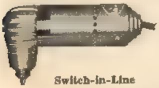
A sensational drill, developed to meet the demands for an extremely light weight, compact drill with high speed and the power and stamina to perform under continuous production service Unique structural features have reduced size and weight to the minimum, but splined gear mounting and spindle bearing design, screened air inlets, ample fan and universal motor, make this a truly production tool. Note the grip-type switch, the short over-all length and spindle offset. A perfect drill for aircraft and lighter industrial work

Specifications

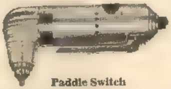
Drilling capacity—In steel 3/16 inch, in hardwood ⅜ inch.
Standard no-load speed 3700 R. P. M., full-load 2000 R. P M
Net weight 34 ounces.
Over-all length 6 inches, spindle offset 1/16 inch.
Standard equipment—Three-conductor cable and plug, 3/16 inch Jacobs threaded chuck and key, grip-type switch with locking latch, extra brushes in handle compartment, Universal motor

E-354 **Each $32.50**

One in a carton.



Switch-in-Line



Paddle Switch

3/16-INCH AND ¼-INCH SHORTY DRILLS

110 Volt A. C. or D. C.

Ability to work "around corners" has popularized this drill in many small-unit production and assembly operations. Over-all working (spindle) length is only 4½ inches. Small, round motor housing requires no extra handle. Ideal for aircraft, trim work, ornamental iron, cabinet assembly and as a "kit" tool. Three switch arrangements—switch-in-line, toggle switch or paddle switch in end cap.

Specifications — 3/16-Inch and ¼-Inch Shorty

	Standard Unit Switch-in-Line	Unit With Paddle Switch	Unit With Toggle Switch
Weight Net	3½ lbs.	3⅞ lbs.	3¾ lbs.
Over-all length—			
Direction of chuck spindle	4½ in.	4½ in.	4½ in.
Direction of motor	7⅞ in.	8⅝ in.	8¾ in.

3/16-INCH SHORTY DRILL

Capacity—In steel 3/16 inch, in hardwood 5/16 inch.

Speed—No-load 3700 R. P. M., full-load 2300 R. P. M.

E-25—With switch-in-line	**Each**	**$38.00**
E-286—With paddle switch	**Each**	**‡ 41.00**
E-297—With toggle switch	**Each**	**‡ 41.00**

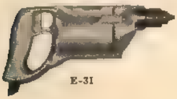
¼-INCH SHORTY DRILL

Capacity—In steel ¼ inch, in hardwood ½ inch.
Speed—No-load 2500 R. P. M., full-load 1600 R. P. M.

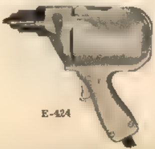
E-26—With switch-in-line	**Each**	**$35.00**
E-287 With paddle switch	**Each**	**‡ 38.00**
E-298 With toggle switch	**Each**	**‡ 38.00**

Standard equipment—Three-conductor cable and plug, thumb control switch in line, Jacobs threaded chuck and key, Universal motor, removable bakelite end cap to facilitate brush inspection.

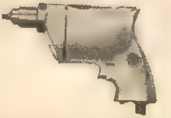
All packed one in a carton.



E-31



E-424



¼-INCH HOLGUN BALL-BEARING DRILL

110 Volt A. C. or D. C.

A perfectly proportioned drill, of surprising compactness and smooth power Important structural features include "**Pistol Grip and Trigger Switch,**" new spindle bearing and splined spindle gear mounting, ball bearings, 12-tooth pinion gear, screened ventilating inlets.

Specifications

Capacity—In steel up to ¼ inch, in hardwood up to ½ inch.

Standard—No-load speed 1700 R. P. M., full-load 900 R. P. M.

Net weight 2¾ pounds.

Over-all length 6¾ inches, spindle offset ⅝ inch.

Standard equipment—Two-pole automatic release trigger switch and locking pin, mounted as a unit with cord protector; 3-wire cable and plug, 3-jaw Jacobs threaded chuck and key, Universal motor.

E-345 **Each $32.50**

¼-INCH LOW SPEED HOLGUN

Reduced spindle speed and increased torque for production work in stainless steel, monel metal and other modern hard alloys. Low spindle speed adapts this drill to driving hole saws up to 1⅛ inch.

Standard—No-load speed 500 R. P M., full-load 225 R. P M.

Net weight 3 pounds.

Over-all length 7⅛ inches, spindle offset ⅝ inch.

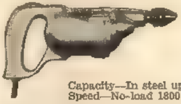
Standard equipment Two-pole automatic release trigger switch and locking pin, mounted as a unit with cord protector; 3-wire cable and plug, 3-jaw Jacobs threaded chuck and key, Universal motor.

E-346 **Each ‡$35.00**

One in a carton.

¼-INCH JUNIOR ELECTRIC DRILL

110 Volts A. C. or D. C.



Popular "handy" drill for the user who wants a good low-priced drill. Ideal for the tool kit in maintenance work, automotive repair, electrical, carpentry, plumbing and cabinet work. Can be used with smaller size hole saws and fits No. 20 drill stand.

Specifications

Capacity—In steel up to ¼ inch, in hardwood up to ½ inch.
Speed—No-load 1800 R. P. M., full-load 1050 R. P. M.

Weight—Net 3¾ pounds. Over-all length 10¾ inches

Standard equipment—Three-conductor cable and plug, 3-jaw Jacobs threaded chuck and key, thumb control switch, Universal motor

E-30 **Each $19.95**

Attachments and Accessories for Above Drills

BLACK AND DECKER PORTABLE ELECTRIC DRILLS

¾-INCH HEAVY-DUTY BALL-BEARING DRILL

110 Volts A.C. or D.C.

Chuck spindle equipped with Timken taper-roller bearings, all other shafts mounted on ball bearings. Extra long switch handle and pipe handle improve control.

Specifications

Drilling capacity—In steel, $\frac{5}{16}$ inch to ¾ inch; in hardwood, 1½ inches.

Speed—No-load, 375 R.P.M., full-load, 200 R.P.M.

Weight—Net, 27½ lbs.

Over all length, 21 inches.

Standard equipment—3-conductor cable and plug; 3-jaw Jacobs chuck and key, automatic-release switch with locking pin, spade handle with chuck key holder; detachable pipe handle; Universal motor.

E-45 **Each $94.00**

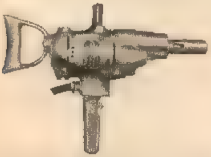
E-19960	‡ 6.00	Feed Screw



⅞-INCH UTILITY POWER DRILL

(For Twist Drills with No. 3 Morse Taper Shanks)

110 Volts, A.C. or D.C.

Equipped with No. 3 Morse Taper extended spindle, for which drill manufacturers can supply carbon steel bits, $\frac{11}{16}$ inch to 1¼ inches; high speed bits, regular, $\frac{11}{16}$ inch to 1$\frac{1}{16}$ inches; larger than standard, $\frac{11}{16}$ inch to $\frac{31}{32}$ inch with No. 3 M T shank.

Specifications

Drilling capacity—In steel, ⅞ inch. (With 3-2 or 3-1 reducing sleeve, range is extended down to ⅛ inch.)

Speed—No-load, 200 R.P.M.; full-load, 125 R.P.M.

Weight—Net, 17¾ pounds.

Over all length 19¼ inches.

Standard Equipment—3-wire cable and plug; No. 3 Morse Taper Socket; automatic-release switch with locking pin; spade handle, detachable pipe handle, Universal motor.

E-240 **Each $78.00**

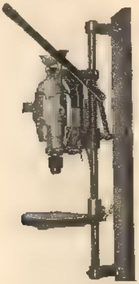
BLACK AND DECKER DRILL STANDS

E-20



Post

Pedestal

A simplified line of drill stands that increase the utility of Black & Decker Drills, Screw Drivers and Tappers by converting the portable unit into a drill press for heavy duty and precision work.

With the adjustable features of these stands no adapters are required, and one stand will fit several different tools. An adjustable-jaw clamp fits spindle housings of various sizes—and an adjustment for tool length is quickly made on the sliding tool bracket.

The handle leverage enables the operator to put tremendous pressure on the work, or feed slowly and smoothly for most accurate work. The tool bracket can be raised or lowered on the supporting column and swung in an arc to any desired position.

Drill stands are adapted to bench, post or pedestal mounting. These last two types are recommended where bench space is at a premium, or where unusually large pieces are to be drilled. On post and pedestal stands, the work table as well as the tool bracket can be raised or lowered, or swung out of the way, if not required.

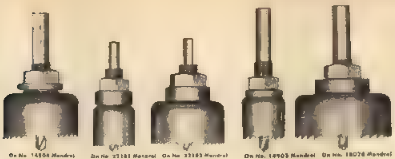
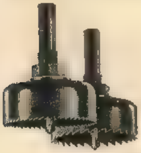
Black and Decker Hole Saws



On No. 14904 Mandrel HIGH SPEED HOLE SAW · On No. 22181 Mandrel On No. 22182 Mandrel FINE TOOTH TUNGSTEN HOLE SAWS · On No. 14903 Mandrel On No. 18028 Mandrel COARSE TOOTH TUNGSTEN HOLE SAWS



Black and Decker hole saws will cut clean round holes in any material a hack saw will cut. They can be used with all drills from the ¼ inch Low Speed Holgun up—but speed and power requirements suggest the following size limits on smaller drills:

On ¼ inch Low Speed Holgun—not larger than 1⅛ hole saw.
On 5/16 inch Utility Drill not larger than 1¼ inch hole saw
On ⅜ inch Utility Drill not larger than 1½ inch hole saw

HOLE SAWS ARE AVAILABLE IN THREE TYPES

Coarse-tooth Tungsten Steel for wood, fibre bakelite cast iron and all thick, coarse materials

Fine-tooth Tungsten Steel for sheet metal, steel, porcelain and all thin or sheet materials, and **High Speed Steel** for cutting the new hard alloys and for longer service on production work.

PADDLE SWITCH

A very light, compact tool for self-threading screws in light metal and wood. Can be equipped with a socket for hex head screws

Specifications

Capacity, up to No. 4 Screws; No-load speed, 1000 R.P.M.

Net Weight, 2¾ pounds.

Over all length (including bit), 11½ inches.

Standard Equipment—3-wire cable with plug, toggle-switch mounted in end cap, one No. 4 bit with centering sleeve, spring sleeve and protector; Universal motor

Nos.	Each	Type
E-49	‡$52.00	With Bonnet Grip
E-244	‡ 55.00	With Paddle Switch

One in a carton.

No. 8 Positive Clutch Scrugun

110 Volts A.C. or D.C.

A versatile and compact screw driver for production work on many types of assembly operations. The structural features of the Holgun have been adapted to this unit, giving it exceptional power and stamina, perfect operating balance. The free spindle idles until operating pressure engages the jaws.

Specifications

Capacity, Wood screws . . up to No. 10x2 inches. Self-tapping screws up to No. 12. Machine screws and nuts . . up to ¼ inch diameter

Standard spindle speed (No-load) . 750 R.P.M.

Net Weight . 3½ pounds.

Over all length (including bit) . . . 8¾ inches; Spindle offset . . ¾ inch

Standard Equipment 3-conductor cable and plug 2-pole automatic release switch and locking pin, one No. 8 bit with protector sleeve, centering sleeve and spring sleeve; Universal motor.

E-402..Each ‡$47.00

Adjustable Clutch Scrugun

110 Volts A.C. or D.C.

The adjustable clutch automatically drives every screw to uniform depth.

The free spindle idles until operating pressure engages the jaws.

The double clutch "cushions" the torque and relieves the operator of any twisting motion in the driver.

Specifications

Capacity: Self-tapping screws . . . up to No. 12. Machine Screws and Nuts . . up to ¼ inch diameter

Standard Spindle speed (No-load) . . . 750 R.P.M.

Net Weight . . . 3¾ pounds.

Over all length (including bit. . 10¼ inches, Spindle offset . ¾ inch

Standard Equipment 3-conductor cable and plug; 2-pole automatic release switch and locking pin, one No 8 bit with protector sleeve centering sleeve and spring sleeve, Universal motor

E-350 Each ‡$57.00

One in a carton.

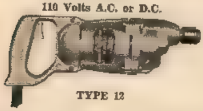
Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added.

‡Goods marked thus (‡) are not carried in stock and can be furnished only by shipment direct from factory.

BLACK AND DECKER PORTABLE ELECTRIC TOOLS

Positive Clutch Screw Drivers and Wrenches

110 Volts A.C. or D.C.



TYPE 12

Positive pin-type clutch in the driving spindle idles until the bit "finds" the screw slot.

Specifications

Capacity: Wood screws . . up to No. 14x2¼ inches Self-tapping screws . . up to 3/16 inch diameter Lag screws . . up to ¼x2 inches. Machine screws and nuts . . up to ⅜ inch diameter.
Standard No-load speed . . 500 R.P.M.
Net weight, 6¾ lbs.
Over all length (not including bit) . . . 13¼ inches.
Standard equipment—quick-change chuck, with 7/16 inch hex socket, 13 degree positive clutch, 3-conductor cable and attachment plug; and one each No 8 and No. 12 standard bits with centering sleeves, automatic-release switch with locking pin, Universal motor

E-53 . . . **Each $58.00**

110 Volts A.C. or D.C.

TYPE 22

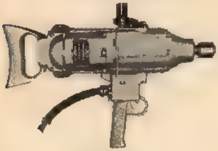
Specifications

Capacity: Wood screws . . . up to No. 18x3½ inches. Self-tapping screws . . . up to ⅜ inch diameter. Machine screws and nuts . . . up to ½ inch diameter
Standard No-load speed . . . 500 R.P.M.
Net weight, 9 lbs.
Over all length (not including bit), 14¼ inches.
Standard Equipment—quick-change chuck, with 7/16 inch hex socket, 13 degree positive clutch, 3-conductor cable and plug, and one each No. 10 and No. 11 standard bits with centering sleeves; automatic-release switch with locking pin; Universal motor.

E-54 . . . **Each $72.00**

Positive Clutch Nut Runners

110 Volts A.C. or D.C.



TYPE 32

Specifications

Capacity: Machine screws and nuts . . . up to ⅝ inch diameter. Lag screws . . . up to ⅝x4½ inches long.
Standard No-load speed . . . 500 R.P.M.
Standard equipment—3-wire cable and plug, "quick-change" chuck (⅝ inch hex.); instant-release switch with locking pin; one hex. socket wrench; ⅝ inch a. f.; Universal motor; (spade handle); (side pipe handle on E-55 only).

With Side Switch Handle

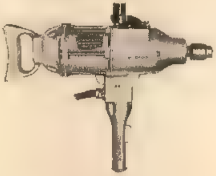
E-55—Weight, 22½ lbs.............**Each ‡$104.00**

With End Switch Handle

E-392—Weight, 21¼ lbs.............**Each ‡$104.00**

Positive Clutch Nut Runners

110 Volts A.C. or D.C.



TYPE 42

Specifications

Capacity: Lag screws . . . up to ½x5½ inches long. Machine screws and nuts . . . up to ¾ inch diameter

Standard No-load speed . . . 500 R.P.M.

Net weight, 35 lbs

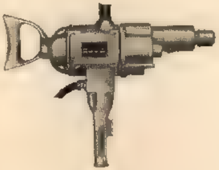
Over all length (not including wrench) 21¾ inches.

Standard equipment—3-wire cable and plug; "quick-change" chuck (⅝ inch hex.); side switch handle with safety switch, spade handle, side pipe handle; one hex. socket wrench, ⅞ inch a. f.; Universal motor

E-56.............................**Each ‡$180.00**

Electric Nut Runner

110 Volts A.C. or D.C.



TYPE 43

A low-speed tool with high torque. This unit can be supplied with solid spindle and ¾ inch Jacobs geared chuck, for slow speed drilling and reaming

Specifications

Capacity: Lag screws . . . up to ¾x6 inches long Nuts and bolts . . . up to 1 inch diameter.

Speed. No-load . . . 90 R.P.M.; Full-load . . . 45 R.P.M.

Net weight, 30¾ lbs.

Over all length: 23¾ inches.

Standard equipment—3-conductor cable and plug; "quick-change" chuck (⅝ inch hex.); spade handle; side switch handle with automatic-release switch with locking pin; side pipe handle; one socket wrench (⅞ inch a. f.); Universal motor

E-245 . . . **Each ‡$130.00**

All above, one in a carton.

Electric Tappers

110 Volts A.C. or D.C.

Tapping operations are performed with these tools eight times faster than by hand. Automatic reversing mechanism backs the tap out of the threaded hole at high speed when operator pulls backward. No reversing switch is needed. Will greatly reduce tap breakage.

Applications—threading holes in steel, cast iron, brass or aluminum.

TYPE 8 TAPGUN

Tapping capacity: In mild steel . . . 5/16 inch; In cast iron . . . 5/16 inch; In brass or aluminum . . . ⅜ inch.

No-load spindle speed: Tapping . . . 400 R.P.M.;

Reversing . . . 525 R.P.M.

Net weight, 3¾ lbs.

Over all length . . . 9½ inches.

Standard equipment—3-conductor cable and plug, 3-jaw Jacobs chuck and key; 2-pole automatic release trigger switch and locking pin; Universal motor

E-383 . . . **Each $64.00**

TYPE 22 TAPPER

Tapping capacity: In cast iron . . . ⅝ inch; In steel . . . ½ inch; In brass or aluminum . . . ⅝ inch

No-load speed (tapping) . . . 300 R.P.M.; Reversing 750 R.P.M.

Net weight, 10½ lbs

Over all length, 15¾ inches.

Standard equipment—3-conductor cable and plug; ⅝ inch Jacobs chuck and key; automatic-release switch and locking pin; detachable side handle; Universal motor.

E-80.............................**Each $85.00**

Nos.	Each	Item
E-20454	‡$ 9.00	Jacobs tap-holding chuck
E-119	14.00	Bench stand for both tapgun and tapper

Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added.

Standard Screw Driver Bits

For Nos. 12 and 22 Screw Drivers Only

Standard bits are equipped with 7/16 inch hexagon shanks to fit chucks of the above units, and are available in sizes 4, 6, 8, 10, 12, 14, 16, 18, and 20 to drive flat head screws of corresponding sizes. (For round head screws, use next smaller size bit.) All standard bits can be equipped with centering sleeves which guide the bit into the screw slot. Various length shanks are available for special operations. Lengths indicated are projecting lengths, from chuck to end of bit, not over all lengths.

BLACK & DECKER ACCESSORIES AND GRINDERS

Socket Wrenches

HEXAGON

DOUBLE SQUARE

SOCKETS FOR SMALL SHANKS

DOUBLE SQUARE

HEXAGON

SOCKETS FOR LARGE SHANKS

A complete range of socket wrench sizes, for use on all screw driver and nut runner units. As indicated in the table, various sockets are interchangeable on separable drive-shanks, the shank sizes being adapted to the various drivers as follows.

¼ inch hexagon shanks for Torsimeters and Scru-guns.

⁷⁄₁₆ inch hexagon shanks—for Nos. 12 and 22 screw drivers.

⅝ inch hexagon shanks—for Nos 32, 42 and 43 nut runners.

"Drive openings" in the sockets fit corresponding "drive squares" on the ends of the shanks be sure to match these sizes in ordering separate shanks and sockets

"Socket sizes" indicate the size opening to fit the nut or bolt to be driven and are available in either hexagon or double square openings.

Portable Electric Grinders

Portable grinders have splined gear mountings, steel inserts for bearings and welded steel wheel guards. Full size ball bearings, set at extreme ends of wheel spindle, absorb all side thrust and insure long life. Armature shaft also mounted on ball bearings.

Completely enclosed commutator and switch compartments protect these parts from abrasive dust

Ventilating system forces air straight through ample slots, which prevent clogging and accumulation of dirt.

Shaped grips prevent tool turning in operator's hand. Adjustable wheel guards can be turned to any desired position.

Applications—Grinding, wire brushing, buffing and polishing all types of metal surfaces where the grinder must be taken to the work. Removing rust, scale, paint, etc Grinding or cutting off rivets, bolts, pins, studs, etc. Smoothing welded surfaces.

Die Grinders

A group of carefully designed, precision built Die Grinders is offered for use in die shops, stamping plants, tool rooms, metal working plants and other factories requiring an extremely compact, powerful, well-built hand grinder. Equipped with ¼-inch single-purpose chucks, adaptable to a wide variety of shaped wheels and burrs. Available with either bonnet cap or extended end handle. High speed direct drive from universal motors, operating on A C or D C No grinding wheels are supplied with Die Grinders.

TYPE 7

110 Volts A.C. or D.C.

Maximum wheel size . . . 2 inches by ½ inch by ½ inch.

No-load speed . . . 19,000 R.P.M.; Full-load speed . . . 12,000 R.P.M.

Weight· Net . . . 2½ pounds.

Overall length . . . 9 inches.

Standard Equipment—3-conductor cable and plug (3rd wire for grounding); ¼-inch single-purpose chuck and 2 double-end wrenches (⁵⁄₁₆-inch and ¹¹⁄₁₆-inch); bakelite end cap and switch in line. Universal motor.

Nos.	Each	Type

The Romantic Beauty of yesteryear becomes the "fashion of today"

Chateau Rose

STERLING SOLID SILVER

The revival of elegance in home decoration reaches back to the Regency and Louis XIV eras, with a touch of Victorian to add zest to the ensemble.

"Chateau Rose" is a happy blending of the traditional beauty of these time-favored motifs As they have lived in the past — "Chateau Rose" will live in the future, to become one of your cherished heirlooms of tomorrow.

Its beautiful highlights are softened to a silvery lustre by its smooth butler finish.

*Heavyweight throughout.

Dainty in outline — classic in design — at home — where improved social standing is attained by setting the style in lovely table appointments.

Chapel Bells

STERLING SOLID SILVER

Introduces not only a strikingly new design of classical origin, but a pleasing departure from the conventional proportions of older patterns. Women say, "It's the kind of pattern that goes well with all china." Just enough length has been added to the knife handle to make it comfortable in use. Notice the slenderness of all handles, adding grace yet weight, which makes silver durable, has not been sacrificed. Note, too, the added length of the salad fork handle — a practical length for all salads. A lovely pattern that offers the advantage of style. Soft butler finish.

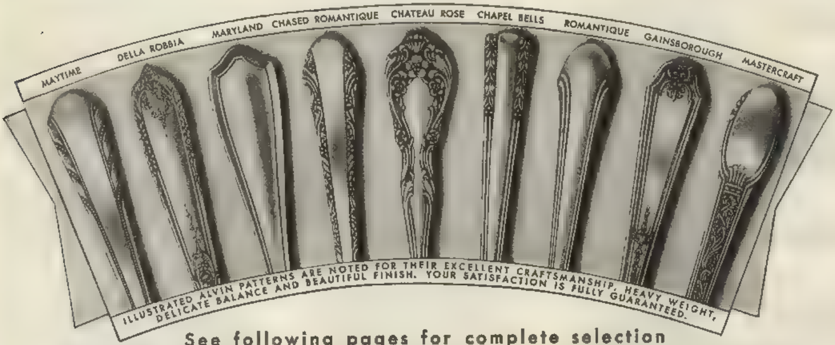
IT IS VERY IMPORTANT

PLACE SETTING -This means a service of six pieces designed for the use of one person. The pieces are listed at lower right. Not all of the patterns shown on this page are available in place settings. The patterns that are available are **CHASED ROMANTIQUE, CHATEAU ROSE, CHAPEL BELLS** and **ROMANTIQUE.**

OPEN STOCK At the time this catalog goes to press we can furnish open stock for all patterns shown on this page. We cannot furnish all pieces in all patterns. To those of our customers who have already started a set in patterns other than those mentioned above, we recommend that orders be sent in early. **AS SOON AS THE WAR IS OVER ALL PIECES IN ALL PATTERNS WILL AGAIN BE AVAILABLE.**

OPEN STOCK PRICES—Prices on open stock patterns not shown on the following 4 pages will be the same as those shown for pieces in the **CHATEAU ROSE** listing.

ALLOW US SOME TIME—When we receive your order we will try to get the merchandise from the manufacturer or another wholesale house if we are unable to supply it from our stock. Please allow 10 days' to 2 weeks' time before inquiring about shipment.

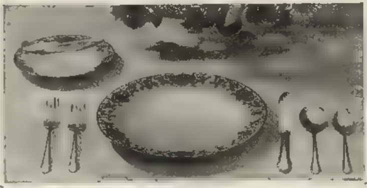


ILLUSTRATED ALVIN PATTERNS ARE NOTED FOR THEIR EXCELLENT CRAFTSMANSHIP, HEAVY WEIGHT, DELICATE BALANCE AND BEAUTIFUL FINISH. YOUR SATISFACTION IS FULLY GUARANTEED.

See following pages for complete selection of all types of silverware selected by us for its high quality and low prices.

Place Setting Purchase Plan

This practical, convenient plan enables you to accumulate your desired service in a relatively short period of time. Simply start with the purchase of one "PLACE-SETTING" in your desired pattern, and add to it at intervals that best suit your requirements. No great outlay of money is required. See price list below.



PLACE SETTING FOR ONE
(SIX PIECES) INCLUDES

1 LUNCHEON KNIFE
1 LUNCHEON FORK
1 CREAM SOUP SPOON
1 TEA SPOON
1 SALAD FORK
1 BUTTER SPREADER
(Silver only)

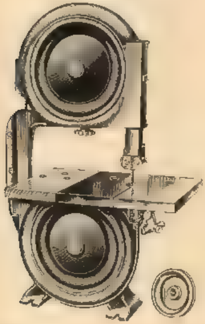
ARCADE PORTABLE HOMESHOP POWER TOOLS

QUALITY CRAFTED—CAREFULLY DESIGNED TO SAVE TIME AND ENERGY

Band Saws



Newest Arcade Power Tool. Sturdily constructed.

Well guarded, hinged wheel guards, smooth in operation, accurate adjustments, rubber faced balanced wheels, machined table tilts to 45 degrees, Oilite bronze bearings. Unique feature tension on blade adjusted by turning hand wheel located under upper saw wheel.

Maximum adjustment of 1¾ inches permits use of blades shortened due to breakage. 10 inch wheels made of cast iron. Only exposed part of saw blade is at point where work is done. Upper and lower blade guide so no deflection of blade is possible on a heavy cut, blade guides fully adjustable in two directions.

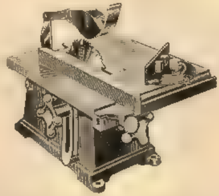
Saw table carefully machined -unusually deep and wide—wood extension permits sawing large pieces accurately. Frame of heavy cast iron, machined -any adjustment can be made quickly and accurately. Main frame well ribbed for strength.

Overall size 27½x18⅝x10 inches. Capacity 4 inches, depth of throat 10 inches, saws to middle of 20 inch circle. Table 10x10 inches with 5x10 inch wood extension, tilts 45 degrees. Bearings Oilite bronze, ⅝ inch bore. Wheels 10 inch balanced gray iron, rubber covered. Frame, reinforced gray iron. Saw blade ¼x64 inches, 6 teeth to inch. Pulley 4 inches V type. Recommended speed 1080 r.p.m. Finish gray and black.

30..**Each $18.00**

EASY TO OPERATE—DETAILED TO CREATE UNUSUAL EFFECTS IN WOODWORK

Bench Saws

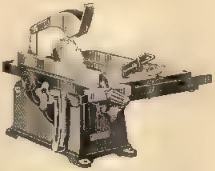


Six inch, capacity 1⅞ inches. Oilite bronze bearings, heavy grey iron base and table accurately machined. Sturdy rip fence and mitre gauge Cast aluminum saw guard and steel splitter Adjustable cut depth and table tilt.

Overall height 9½ inches, depth 16 inches, table 11x14 inches. 1¾ inch V pulley Finish grey.

29 **Each $11.00**

Larger Bench Saws



8 Inch

Eight inch new precision and production circle saw to meet the demand for sawing up to 2⅝ inches.

Needle bearings with snap shut oil cups Instant table tilt adjustment to any degree up to 45 degrees, accurate rip fence, precision mitre gauge. Machined table top 13x19 inches.

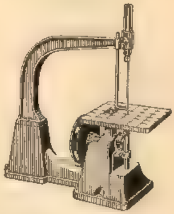
Cast iron base 7½x16½ inches. Cast iron saw table 13x19 inches Saw blade 8 inches in diameter, capacity 2⅝ inches. Furnished with 2 inch V type arbor pulley.

Overall height from bench level to top of guard 12¾ inches. Overall height from bench level to saw table surface 9⅛ inches. ½ h.p. motor recommended. Grey enamel, krinkle finish.

32..**Each $22.50**

HIGH GRADE STEEL MOVING PARTS

Jig Saw



Full 10-inch throat. Table tilts both ways. Rigid grey iron base and arm. Large bearings. Adjustable saw guide. Enclosed tension spring. Takes any standard blade

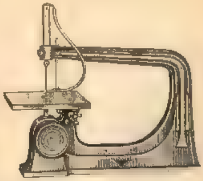
Measures 16½ inches deep, 15½ inches high, 6x15-inch base, 6x6-inch table, ½ inch shaft, 4-inch V pulley

Speed recommended 750 to 900 strokes per minute.

Finish grey

25..**Each $5.30**

Scroll Saw



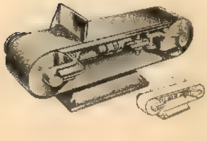
Capacity 16 inches. Heavy cast iron one-piece frame. 10x10-inch table tilts to 45 degrees. Adjustable air hose.

Lower mechanism sealed in oil bath. Double Oilite bronze bearings. Upper spindle guided at both ends.

Over-all length 25 inches. Height 21 inches. Width 11 inches—stroke 1 inch—thickness capacity 2½ inches. Maximum speed recommended 1400 r.p.m. Finish grey.

45..**Each $22.50**

Belt Sanders for the Home Workshop



Designed to give the home work shop a real production type of belt sander at low cost. Massive in construction, simple in adjustment, accurate as to alignment of table and belt drums.

With correct type belt suitable for sanding surfaces, mitres and curves.

Heavy base, accurate drums, accurate tracking and tension adjustment, closed drums, Oilite bronze bearings, long back rest and adjustable cross rest. Table and drums closely aligned—adding life to sanding belt. Ample clearance under lower belt prevents dust agitation.

Table is integral part of frame insuring perfect alignment. Closed drums prevent dust collection.

Simple adjustments of nuts, both vertical and horizontal, can change belt from 40½ to 42½ inches. One set remains in perfect alignment.

Length 18½ inches, width 7½ inches. Height of table 6¾ inches. Belt 40½ inches minimum, 42½ inches maximum. Width of belt 4 inches (one belt furnished). Fence 11½x2 inches. Backstop 2x4 inches. Adjustable to any angle. Pulley 2½ inches. V-type. Frame of grey iron. Speed 1400 r.p.m. Finish grey

Note: Manufacturer recommends using a ¼ h.p. motor, 1725 r.p.m. with a motor pulley of 2-inch V-type. Sander can be driven from a line shaft, from a motor placed on the work bench or driven from a motor located under the bench level.

31..**Each $8.00**

Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added.

Streamlined, sturdy construction, weigh 18 oz., are 4¼ in. high Complete with straps and leather case

A17115 PRICE	$79.00

WHAT IS BINOCULAR "POWER"?

"Power" in binoculars is the ability of the lenses to magnify objects, near or distant, as compared to how those objects are seen with the naked eye. A 6-power glass will magnify what you see with the naked eye six times. 8-power binoculars will increase eight times the size an object as seen with the naked eye. For fast action sports, yachting, etc., choose 6 or 7-power glasses. For all-around performance, 8-power glasses are ideal. 10 and 12-power binoculars are excellent for extremely distant observations, especially where you can steady your hand on a rest.

The binoculars shown on these pages are all fitted with precision ground achromatic and objective lenses that admit the maximum of light to give sharp, stereoscopic images.

Get a Good Close-Up

With a pair of these Nationally Famous Glasses

Luckey Platt & Co. Ad Showing the Children's Choice of Toys

DEALERS' SURVEYS OF CHILDREN'S LIKES RATE DOLL HOUSE FURNITURE HIGH

Alert dealers have been conducting their own private "Gallup Polls" to find out what children really want for Christmas as a guide to their advance toy buying. Stix, Baer & Fuller of St. Louis for example made a cross section survey among 4,275 representative people on the question "What do you want for Christmas?" The 525 children queried included boys and girls between 7 and 13 years, and their "votes" were used as a basis of planning merchandise displays, newspaper advertising and related sales promotion.

Luckey, Platt & Co. of Poughkeepsie, New York, found another way to learn children's likes—by auditing letters sent by children to Santa Claus at the local radio station. Boys want trains and girls want dolls, with doll houses running second, according to a large advertisement which Luckey, Platt & Co. based on this study of Santa Claus' mail. StromBecKer Doll House furniture is carried by both these dealers and The Strombeck-Becker Manufacturing Company has additional survey information available on request.

NEW DAISY MILITARY RIFLE

The Daisy Mfg. Company, Plymouth, Mich., are now in production on their No. 140 Defender 1000-Shot Repeater. This is a most realistic military model—a real "soldier's gun." It features a new double adjustable rear sight, moving left or right for windage, up and down for elevation. There is an automatic safety simulating bolt action, just like the regular military rifle. It has an adjustable sling, heavy oval stock, and the famous lightning-loader attachment. It was originally planned to bring out this gun for 1941 Toy Fair. Conditions, however, made it impossible to produce the gun at that time. Finally, all obstacles have been overcome and orders on this fine looking model will be taken at the Toy Fair.

Bette Davis
PAPER DOLLS

Rita Hayworth
DANCING STAR

MERRILL PUBLISHING INTRODUCES MOVIE STAR BOOKS

Marion E. Merrill, President of the Merrill Publishing Company, states that consumer reaction to their new line of Movie Star paper doll books and paint books, is exceeding expectations. The Rita Hayworth books and Hedy Lamarr paper doll book were brought out in January and lost little time in becoming feature sellers in the major 5c and 10c stores. Scheduled for release about March 1st is the Bette Davis paper doll book and paint book. These new Merrill creations retail at 10c a copy and are noteworthy for their colorful, modern design and superior printing.

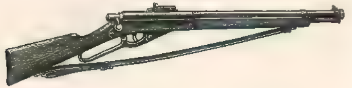
MORE COMPLETE LINE OF PLAYSKOOL JUNIOR PUZZZLE PLAQUES

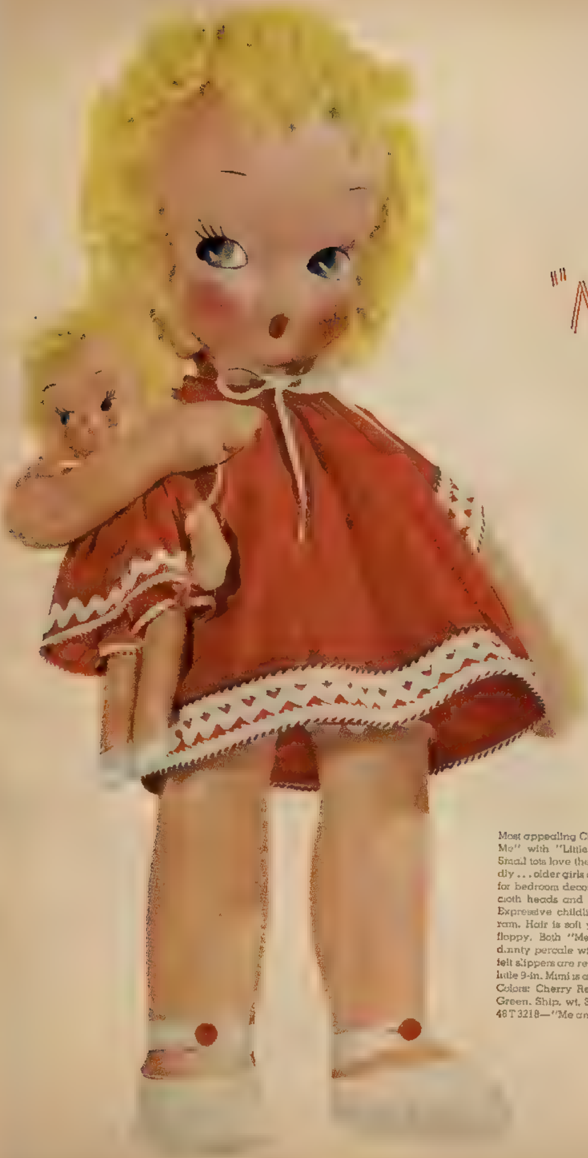
Playskool Manufacturing Company, Chicago, announce that 8 exciting new designs have been added to their series of Junior Puzzle Plaques. Those, together with the 4 best sellers from the previous series, will make a total of 12 Junior Puzzle Plaques in the 1942 Playskool Line of Pre-School Educational Toys. The new plaques are: Tortoise and the Hare, Old Woman Who Lived in a Shoe, Humpty Dumpty, Little Ugly Duckling, Cat and the Fiddle, Lion and the Mouse, Dog Blowing Bubbles, and Auto. The 4 others are Rabbit, Fish, Panda and Locomotive. The designs of these plaques are unusually interesting and are produced in attractive colors. Each one tells a complete story in picture and rhyme. Each plaque is carefully jigsawed out of ⅜" plywood. The size is 9½" x 11½". All of them will now have wood backing. These puzzle plaques are stimulating and challenging to the pre-school child, yet simple enough to solve. They will be on display together with the complete Playskool Educational Toy Line for 1942 at the Toy Fair, March 9th to 21st, Room 413, 200 Fifth Avenue, New York City.

T. COHN'S METAL TOYS

T. Cohn, Inc., 745 Sixty-fifth Street, Brooklyn, N. Y., will show their complete lines of noisemakers, tin horns, sand pails and trumpets in Room 829 at the Hotel McAlpin, in addition to the display at their permanent showroom with the Riemann, Seabrey Co., at 1107 Broadway. David Cohn will be in charge of the McAlpin exhibit.

The New Daisy Military Rifle

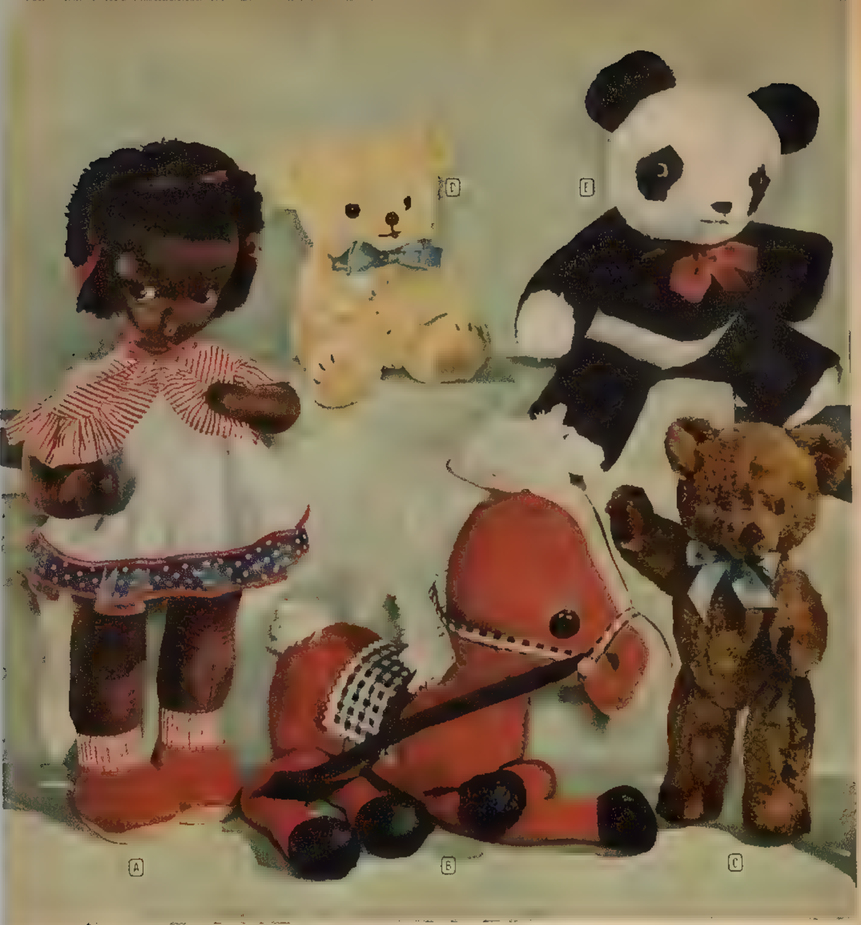




"ME AND MIMI"

Most appealing Character Doll of the year . . . "Big Me" with "Little Mimi" tucked under her arm. Small tots love them because they're soft and cuddly . . . older girls can't resist them and choose them for bedroom decoration. They're unbreakable cloth heads and bodies stuffed with fluffy cotton. Expressive childlike faces are fine molded buckram. Hair is soft yellow yarn. Legs are long and floppy. Both "Me" and "Mimi" are dressed in dainty percale with panties to match. Clothes and felt slippers are removable. Big doll is 23 in. tall . . . little 9-in. Mimi is an exact duplicate, except for size. Colors: Cherry Red dresses (as shown) or Apple Green. Ship. wt. 3 lbs.

48 T 3218—"Me and Mimi." State color of dress.$3.98



New soft toys... INCLUDING THE FAMOUS

A WORD ABOUT SOFT TOYS

This year a whimsical touch comes to new soft toys . . . something that makes you smile when you look at them. You see it in the expression of the Bashful Bear. It hovers around Dumbo's wing-like ears, and Topsy's kinky curls. Disney Toys (F, G, H and M) are authentic reproductions of the famous animated cartoons. All materials—inside and out—are the best. They're stuffed with clean new cotton. Seams strongly stitched. Eyes securely fastened. These well-made toys will outlast cheaply made ones three to four times.

A **Topsy.** You can't resist her when she looks at you with those big black eyes. She's a darling for the nursery or college girl's bed room. Topsy's 25 in. tall. Her [illegible] hair is soft rayon plush on cloth foundation. Her face is pressed out of fine buckram; eyes, cheeks and mouth are painted on. She's cotton stuffed; unbreakable. Her body is covered with brown percale. Floppy arms, jointed legs; she can stand alone. Topsy wears combination dress and pinafore, panties with elastic at waist, red and white ruffled cape. Red flannel hard sole shoes and socks are part of body. Clothing is removable. Ship. wt. 2 lbs. 12 oz.
48 T 32[illegible]—25 in. Topsy. $4.95

B **Jerry** . . . the red flannel Horse, [illegible] into comical poses. Brushed rayon and cotton flannel, cotton stuffed. Percale saddle. Big button eyes. Cotton yarn mane and tail.
48 T 3220—26 in. tall, artificial leather hoofs. Wt. 2 lbs. 8 oz. $2.98
48 T 3219—17 in. tall, percale hoofs. Ship. wt. 1 lb. 4 oz. . . . $1.98

D **Sitting Honey Bear** Light enough for even the tiniest baby. Cream color thick deep [illegible] plush, cotton stuffed. [illegible] eyes, composition nose; embroidered mouth. Squeezer voice. Ribbon bow. Ship. wts. 1 lb. 8 oz., 1 lb.
48 T 3224—11 inches tall $1.89
48 T 3223—8 inches tall 1.29

C **Brown Cub Bear** Soft deep-lustered rayon plush stuffed with cotton. Jointed arms and legs. Sparkling glass eyes, [illegible] embroidered [illegible] nose, turning head. He squeaks when you squeeze him. Perky ribbon bow. Wts. 1 lb. 12 oz.; 1 lb.
48 T 32[illegible]—15 in. tall . . . $1.98
48 T 32[illegible]—11 in. tall 1.05

E **Cuddle Panda** . . . soft as a powder puff. His coat is deep pile rayon plush, stuffed with soft new cotton. Accurate Panda markings. Celluloid [illegible] eyes. Floppy arms and legs. Squeaker voice. Ship. wts. 1 lb. 14 oz., 1 lb. 8 oz.
48 T 3173—17 inches tall . . . $2.23
48 T 3172—12 inches tall . . . 1.15

BOICE-CRANE POWER TOOLS

Tilting and Lowering Arbor Saws

Perfect Saw Performance From a Saw That Is Really Safe

Designed especially for true saw blade alignment with extra large trunnion surfaces Easy to elevate saw arbor

Built for long life—circular, tongue and grooved ways machined from solid cast iron. Blade at every setting intersects table on the same line. Easy to read scale for rip-fence setting, always true and dependable

Convenient adjusting screws with jam nuts tighten gib of dovetail way to any friction wanted.

Acme thread elevating screw. Ball thrust bearings on both shafts absorb all endwise frictional forces. Easy turning

FLOOR STAND TYPE

Motor entirely separate from machine itself—keeps motor vibration from reaching saw arbor No motor weight on trunnions or slide ways—saves parts from needless wear—saw arbor stays locked in position

Standard Equipment for Tilting Arbor Saws

Tilting and lowering arbor saw—Table 20x27 inches with sealed-in ball bearings—micro-set ripping fence—front and rear extension bars—auto-set mitre gauge—10 inch combination rip and cross-cut saw—42 inch V-belt and arbor pulley for V-belt drive.

Long Island City, N. Y.

quired the 28' cabin cruiser *Gusher;* Phil and Charles Sprague are reconditioning their cabin cruiser *Mist-Chief II.* Fred Warren, with his Stout Fella sloop, and Lloyd Cooper, with his new *Privateer,* will all be in the fleet this year

▶ N. S. Merriam, secretary of the Macatawa Bay Y.C. and Commodore of the Western Michigan Y.A., informs your correspondent that August 7th, 8th and 9th have been set aside for the annual regatta at Muskegon Lake, with the Muskegon Y C. as host. Inland Lake scows, Classes C and E, Crescents, Snipes and Lawley 110's will all be raced. The 22-Square-Metres and cruising class boats will race from Black Lake to Muskegon, starting in the early morning of August 7th. The Grand Rapids unit of the U. S. Power Squadron will also take part in this three-day series

WEST COAST BUBBLES

By Kent Hitchcock

▶ Bring us back those good old days — the opening cruises to the southland clubs, the annual races and those lazy week-ends at the offshore islands and the coves of Catalina. The latest order to mariners bans all yachting and pleasure boating off the Southern California coast and shoots the master calendar of the S.C.Y.A. full of holes. No pleasure boat or sport fishing craft may leave the confines of the harbor in which she is moored. The results of the ban are two-fold. First, the yachtsman is finding a new pleasure in sailing through the bays and channels of his home port and dinghy and small boat racing are finding a host of recruits. The second result is a realization that this is a real war and that it's right here at home. The Southern California and Pacific Coast sailing championships as well as all offshore races and cruises are thus cancelled but clubs in the various harbors are hard at work on a new schedule of home races to fill the vacant spots

▶ Speedboating in southern centers is confined to a schedule designed to provide the maximum of sport with the minimum of wear and tear on equipment. The Associated Speedboat Clubs turned over the entire proceeds of a benefit regatta to the Red Cross, footing the bills from the treasury. Drivers were awarded National Emergency Certificates. Let it be said that they turned out 100 per cent and put on a battle worthy of any gold trophy regatta. Thirteen-year-old Herb Rimlinger, Jr., celebrated his first race by waxing a nice fleet in the Midget Class.

▶ The California Y.C. opened its summer season with a bang up regatta at Los Angeles Harbor. Five classes raced. George Fleitz, who has been subjected to the indignity of a series of waxings since he won the International Star crown in 1941, turned in a splendid performance to top the Star fleet, and Emerson Spear sailed *Goose* to a win over the fleet of Six-Metres. Bernie McNally, Albatross skipper from Newport Harbor, appeared in a new Penguin, *Momento,* and took all of the veteran dinghy skippers into camp. The Interclub Dinghy title went to Herb Worcester, in *Sub Deb,* and Dave Forsyth, veteran of the Leeboards, wound up first, as usual.

▶ Yacht builders of Southern California are certainly banging them out for Uncle Sam. Hubbard's South Coast Co., at Newport Beach, is well along on its first order for the Navy and is starting on a second contract. The Peyton Co., another Newport concern, has added to its facilities and is under way with the firm's first order for the Navy. The A. M. Rambo Co. has several keels laid and California Marine Industries are rushing construction near Lido Isle. At Los Angeles Harbor, vessels are under construction at Harbor Boat Building, Fellows and Stewart, and at the Wilmington Boat Works.

▶ The new Pacific 14-Foot Dinghy Class, recently launched at the Balboa Y.C., is growing rapidly. Recent recruits with new boats are Darby Metcalf, International Snipe Class Champion with *No 2;* Barbara Metcalf, another mean small boat sailor, *No. 3;* Peter Serrell, *No. 4;* Wendell Calkins, designer of the class, *No. 5;* Hugh Parshall, *No. 6.* Dorrance McClure and Craig Doyle have gone into partnership on the *No. 7* boat.

▶ The Penguins are coming along. Two staff commodores of the Long Beach Y.C. have taken the fleet under their wings. Wesley Smith and Dick Loynes have underwritten the purchase of 25 of the boats, together with a trailer for each, just to make sure that the fleet will prosper. The trailer is a clever little light weight rig equipped with small size bicycle wheels

▶ *Bubbles.* . . . Hank Dick, of Balboa, has purchased the PODH *Excalibur* from Kenny Ingram, of Long Beach. . . . Sid Chambers, driver of the "F" racing runabout *Dibs II,* is in the Army. . . . Rich Hallett's new 135-cubic-incher *Holiday IV* is a three-point job whose looks give promise. Robert L. Boyd, yacht broker and yachtsman, is now connected with the South Coast Co. . . . Maurice Parker, of San Bernardino, is the new owner of the PODH *Yankee Doodle* . . .

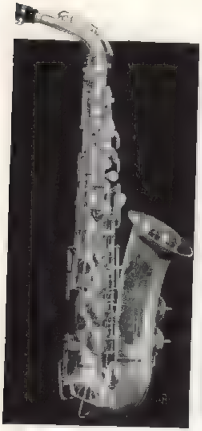
SAXOPHONES TENOR AND ALTO

By America's Famous Instrument Makers



Famous Baronet Alto Sax.

Rich-Toned Baronet Tenor Sax.

Charlie Barnet Master of the Saxophone

BLESSING "ARTIST" MODELS

ALTO AND TENOR SAXOPHONES

Here are the newest saxophone models from the famous shops of the E. K. Blessing Band Instrument Company of Elkhart, Indiana. Year by year, the famous Blessing Artist Saxophone has been improved until today it is the finest ever designed or built. Every part is made by hand with fitted keys that give a light, flexible and positive action. There is absolutely no "break" between the upper and lower registers in any Blessing Artist Saxophone—you go smoothly and evenly from one register to the other. Every fault common to most saxophones has been eliminated by Blessing. Free from distortion, perfect intonation and quick action throughout. Blessing Artist Saxophones are available in your choice of alto or tenor as illustrated above. Both models can be obtained in gold lacquered finish, elaborately engraved with nickel plated keys, or silver plated finish with gold bell. Specially designed, perfect-fitting cases for each style saxophone are priced separately

ALTO SAXOPHONE

New model, quick action G# keys, simplified automatic octave mechanism, direct action B and B♭ keys, new model high D, E and F keys. In a class by itself, yet no higher in price than the ordinary saxophones. Price includes all accessories.

A CATALOGUE WILL BE GLADLY SENT UPON REQUEST

THE ANCHORAGE • INC
WARREN • RHODE ISLAND

later. Warner Willcox was Dartmouth's best skipper while "Trev" Pardee led the Princeton team and was high scorer in the match

▶ Unless the War sets back the programs, there will be notable additions to the fleets owned by or available to Eastern colleges, next spring. Yale is taking steps to rejuvenate its fleet of Class X dinghies and will have between four and six club-owned craft available for intercollegiate dual and intraclub racing. Two of Yale's present fleet of three will be kept at Larchmont for Sunday Frostbite use of members this winter

FROM THE SOUTHWEST CIRCUIT

By E. G. Green

▶ The following officers are in command of the Lake Worth S C. for the 1942 season. Commodore, V L. Beakey· vice commodore, Paul Andrews, secretary-treasurer, C. L. Morris; Snipe fleet captain, W. C. Johnson; Sea Gull fleet captain, Max C. Fisher.

Hamp ("Silver Fox") Cottar is building a new Snipe, which, he hopes, will add to his reputation as builder and skipper

Five Sea Gulls, enough for class races, are in the local fleet. They are owned by Harold W. Staiger, Richard S. Cowan, Max C. Fisher, Don G Stookey and the Grover G. Lautz-Wm. H. Granger partnership.

V. L. Beakey, incoming commodore, won the coveted Cottar Trophy for high point scores in 1941, the Haynie Trophy, for the three-race series in November, and first place for consistent wins in the season. W. C. Johnson was awarded the Sniper Trophy for participating either as skipper or crew in most club races; he also won second in firsts over the line.

▶ The Corpus Christi S.C. finished its fall season on Thanksgiving Day with two smashing races just outside the sea wall. Snipe *No. 9*, owned by Lieutenant Hub E. Isaacks, of Forth Worth B.C., now stationed at the U. S. Naval Air Base at Corpus, and skippered by Ensign C. B. Mitchell, won the club championship cup for the fall season Skipper Paul Guttman piloted his *Alkmena* home to win the Captain Alva Bernhard race pennant, which he will hold until next summer's season.

▶ The Fort Worth B.C. 1941 season was the busiest and most successful it ever had, according to the report of A. G. Evans-Lomb, race chairman. Club and interclub races crowded the schedule and, in addition, the club was host to the Snipe Internationals, on Eagle Mountain Lake, in September.

Ray Wyatt, barely nosing out Houston Hill, won the Founders' Day race, in which entries were limited to the charter skippers still on the job — and how those "old men" do sail!

Trophy winners in the A-B-C classes were Dexter Scurlock, Ed Pulham, and John Scott, respectively, while Ed Pulham won the Mecker Trophy as high point sailor for the season. Charles Twiss repeated as the most consistent sailor, with 38 participations, and George McGown won the club Snipe Trophy

Ten club-owned Longhorns and a fleet of Snipes form the strength of this Texas crew.

▶ At the Woodlawn S.C., San Antonio, Commodore Walter Roby, Vice Commodore Leonard Adleman and Fleet Captain Frank Reisenecker head the "hot" skippers of the club Reisenecker has just launched a new boat and is tuning her up for next season's competition.

Eight registered Snipes and some twenty assorted cats and sloops form the club fleet. So many of the younger members now own their own boats that it is necessary to call out the "rocking chair" fleet to crew for them.

▶ From the Lavaca Bay Y.C., Commodore James I. Denham reports a successful 1941 season in that faraway port. At the fall regatta, a squall caught the whole fleet two miles offshore, dismasting three boats, capsizing eleven others and sending the rest across the finish line at a fast pace.

John Shaffer, of San Antonio, again won the Snipe Trophy, and Stanley Smith, Port Lavaca ace, raced his *Sweetheart* to win the National competition.

Extensive bay front and harbor improvements now under way will give Port Lavaca sailing facilities second to none on the Gulf and second in size only to those of Corpus Christi

▶ Lake Overholser, home port of the Oklahoma City Y.C., has been certified as a seaplane landing and base location by the CAA. Sooner or later, this inland port may become a seaplane pilot training base, strange as that would appear to the eyes of the pioneers who came over the plains in prairie schooners. Such development may scare fish and restrict sailing courses, but local skippers have been quick to offer the utmost coöperation The new Bluff Creek Lake, now under construction, will offer even larger means of recreation in a year or two, and sailing will still go on.

CAMP STOVES

SMITH AND WESSON REVOLVERS

HIGH QUALITY, SAFE AND THOROUGHLY DEPENDABLE SIDE ARMS

Precision made, easily interchangeable parts.

Sturdy, solid frames. Cylinders locked in perfect, permanent alignment with barrels by hardened steel bearings at both ends. Hardened end-thrust bearings prevent endwise looseness of cylinders—reduce gas leakage to a minimum

Double strength, heat-treated cylinders of chrome-nickel steel.

Fast, easy reloading hand ejector—swing-out cylinders. Smooth, fast-working, practically frictionless action. Specially hardened non-wearing surface assures crisp, unchanging trigger pull

Double safeties—even if arm falls and strikes on hammer, accidental discharge is impossible

MAGNUM MODEL 357

6-Shot—.357 Caliber

The most powerful hand arm in the world—extremely accurate! Specially designed for the famous "357" Magnum cartridges. With a muzzle velocity of 1515 foot-seconds and muzzle energy of 802 foot-pounds, this cartridge has far greater shock power than any .38, .44 or .45 ever tested!

Heavy frame with finely checkered top strap matching barrel rib. Front and rear straps. S. & W grooving. Hammer thumb-piece checked to prevent slipping—concentric relief cuts on side. S. & W grooved, non-slip trigger. Single action trigger pull 3¾ to 4 pounds—double action 10 pounds.

Special S. & W. Magna stock designed to distribute recoil of super-powerful cartridge over largest possible area of hand. Gives full, comfortable, secure grip. Specially selected Circassian walnut stocks with monograms and S. & W. checking. Wesson grip adapter. Regular S. & W stocks with grip adapter can be substituted

Shoots "357" Magnum, 38/44 special, .38 special hi-velocity, .38 special, .38 special super-police and .38 special mid-range S. & W cartridges.

Choice of any standard target sight. Maximum sight base is 10 inches on 8⅜-inch barrel

Note: When ordering specify sights and sight base wanted. Also specify if regular S. & W. stocks are wanted.

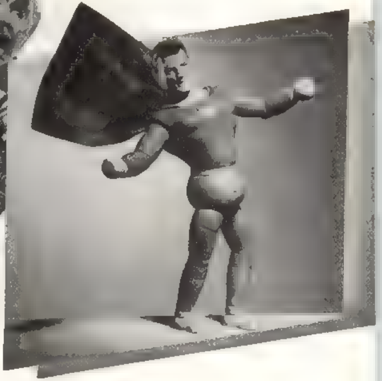
CHRISTMAS!

FLAG STIX

The patriotic toy of the hour! New, interesting, for boys and girls. Helps them learn more about the nations of the world and understand the past and current history of national groups. Choice of two sizes. The Deluxe set makes 52 flags of different countries, the standard set makes 30 different flags. Set consists of wooden strips and blocks, with stars and angles in colors for making the various flags, and wooden frame for blocking them.

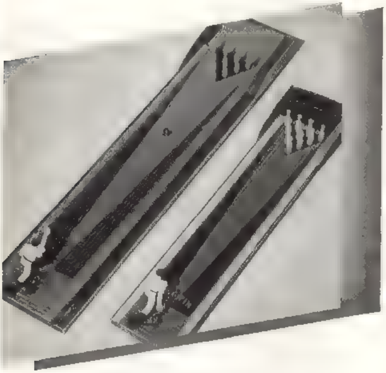
A31203 Standard Set $1.40
A31204 Deluxe Set 2.80



SUPERMAN

Out of the comic strips strides "Superman" to give the youngsters another thrill. An exact reproduction of the hero of the famous exciting adventures is this jointed wooden toy. Stands alone, in any position you put him. A mass of muscles with firm-set jaw expanded chest and sturdy legs. He wears a red cloth cape. Afraid of no one because nothing can harm him. Flexible jointed wood has no sharp edges to cut tiny fingers. He's 13 inches tall with painted carved face and clothes.

A31200 Price.......... $1.65



BOWLING ALLEYS

An intriguing game for Junior and his Dad! Made of strong, sturdy metal, realistically decorated in bright colors. Complete with enameled metal bowler, wooden ten pins and heavy metal bowling ball. The mechanism is geared with positive, watch-like precision and responds to the slightest touch, giving full effect to the player's ability. Take careful aim—angle and control are adjustable, with life-like sweep of arm and shoulder, the ball leaves the bowler's hand and goes speeding down the alley Requires same coordination of hand and eye necessary on regulation alley. Medium size 30x6 inches. Large size 37½x8 inches with automatic ball return groove

A30362 Medium Size $1.40
A30363 Large Size 2.80

Miller Fluorescent Lighting System

"50 Foot Candler" Continuous Wireway

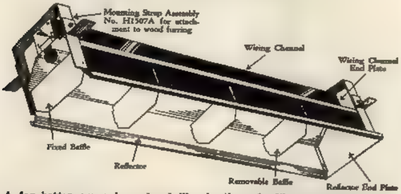
The "50 Foot Candler" is the first RLM continuous wiring channel fluorescent lighting system providing 50-foot candles of general illumination. This is the illumination lighting authorities prescribe for "best-seeing" conditions for most needs. Higher lighting levels however, can be provided by a scientifically worked out spacing of units.

The "50-Foot Candler" has these important features:

1. **30% to 50% lower cost of installation**
   The "50-Foot Candler" reduces the number of mountings from two (2) for each reflector to an average of one-half (½) a support for each reflector—a 75% saving in itself, in holes in concrete, stems or chains to ceiling
2. **Reduction up to 80% in users' wiring system**
   Only one wire entrance required for entire row, reducing number of conduit fittings needed. Line wires can be run in at end or center. All wiring completed on fixtures up to point of connecting to line.
3. **Minimum relocation of outlets**
   In many locations it is necessary to relocate outlets to secure higher levels of illumination. Extra units must be fitted in between existing outlets to bring about a closer spacing. This is not necessary with the "50-Foot Candler" because it has its own wireway. This means only minimum relocation of outlets.
4. **Simplified maintenance**
   Smooth-surfaced reflectors, porcelain enameled inside and out, do not readily collect dirt—easy to clean. The reflector can be removed without disturbing wiring for washing, or to get at operating equipment.
5. **Allowance for future growth-reduced obsolescence**
   In locations where two light wire channels and reflectors are normally required, reflectors are supplied pierced for three light sockets. Later a third auxiliary and sockets can be installed to increase illumination of the "50-Foot Candler" system as much as 45%.
6. **Consistent lighting performance**
   Light properly diffused—absolutely free from glare. Cool, even distribution of daylight illumination over all horizontal and vertical working surfaces. Provides maximum flexibility for moving and relocating machines.
7. **Easier and quicker installation**
   Fewer holes to drill in ceiling. No attention need be paid to existing outlets. All operating equipment in wiring channel. Fewer supports required. Adjustable aligning straps keep units straight—simplify hanging.

Note: Complete "50 Foot Candler" catalog supplied on request.

Miller Fluorescent Troffers



A far better general overhead illumination of offices, stores, factories, schools, drafting rooms and similar locations having acoustical or other hung ceiling constructions is now provided by Miller Fluorescent Troffers

Miller Troffers are entirely different in design and principle. They have been ingeniously constructed to simplify installation and maintenance and to meet conditions on practically all types of installations. Their use does not in any way limit the selection of ceiling material best suited to local requirements.

These new and efficient units recess in the ceiling individually or in continuous row formations and can be readily applied to ceilings hung from superstructures of wood or metal forms—such as "H" channels, "T" bars, etc. The ceiling surface may be of plaster or of unit panels or tiles of the acoustical type.

Note: Complete Troffer catalog supplied on request.

Assembly Items for "50 Foot Candler"

Individual parts designed by Miller engineers make Ivanhoe Continuous Fluorescent "50-Foot Candler" easy to install, easy to maintain and flexible at all times.

Exclusive Feature—Snap-on reflector completely removable—all wiring in channels make these units easy to get at—simple to clean.

Hanger Strap—Required at each end of each channel section for mounting

E-H1589A........**Each $0.35**

Ceiling Aligner Hanger Strap—For pendant mounting only. Provides perfect alignment—eliminates ceiling hole.

Commercial Lighting Fixtures

MILLER INDIRECT

Is scientifically designed and supplies a wide distribution of well balanced, agreeable lighting that helps stores sell more merchandise and speeds work in offices. The reflector is of Alzak aluminum, brushed finish on the outside with satin finished inside reflecting surface or ivory porcelain enamel outside and white porcelain enameled inside. The canopy is finished in satin aluminum and suspension stem is finished in polished aluminum. A die cast adjustable hickey is tapped ⅜ in. iron for outlet box mounting and supports the stem E-MS843 flexibly without rotation and permits fixture to swing through an angle of 20°. Fixtures are not wired, but wire and mogul socket are furnished Use regular Champion or Mazda lamps.

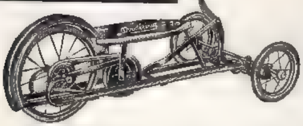
DOODLEBUGS • WAGONS • SCOOTERS

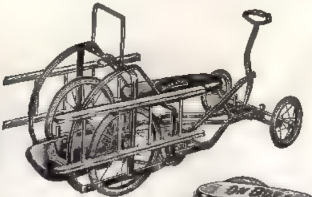
For Outdoor Fun—Every Boy and Girl Deserves One



DOODLEBUG SPEEDSTER

Watch your youngster whizz along on this Doodlebug—he'll be in his glory and the envy of all the kids in the block. And with his fun, he will be developing his muscles, too! A new, long, rangy model with all-steel frame, braced to give a maximum of rigidity and strength with easy balance. Has V-belt, ball-bearing drive. Main frame is hung from the rear axle by tempered steel springs that act as shock absorbers. The seat is long, to accommodate children up to ten years. Comfortable riding and easy arm propelling. Overall length 36¾ in. Seat is 10¼ in. high, 7 in. wide, 14 in. long. Has 12-inch rear drive-wheel, 8-inch front wheel. Baked enamel finish, Green and Red, shipping weight 27 lbs. Like all Doodlebugs, this is more than a toy—it is a real physical developer and health-builder approved by leading physicians. 5-year guarantee.

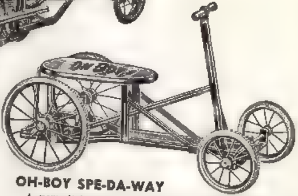
A70135 Price........................ **$15.90**



DOODLEBUG PATROL

Pull the handle and away you go! A second youngster can ride behind, stand on the rear platform; note the handle rail. The 1942 Doodlebug Fire Patrol will easily support 300 lbs. It has two 12-inch, ball-bearing, rear wheels and two 8-inch front wheels, 1-inch rubber tires, V-belt, ball-bearing drive. Completely equipped with fire gong, two wood ladders 26 in. long, with attaching fixtures. Overall length 34 in., seat 10¼ in. high; shipping weight 44 lbs. Handsome in appearance—all steel is finished in baked Red enamel, all wood is clear, natural varnish. For children 4 to 10 years old.

A70136 Price........................ **$23.90**



OH-BOY SPE-DA-WAY

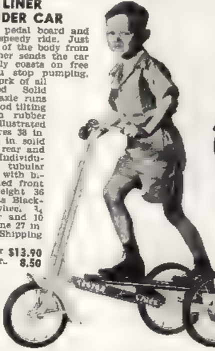
A new, lightweight, low-priced Doodlebug—the Spe-Da Way. The rigid, all-steel truss-frame will support an adult yet is light enough to be handled by the smallest child. Direct rear-axle drive is anchored to one of the rear wheels. The ball-bearing drive rod provides easy running with minimum effort—offers healthy, muscle-building exercise. Size 34 in. long. 12 in. rear and 8 in. front wheels, rubber tires. For youngsters from 2½ to 7 years. Smooth-finished hardwood seat, steel parts enameled. Green frame, Red wheels. Shipping weight 25 lbs.

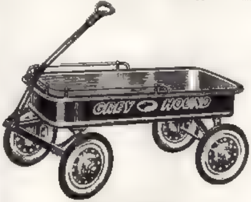
A70137 Price........................ **$10.90**

TEETER LINER AND SCUDDER CAR

Just step on the pedal board and "you're off" for a speedy ride. Just shifting the weight of the body from one foot to the other sends the car ahead. Automatically coasts on free wheeling when you stop pumping. Sturdy frame and fork of all steel, firmly riveted. Solid steel, floating rear axle runs on ball bearings. Wood tilting board covered with rubber mat. Teeter Liner, illustrated at the right, measures 38 in. long, 14 in. wide, 1¾ in. solid rubber tires—12 in. rear and 10 in. front wheels. Individual rubber grips on tubular handlebar, equipped with bicycle bell, streamlined front fender. Shipping weight 36 lbs. Scudder Car has Black-enameled steering wheel. ¾ in. tires. 12 in. rear and 10 in. front wheels; frame 27 in. long, 10 in. wide. Shipping weight 28 lbs.

A70139 Teeter Liner **$13.90**
A70140 Scudder Car.. **8.50**





← ALL-STEEL WAGON

Streamlined, heavy-duty wagon with one-piece, auto-steel body - no seams—joints—or welds. The finest we have ever offered. Rolled top-ledge. SCIENTIFICALLY REFINED FROM PURE PENNSYLVANIA CRUDE OIL SOLELY FOR SERVICE AFLOAT.

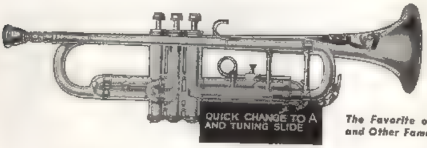
RUNNING LIGHTS in good order

Oil you know you can depend on

Proper lights are required on your boat, not through any whim of the lawmakers, but because your safety afloat depends on them. And it is no whim which causes so many American boat owners always to insist on Duplex Marine Engine Oil. They know that Duplex affords an additional measure of security — the security and peace of mind which come from a smooth, efficient engine and the elimination of one of the chief causes of unexpected engine failures. Whether you own an outboard or inboard, gasoline or diesel power, the record through the years is crammed with proof that Duplex is the oil for the dependable and economical operation of your boat. Quaker State Oil Refining Corporation, Oil City, Penn.

BLESSING TRUMPETS AND CORNETS

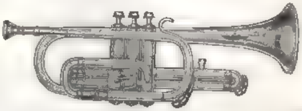


The Favorite of Ted Lewis and Other Famed Musicians

BLESSING ARTIST TRUMPET

Illustrated directly above is the famous Blessing Artist Trumpet, known the world over for its richness of tone. A precision made, hand-built instrument with quick change to A and tuning slide. The valves and slides are fitted with micrometer exactness to 1/1000 of an inch. Exclusive patented Blessing tuning mechanism enables tuning to the fraction of an interval. Many of these trumpets are used in the finest bands in America who prefer the super-quality of Blessing instruments over all others. A written 20-year guaranteed bond assures satisfaction with every Blessing trumpet. Available in two finishes, gold lacquer or silverplate with gold bell. Each instrument complete in silk, plush-lined deluxe carrying case.

A77152	Gold Lacquer with Case	**$132.00**
A77153	Silverplate with Case	**149.50**



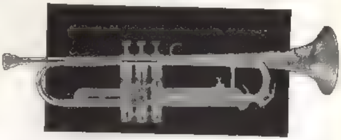
BLESSING ARTIST CORNET

Here's the newest model Blessing Artist Cornet for 1942—a cornet that is the favorite with many of the most popular bands and leading musicians. Has countersunk valve caps for unequalled fast and easy action. A custom-made, hand built instrument backed by Blessing with a written 20-year guarantee bond. Round, full, richly sonorous tonal quality, remarkably even register and intonation absolutely perfect. Choice of two finishes both richly engraved. Gold lacquer or silverplate with gold bell. Complete in silk plush lined carrying case.

A77154	Gold Lacquer with Case	**$132.00**
A77155	Silverplate with Case	**149.50**

BLESSING—THE BEST NAME IN BRASS!

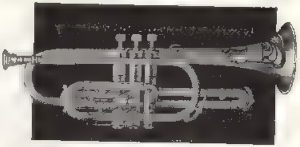
For more than two generations among top ranking musicians, the name Blessing has been a symbol of the finest craftsmanship in trumpet and cornet manufacturing. Only Blessing gives a written 20-year guarantee bond with every cornet or trumpet. Check the great bands of the nation and you will find that many of them use Blessing instruments. Paul Whiteman's orchestra, dozens of other famous popular dance and concert orchestras, all use Blessing instruments. Their recommendation is the best guide for any amateur or professional musician in choosing a brass instrument. Buy Blessing and be assured of lasting satisfaction.



BLESSING STANDARD TRUMPET

Nickel silver pistons ground and lapped by hand for perfect fitting and compression. Improved countersunk valves and third finger ring. Guaranteed by Blessing for 20 years. Your choice of two finishes, hard gold lacquer or silver with gold bell. Complete with professional, deluxe carrying case leatherette covered and plush lined.

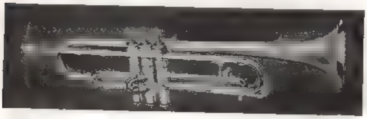
A77156	Gold Lacquer with Case	**$89 50**
A77157	Silverplate Gold Bell with Case	**96.00**

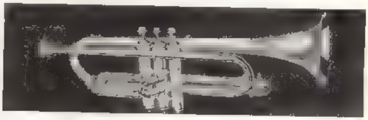


BLESSING STANDARD CORNET

Tonal quality is round, full and richly sonorous. Remarkably even register intonation, as perfect as is found in the highest priced cornets. Comes in a choice of two finishes, gold lacquer or silverplate with gold bell. Complete in carrying case.

A77158	Gold Lacquer with Case	**$89.50**
A77159	Silverplate with Gold Bell with Case	**96.00**





BARONET TRUMPET

New model with underneath valve springs, fast and short valve action. The newest product from one of America's largest band instrument factories in Elkhart, Indiana, the home of our finest instruments. Your choice of two finishes, gold lacquer or silverplate with gold bell. Each complete in plush lined carrying case.

A77160	Gold Lacquer	**$65.00**
A77161	Silver, Gold Bell	**65.00**

The name Baronet on a musical instrument means that you are getting genuine fine quality at a moderate cost. While you can pay considerably more and secure an even finer instrument, like the Blessing, you definitely get the very best value dollar for dollar, in Baronet instruments. If you desire to keep your investment down to a moderate level, you will find the Baronet entirely satisfactory in every way. Baronet instruments are made in one of America's largest band instrument factories located in Elkhart, Indiana, guaranteed by John Plain & Company for lasting satisfaction.

BARONET CORNET

The newest 1942 design with underneath valve springs, fast and short valve action. Available in silverplate with gold bell and burnished silver slides or gold lacquer finish. Each is hand engraved complete in plush lined case.

A77162	Gold Lacquer	**$65.00**

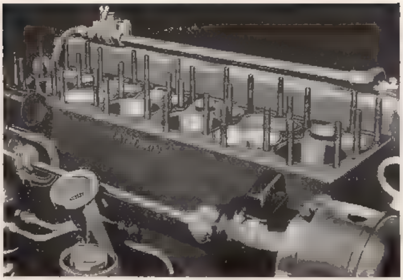
Her blue pique dress is trimmed with lace. 1-pc. undy. Rayon socks; slippers with ties.
48 T 2694—20-in. Toddler Doll. Ship. wt. 4 lbs. $2.98

Class A runabouts, and the Fireball racing engines for 218 (Class D), 225 and 244 cu. in. sizes

Production of Gray Marine Diesels continues at full capacity and facilities have been more than doubled in the past year. The U. S. Army and Navy are large users and an increasing demand has been felt from South America and the Far East. Five sizes are in production, all based on the engine developed and built by General Motors and adapted and equipped for marine use by Gray. All have 4¼" bore, 5" stroke and basic cylinder size of 71 cubic inches. There are 24 separate models from one-cylinder 25 hp. 1250 lbs. to six cylinders and 2425 lbs. weight

A new development is the production of high-output "Navy Style" engines for operation up to 2100 r.p.m., delivering 225 horsepower. These are not available to the general public. Other new developments include special engines with radiator cooling for the U. S. Coast Guard.



The Gray Six-101 showing multiple studs for pulling the cylinder head down tight and preventing compression leaks. Below, a Gray Four-52 with built-in 3:1 reduction gear

EVINRUDE'S 1942 OUTBOARDS

▶ Although half its facilities are devoted to defense production other than outboard motors, Evinrude Motors, of Milwaukee, Wis., has scheduled sizable quantities of its Singles, Twins and Fours for 1942 production. However, since outboard motors also play their part in the defense of the nation, the continuous program of research and experiment which has marked the progress of the oldest outboard motor maker has not been allowed to lapse. The 1942 models show many improvements and refinements.

Much of the outboard's popularity is directly due to the light weight obtained through the use of aluminum, since this metal is greatly restricted for civilian use. Evinrude engineers have had to wrestle with many problems of substitution. So, the 1942 motors come with plastic control knobs, filler caps and starter housings. Experiments indicate further use of plastics. In many cases, the substitute has proved more satisfactory than the original. In no case has an unsuitable substitute been used, although in some models the weight has been increased slightly.

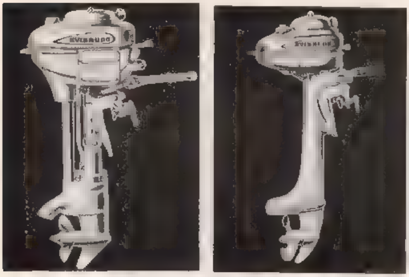
The basic Evinrude features are contained in each of the nine 1942 models. These include hooded power, relief co-pilot steering, centrifugal pump cooling and watersealed silencing. Each motor which leaves the factory has its certified N.O.A. brake hp. rating.

The Evinrude line ranges from ½ to 33.4 hp motors. Most powerful is the Speedifour, a four-cylinder motor capable of pushing heavy loads at high speeds. Speedifour's starting is made easy, despite its power, by a compression release which cuts out one bank of cylinders. The electric starter model has been discontinued because government demands make it impossible to obtain the special electrical units required.

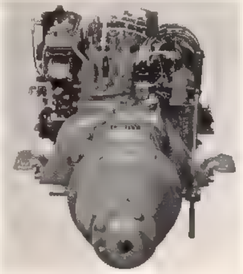
Weighing only 10 pounds, the tiny Evinrude Mate is in demand among lake fishermen. This little motor, developing ½ hp, can push along a light boat far better than the oarsman for whom it was originally designed to substitute.

Ranger is the next model in the line. Weighing 16 lbs., it will develop a full horse power and is unusually economical.

The Sportsman, 2 hp., and the Sportwin 3.3 hp., are both equipped with the Evinrude reverse feature which made its first appearance on these models last year. An automatic



Far left, the 9.7 hp. Evinrude Lightfour which is capable of driving planing boats at speeds up to 25 m.p.h. Left, the Evinrude Sportsman, one of the most popular outboards for utility and fishing service. It weighs only 26 pounds. Both these Evinrudes are equipped with Simplex starter

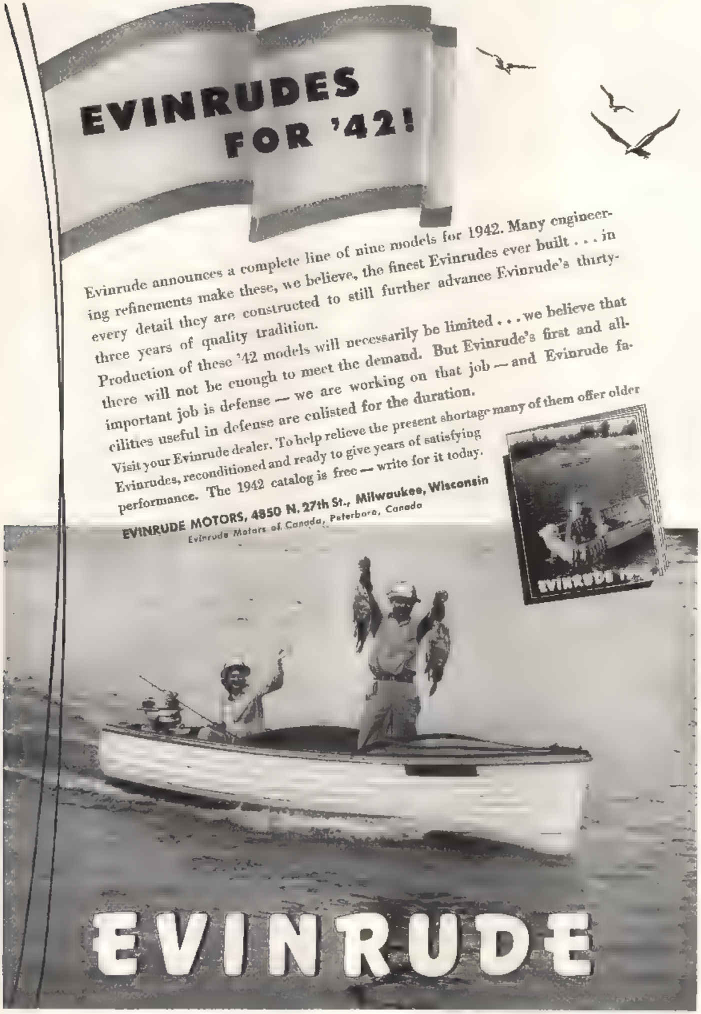


lock prevents the engine tipping into the boat while backing.

Pioneering in four-cylinder outboards in 1928 with the Quad (since developed into the Speedifour), Evinrude continued to make improvements in the four-cylinder motor, the most recent model being the light weight Zephyr, first put on the market in 1940. The operating qualities of the Zephyr have been markedly advanced in the 1942 model. New discoveries in manifolding have given it a degree of flexibility never before attained in this type of motor. As a result, the slowest trolling speed is now available and, when given the gun for top speed, the response is instantaneous. Owners of 1940 and 1941 Zephyrs may avail themselves of the new 1942 features. Complete information can be obtained from Evinrude dealers or direct from the Company's Service Department.

Filling out the Evinrude line are the Lightfour, Sportfour and Speeditwin, all well known and all with advancements in design and performance for 1942.

Due to acute shortages of materials, production of the entire Elto line and all Evinrude racing models has been suspended for the "duration." A few racing 460's still remain in stock but it is doubtful if they will remain there long.



EVINRUDES FOR '42!

Evinrude announces a complete line of nine models for 1942. Many engineering refinements make these, we believe, the finest Evinrudes ever built . . . in every detail they are constructed to still further advance Evinrude's thirty-three years of quality tradition.

Production of these '42 models will necessarily be limited . . . we believe that there will not be enough to meet the demand. But Evinrude's first and all-important job is defense — we are working on that job — and Evinrude facilities useful in defense are enlisted for the duration.

Visit your Evinrude dealer. To help relieve the present shortage many of them offer older Evinrudes, reconditioned and ready to give years of satisfying performance. The 1942 catalog is free — write for it today.

SKIS FOR WINTER

FLEXIBLE FLYER

The favorite skis on the slopes and trails of this country . . Made by Norwegian ski makers who know what a good ski is and how to fashion it!

Built of hard, tough, straight-grained yet flexible hickory . . Seasoned scientifically to a uniform moisture content . . . Dry enough not to warp easily . . . Moist enough not to be brittle.

Closely matched in pairs for weight, color, flexibility and camber. Expertly proportioned! Even the curve of the tip, streamlined for safety and appearance is carefully combined with the camber to provide the maximum running surface and at the same time the necessary bouyancy.

MODEL "AN"

Made of hard, tough, straight-grained and flexible hickory, carefully seasoned. Dark stained tops and natural finish bottoms.

Nos.	Per Pair	Lgth., Ft.
S-AN-1	$14.50	6½
S-AN-2	14.50	6¾
S-AN-3	14.50	7
S-AN-4	14.50	7¼

One pair in a bundle, strapped and blocked.

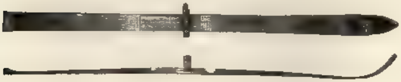
Four pair in a carton.

MERCURY MODEL "BD"

A dependable ski in a lower price range. Ridge top, selected hickory. Stained dark and polished on top, with dark water-proofed bottoms.

Nos.	Per Pair	Lgth., Ft.
S-BD-1	$10.50	6½
S-BD-2	10.50	6¾
S-BD-3	10.50	7
S-BD-4	10.50	7¼

Four pair in a carton.



MODEL "PF"

A ski for beginners. Made of extra choice straight-grain quarter sawed long leaf yellow pine. Flat top with rubber foot plate and straps. Four-foot length finished in a special red; other lengths in rich walnut.

Nos.	Per Pair	Lgth., Ft.
S-PF-1	$1.60	4
S-PF-2	2.30	5
S-PF-3	2.65	5½
S-PF-4	3.00	6
S-PF-5	3.50	6½
S-PF-6	4.00	7

Six pair in a carton.

SPLITKEIN

The Slalom model combines axactly the right width, length, weight balance and flexibility Also recommended for the average skier for all-around use Splitkein Ski has a scientific construction totally unlike any other ski on the market. They are built up from 16 to 24 pieces pressed together with special water-proof glue. All of the bottom pieces are hickory, with the grain going with the running surface. The top of the ski is made like the bottom only the middle and outside sections are hickory The remaining sections being of lighter wood to reduce weight. Non-warping

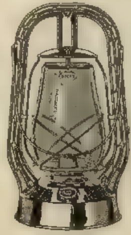
DIETZ, MONARCH, HOT BLAST



Streamlined construction; made of cold rolled steel coated with a charcoal tin. Strong, beaded tubes; lever globe lift, non-tip base and improved pivot bail.

13½ inches high; 1 C.P. light volume. ⅝ inch wick; burns 30 hours on one filling; No. 411 Winglock burner and "Fitzall Loc-Nob" globe.

Per dozen

Monarch Clear globe ....$....

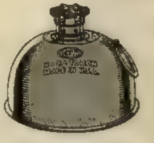
Monarch Ruby globe ....

Weight per dozen 29 pounds.

One dozen in a package.

HIGHWAY FLARE TORCHES

DIETZ

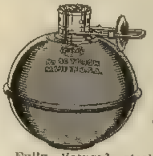


A hemispherical torch made of steel and absolutely leakproof. Fitted with carrying ring.

While not weighted, its rounded, fender sides are designed to protect it against damage by passing vehicles. The fully licensed burner is a reliable windproof type — a modification of the all-weather burner—made of two parts of heavy steel, with fixed rain shield. Wick is held by spiral feed which prevents it from dropping Its construction prevents bleeding and leakage. Red enameled. Burns more than 24 hours on one filling.

Per dozen

No. 80—2½ qt. capacity; 6⅛ in. high; 7¾ in. diameter, ⅞ in. wick; wt. per dozen 33 lbs.....$....



Very strongly built of steel, with double seamed, leak proof joint.

Because of its spherical shape and weighted bottom, it will right itself if knocked down or skidded from position by passing vehicle

Fully licensed steel burner of all-weather, wind-proof type, fitted with rain shield, carrying loop and automatic wick lock, which prevents wick from dropping.

Flame burns perfectly. Red enameled finish. Burns more than 36 hours on one filling.

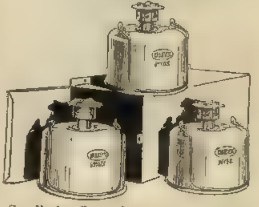
Per dozen

No. 96—3 qt. capacity; 7½ in. high; 7¾ in. diameter, ⅞ in wick; wt. per dozen 84 lbs. ...... $ ...

Above, one-quarter dozen in a carton.

MOTOR TRUCK FLARE KITS

DIETZ, STORMPROOF



Small size flares for space economy and low fuel consumption. Burns in any weather. Fitted with winglock type stormproof burner with ⅝ in. wick. Heavy welded sheet metal case with hinged door and square door opening permitting mounting any side up.

Brown enameled flares with green snuffer cap; green enameled case; plated burners.

Each flare has a capacity of 40 oz and will burn more than 12 hours

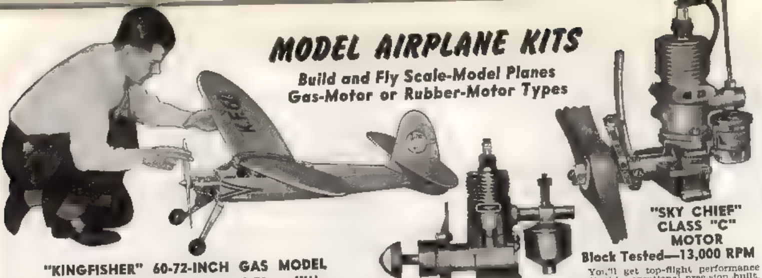
Per kit

No. 332 Kit—Consists of 3 flares, in a 17¾x6¼x6 in. steel case; wt. per kit 10 lbs. ....$....

One kit in a carton.

MODEL AIRPLANE KITS

Build and Fly Scale-Model Planes Gas-Motor or Rubber-Motor Types



"KINGFISHER" 60-72-INCH GAS MODEL

The Sensational Flying Model Plane Kit!

Build 'em with your own hands—watch them fly—and you'll get the thrill of a lifetime' But it's more than fun—even though there's plenty of that. You learn the basic theories of aero-dynamics—you discover what keeps the big stratoliners in flight—you become familiar with the principles of aircraft design It's so easy . so much fun . . you'll enjoy every minute you can spare for this fascinating hobby' Age limits? There aren't any—millions of youngsters from 7 to 70 fill the ranks of America's flying-model-plane enthusiasts. If you're a beginner start with one of the kits on the bottom of this page—if you've built them before—the famous Kingfisher' above is your "meat."

COMPLETE "KINGFISHER" KIT. . . . The finest, most accurate, and easiest to follow full-scale plans, detailed drawings plus everything you need to build this marvelous flying-model plane—with material for 60 and 72 in. wing spans. Can be easily and quickly converted to a seaplane and back again to a land plane Accurate sturdy construction details make it a flying wonder with long-distance sustained flight right-side-up stability, and crash proof landing features Use any model ⅛-in bore gasoline engine Kit designed by Joe Ott. former U S. Army aviation instructor.

A31350 Complete Kit (Without Motor)........................$7.00

A.M.A. CLASS "B" MOTOR

Easiest Starting Miniature Motor—Weighs 4¾ Oz.

Just the power plant you need for your model plane' Packs a real punch in a tiny space Precision built machined to micrometer accuracy, pretested, partially assembled - takes only a few minutes to complete. Super-charged carburetion will not flood Latest design outpulls outlifts and outflies any motor in its price class- a favorite with model-flying contest winners More power, more speed with less weight—only 4¾ oz Bore 13 16 in stroke 9 16 in displacement 292 Complete with spark plug. Coil and condenser not included.

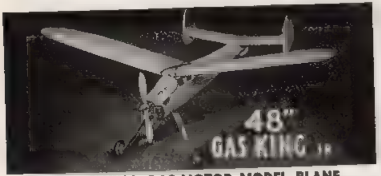
A31351 Price........................$6.70

"SKY CHIEF" CLASS "C" MOTOR

Block Tested—13,000 RPM

You'll get top-flight performance with this sensational precision built, block-tested, two-cycle gasoline engine Every detail is perfectly designed, accurately constructed and thoroughly tested for maximum performance and efficiency Built to stand up under severe conditions—with quality features found only in motors costing twice our low price Lightning 3-oz coil, balanced with condenser to assure quick starting, positive-firing timer cam vibration-proof carburetor, adjustment needle-valve micro-lapped piston with Perfect Circle ring Multiple-finned cylinder of Molybdenum iron heat-treated steel time-shaft transparent, non breakable non inflammable gas tank Bore ⅞ in stroke ⅞ in displacement 526 13,000 R P M capable of . 5 H.P Complete with coil and condenser, weighs 10 oz.

A31352 Completely Assembled $10.60



LONG-FLYING GAS-MOTOR MODEL PLANE

Build and fly your own gas model! This perfect 48-in. Gas King Jr., engineered by the famous Joe Ott for record-breaking flights, is easy to assemble. The blue prints supplied are full size, complete with construction sketches and detailed instructions. Entire motor assembly is mounted on a sliding skid that can be removed from the fuselage, making all motor parts accessible for testing and adjusting. The plane you'll build from this kit will really amaze you! Complete with all necessary parts, including wood wing covering, wheels, propeller, cement, landing gear wire, etc. Uses any gas motor with ⅛ in. or ⅝ in. bore.

A31353 Complete Kit (Without Motor) $3.50

50" TURNER RACER

MODELED AFTER FAMOUS SPEED PLANE

Watch this racer in flight—and you'll be more thrilled than ever with the results of your own handiwork. An exact-scale miniature of the famous Turner Racer that has won two Thompson trophies. Full 50-in wing span provides super-lifting power, perfectly balanced long-distance flights, and stable performance Contains full-scale blueprints and detailed instructions Also every piece you need from wood forms, braces wing covering, wheels landing gear propeller cement, and motor mount. Thrills galore and contest-winning endurance flights! Uses gas motor with ½ in. to ⅝ in bore.

A31354 Complete Kit (Without Motor) $3.50

45" SPITFIRE
42" CESSNA "Photoplane"
42" Westland LYSANDER
45" LOCKHEED

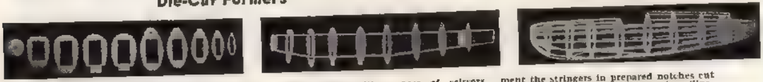
75% of Assembly Problems Eliminated by New System of Die-Cut Formers

FOUR "JOE OTT" RUBBER MOTOR KITS

Including New Patented Die-Cut Formers

Four popular favorites! Each a perfect reproduction of its famous military namesake, built to true-scale dimensions. The planes that are making military aviation history with their amazing performance. Build 'em—and see them actually fly with all the tricky maneuvers typical of the fighter planes of today The kit for each plane contains everything necessary for its construction—full-sized blueprints, detailed instructions; formers stamped on wood with centers die-cut, as illustrated below; Balsa strip stringers, framework, ribs, body and wing covering, propeller, cement, wheels, etc. So simple and so easy to build! Powered by a special rubber-band motor included with kit.

A31355	45-In. Spitfire Plane	$1.40
A31356	42-In. Cessna Plane	1.40
A31357	45-In. Lockheed Plane	1.40
A31358	42-In. Lysander Plane	1.40



Extremely simple to build' The formers are printed on heavy fiberboard with centers die-cut. All you do is cut the outside shape with a pair of scissors, build the body foundation frame of Balsa with the strips furnished to size, and cement the stringers in prepared notches cut in the formers. The three easy steps illustrated above show you how.

Enjoy Cool Comfort All Summer Long — Install

ELECTRIC FANS

Floor, Table, Wall Models . . . Attic Circulators

NITEAIR

Attic Circulating Fans Cool the Entire House

- **Quiet . . . Compact . . . Efficient**
- **Ideal for Apartments, Homes and Business Places**

NITEAIR Circulators are available in two types, each adapted to a specific use, designed for maximum cooling efficiency. PANEL UNIT (not illustrated) is similar to the unit shown above except that the fan is mounted on a single panel. Suggested where attic is airtight around the roof and eaves—installed in the outside attic wall. Also as window panel in an apartment. Easy to install. PACKAGE UNIT, shown above, is designed for installation where it is not practical to make the installation in the outside attic wall. This unit is placed on the attic floor or joists directly over an intake grille in hall or closet ceiling or over an attic stairway. This is the only effective installation if there is considerable air leakage through an attic window or under the eaves. Complete range of sizes listed below.

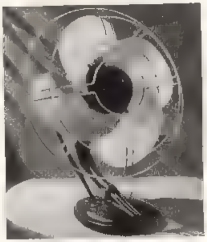
22-inch BEARCAT CIRCULATOR

CYCLONIC BLADES

3-Speed Motor

A high-power pedestal fan that delivers a steady stream of circulating, cooling air right where you want it! Changes hot, stuffy stores, offices or homes into enjoyably cool surroundings. Delivers 4,900 cu. ft. of air per minute. Has switch controlled, three-speed motor. Cyclonic blades are shaped for maximum efficiency plus operating silence. The pedestal mount adjusts for heights from four to eight feet. Handsomely finished in Duo Brown with bright trim and all-around grille guard. Motor is rigidly mounted on the wide-base pedestal. Smooth-running motor will give long, dependable service. Uses AC current only. Ship. wt., 107 lbs.

A75116 ......**$63.50**



GILBERT'S AERODYNAMIC

The last word in streamline style and aerodynamic efficiency. This 10-inch oscillating fan has four bright-finished metal blades with bullet nose — extremely quiet in operation with more air output than ordinary blades. Switch in base controls Low and High speeds with definite Off position. Oscillating mechanism is concealed, has automatic safety release. Moves through 80-degree arc—can also be used stationary. Tilts up or down. Gunmetal finish with chrome trim and guard. Size 13½ in. high, 11¼ in. wide. Uses AC current. Shipping weight, 12 lbs.

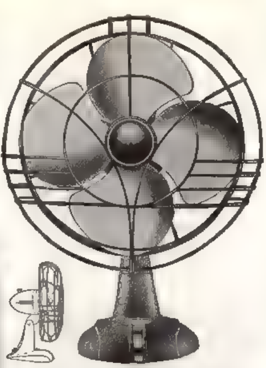
A63870 Price **$16.50**

SAFETY SILENT SAMSON

Dynamic-Shaped Rubber Blades

Cooling breezes with soothing silence and perfect safety—are yours in this new Samson 10-in. oscillating rubber bladed fan. Needs no guard—won't injure even a Baby's finger. Oscillates 90 degrees—can also be used stationary. Mounts on wall—tilts to any angle. Base, support and motor housing are Grey, crystallized baked-enamel. Complete with rubber cord. Uses AC current. Ship wt. 14 lbs.

A63874 Price...... **$17.25**



The ARCTICAIRE

Oscillating and Stationary Fan . . . Powerful, Vibration-Free Motor

Our best selling fan. It is handsome and efficient, powerful yet quiet in operation. Available in three sizes. Each fan oscillates through a wide arc, can also be used stationary when desired. Dynamically-shaped metal blades are designed for silence and maximum air output. Sturdy motors are sealed for quiet operation. Need no attention—no oiling necessary. Operate on AC current only.

Three Models

The 10-inch fan has single-speed motor. Moves 710 cu. ft. of air per minute. The 12 and 16 inch fans have switch controlled, three-speed motors. 12-inch circulates 1,075 cu. ft. of air per minute; 16-inch circulates 1,725 cu. ft. of air per minute. Each fan is mounted on a heavy metal, vibration-free base. Can be mounted on wall if desired.

Miller Fluorescent Daylight Desk Lamps

FOR USE WITH No. T8, 18 INCH 15 WATT WHITE OR DAYLIGHT FLUORESCENT LAMPS 115 VOLTS, 60 CYCLE A.C.

The Maximum in Beauty and Performance

For Desks, Drafting Tables, Work Benches, etc.

Scientifically designed with inside reflecting surface to give cool, smooth glareless "indoor daylight" over desk surface for easy comfortable seeing. Has inside reflecting surface that combines the advantages of the control of non-tarnishing polished Alzak aluminum and the diffusion of white pigment. The Alzak section controls and directs the larger portion of the light at the long angle, while the white pigment diffuses the stray light.

Smoothly graded light is provided over the whole working area—no sharp, eyestraining contrasts. The fixed reflector is carefully engineered so that no adjustments are necessary—always the right spread of light—always a concealed light source.

Lamps can be placed anywhere on desk—in the center or at either end - and give a wide spread of uniform light. They have been so carefully engineered that proper illumination of a page or letter is obtained without glare.

Smartly styled. Finished in rich plated bronze. Convenient push-button switch and pen rack in base, which also houses the operating auxiliary. Separately mounted removable starter switch and 9 foot rubber covered cord and plug

Reflector width is 6¾ inches, length 18¼ inches. Length base 11 inches, width 6 inches. Height of lamp 15½ inches.

E-FL720—Less Bulb .... Each **$18.95**

An efficient fluorescent lamp with cast metal column. Finished in rich plated bronze Convenient push-button switch and pen rack in base, which also houses the operating auxiliary. Separately mounted removable starter switch and 9 foot rubber covered cord and plug

Reflector width is 6¾ inches. length 18¼ inches. Length base 11 inches, width 6 inches. Height of lamp 15½ inches.

E-FL721—Less Bulb .... Each **$15.45**

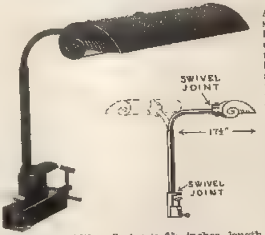
Electro-Dalite Fluorescent Desk Lamps

Look at the value. Streamlined for beauty, efficiency, economy. Invaluable for reading and for work. Perfect for color matching Best lamp for eyes, cool clear, non-glare fluorescent daylight. 50% cooler than ordinary lighting. Special developed switch gives instant light. Finished in attractive brown wrinkle finish with chrome lined reflector Length shade 18 inches, width 4 inches, depth 2¾ inches. Height of lamp 16 inches.

E-140—Less Bulb Each **$5.95**

One in a carton.

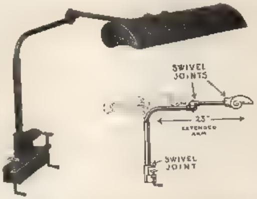
Electro-Delite Fluorescent Desk Lamps



An extremely practical single-arm fluorescent lamp for typewriter desks, bookkeeping machines and similar locations. Adjustable at two points to provide light where needed. Finished in wrinkled walnut brown. Has convenient toggle switch and separately mounted, easily accessible, removable starter switch

Clamp-on type base 10x5 inches houses the operating auxiliary Equipped with 9 feet of rubber-covered cord and plug. Width reflector is 6¾ inches, length 18¼ inches. Width of lamp fully extended 17½ inches. Height over all 15½ inches

E-FL722—Less Bulb .... Each **$19.95**



A sturdily constructed, double-arm fluorescent lamp for drafting tables, factory work benches and similar locations. Adjustable at three points to provide light where needed Finished in wrinkled walnut brown Has convenient toggle switch and separately mounted easily accessible, removable starter switch.

Equipped with 9 foot rubber covered cord and plug. Clamp-on type base, 10x5 inches, houses the operating auxiliary. Width reflector is 6¾ inches. length 18¼ inches. Width of lamp fully extended 23 inches. Height over all 15½ inches.

E-FL723—Less Bulb .... Each **$21 95**

Polaroid Study Lamps

Modern desk lamp. Delivers light through concealed Polaroid filter

Polaroid filter contains thousands of billions of invisible crystals which "comb" the light at its source—actually traps glare producing light vibrations. Only Polaroid protects eyes from glaring reflections of light on desk and reading page.

Base and columns—walnut bakelite, shade eggshell parchment type. 100-watt standard frosted bulb. Height 12¾ inches. diameter 11½ inches. Column switch, 8-foot cord with midget moulded plug

E-100.... Each **$2.95**

Six in a carton.

Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added

AND INSTALL A

KELVIN-WHITE SPHERICAL COMPASS

The new 77-foot Patrol Torpedo Boats of the U. S. Navy are the fittest, fastest, fightingest boats in the world for their size. Their 50-knot speed involves maximum compass requirements. We are pleased that our Kelvin-White Spherical Compass has been installed on these boats, now building in the United States and Canada; and on many other vessels of the U. S. Navy; U. S. Engineers, the Coast Guard; the Lighthouse Service, and the U. S. Maritime Commission. Whether your boat is large or small, a Kelvin-White Spherical Compass will best fill its requirements. It is the latest improvement in magnetic compass design

Model Builders Want

Rogers MOTORS

Experienced model builders by the hundreds have been going into the big airplane plants and into the technical services of the Nation. In building and flying airplane models—*gas* models—they have gained skill and basic aeronautical knowledge that starts them right in the great industry of today and the future.

In training the youth of America, Rogers Motors fit into the master plan of defense. In working with these motors, you learn the principles of the internal combustion motor—timing, ignition, heat conductivity—and in the power flight studies which they provide, the principles of aeronautics. The boy or young man with a Rogers Motor is fitting himself to serve his Country—and to make himself a technical expert.

Produced in America's largest miniature motor plant, these motors combine light weight and durability with amazing power, speed and sure-fire starting.

Megow is now producing Shulman's "Super-Zomby" gas model in easy-to-build kit form! That is today's outstanding news, both for contest-builders and for model builders seeking the aeronautical experience only found in gas model work. To a degree never before reached, this sensational model embodies all the aerodynamic features required in a contest-winner as well as remarkable efficiency both in building and operation, and a ruggedness that withstands great punishment.

The builder of a Megow "Super-Zomby" starts among the top-notchers with a proven winner, and he has the opportunity to study the effect of certain features of design not found in other models.

Designed by Leon Shulman to achieve sensational climbing ability and a flat soaring glide, the "Super-Zomby" was among the winners in over twenty contests during 1941, topped by a "first" at the Chicago "Nationals". It is a plane of great versatility, suitable for either class A or B, and motors of .19 to .29 displacement. The wingspan is 44 inches, length 32 inches, and the construction is of the well-known easy-to-build "crutch" type with full motor enclosure.

THE CANNON "CARIBEE"—VIVIDLY STRIPED BORDERS

Bath Towels, Face Towels, and Wash Cloths in 4 Luscious Shades

Pictured above like a giant butterfly's wings are four of the loveliest Cannon towels. Four thrilling colors with triple-striped borders woven of mercerized yarn. These Cannon towels have a deep terry surface that dries quickly and thoroughly, with extra strong underweave to insure long satisfactory service. These luxury towels retain their color and their softness despite repeated launderings. Bath towels are extra large, measuring 22x44 inches. Face (or guest) towels 16x27 inches and wash cloths 12x12 inches, to match the bath towels. Offered in sets of four—all the same color. You may have your choice of four glorious shades—**Green, Dusty Rose, Blue, or Gold.** Mix or match your own ensembles by ordering some of each! Caribee ensembles make lovely gifts too!

CHRIS-CRAFT OFFERS SIX MARINE ENGINES

▶ For 1942 Chris-Craft presents a new line of six engines exclusively designed for marine use. These new gasoline engines are built in three different block types, one of four cylinders and two of six cylinders each. The new units are designed for use, either singly or in pairs, in boats up to 75′ in length.

Features of the new line of Chris-Craft engines include specially designed, high efficiency iron cylinder heads, streamlined intake and exhaust ports, non-drip safety carburetors, oversize helical gears, and pre-tempered water for the cooling system. All models are equipped with tension type rubber mountings designed to retain their shock absorbing qualities throughout the life of the engine.

Since Chris-Craft engines are built to power the Company's own boats, every effort has been made to develop a maximum of horse power per pound. Experience gained in building and powering fast runabouts has resulted in even the largest Chris-Craft engines being unusually compact and light.

Smallest of the line is the model "B," a four-cylinder engine for small runabouts, utilities and cruisers. It is 32″ over all with a height of 24″ and is available with a 2.04:1 reduction drive. It develops 60 hp. at 3000 r.p.m. and has a piston displacement of 132.7 cu. ins.

Designed for larger boats, Model "M" has many features unique in the marine field. The exhaust manifold is extremely low to permit flush hatch installations. An innovation is the new type separate intake and exhaust manifolds. A new timing gear train, designed to reduce noise and give longer life, is offered in this model. With its 4″ bore and 4¼″ stroke, Model "M" develops 130 hp. at 3000 r.p.m. and its over all weight is 850 pounds. A stepped-up version, which develops 145 hp. at 3400 r.p.m., is available for fast boats.

Largest of the Chris-Craft line is the new 160 hp. model "W" which features, as with other Chris-Craft 6-cylinder motors, a seven bearing crankshaft of Tocco hardened carbon steel. Model "W" is available with single stage reduction gears of the opposite internal helical type and ratios of 1.5:1 and 2.54:1.

The Chris-Craft model M engine which develops 130 hp. at 3000 r.p.m.

Bright sun, clear water, a boat, a girl, and an Evinrude

JOHNSON OUTBOARD MOTORS

▶ While the needs of National Defense have curtailed the supplies of certain materials, necessitating some changes in specifications, the outboard motors which the Johnson Motor Company presents for 1942 are, in every way, dependable Sea Horse motors.

Continuing its complete line of ten models ranging from 1.5 to 22 hp., the Johnson Company has added many refinements to the 1941 models while retaining the outstanding features which have made them so popular for many years.

Super streamlining, both above and below water, add to the appearance and efficiency and the rubber-rotor pump provides adequate cooling at all speeds since it does not depend upon centrifugal force for its operation. The Rubber-Flow shock absorber drive provides unusual protection to the propeller and to the shear pin.

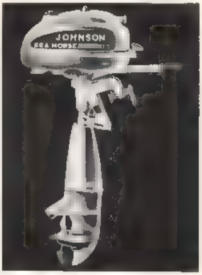
During 1941, more than 75 per cent of the "H" and "T" models were equipped with the Johnson Ready-Pull starter. Five of the ten models in the 1942 line have this as a regular feature and public preference may drive the percentage of the starter models still higher.

The new Model SD is the first outboard to use pressure feed on the gasoline. It has Hi-Vac cooling, which provides adequate cooling at the slowest speed, and alternate firing cylinders cast in a single block of aluminum.

While the Johnson Service organization is already wide in extent, the outlook is that it will be even further extended during 1942.

Right, the Johnson Deluxe Model TD, a two-cylinder 5 hp. outboard motor which weighs only 42 pounds. Far right, one of the smaller Johnsons, the Deluxe Model MD, rated at 1.5 hp. and weighing 26 pounds

JOHNSON
SEA HORSE



FIELDERS' GLOVES

KEN-WEL

FOR PROFESSIONAL USE

HARRY GUMBERT

Meets every requirement of big league ball. Made on extra large pattern of finest selected willow hide

HORSEHIDE COVER

A quality ball of superior construction that conforms to the new specifications of both the National and American Leagues. Cork and red rubber center with two windings of fine yarn. The outer winding is securely cemented to take punishment. The high quality, double stitched, alum tanned horsehide cover insures long life and plenty of "Sock" in play. Cover is cemented to the ball and double stitched with red thread. Sell just a few of these balls to your area teams—and the quality and low price will make volume sales for you

No. 3SD150. Each, **81c.** 12, each, **78c.** Less 2%, net........ **76c**

Note the Special Internal Construction of This Quality Ball

The pure cork and red rubber center is enclosed in a special live Para rubber casing. This is then wound twice with select quality blue mixed woolen yarn under perfectly even tension. The double stitched horsehide cover is cemented to the ball, making a live, firm long-life ball with perfect roundness which is retained throughout play.

Such quality construction is very seldom found in a ball offered at this exceptionally low price.

THE PERFORMANCE BOATS OF TODAY!

ROBINSON MARINE CONSTRUCTION CO., Inc.
BENTON HARBOR, MICHIGAN

FLORIDA TRADE WINDS

By Vivyan Hall

▶ At Fort Lauderdale, the Dooley Basin and Construction Company is working on four 100′ aircraft rescue boats for the Army. They will be fast and rugged, suitable for offshore work under any conditions. At the southern end of the city, at Port Everglades, the Navy is constructing a base for small patrol boats similar to that at Key West. J. W. S. Foster's 70′ Diesel cruiser *Penguin*, which based last year in the New River, is now an Army inspection boat in New England. Her owner is in the Air Service.

▶ Clifton Breckenridge has sold his Lauderdale Yacht Storage Basin and is now a major in the Army. The new owner is Henry Summerfield, formerly from Toledo, whose interest in Florida boating began when he entered his "R" boat *St. Claire* in the 1938 Miami-Nassau race. T. R. Benson, who recently moved down from Chicago to Fort Lauderdale, has bought out the Broward Boat Works on the south bank of the New River. He has made extensive improvements in the plant which has been renamed the Benson Boat Works. Moored along the river banks are A. J. Powell's *Yock*, from Wyoming, Del., winner of the "best performance" trophy on the 1941 Southward Ho Cruise, Chester Bentley's cruise flagship *Marchet III;* Commodore Stanley Wood's *Nipantuck*, from Bristol; and T. A. Caton's *West End II*, from Malvern, L. I. At Al Huss' Lauderdale Beach Boat Basin are Gordon Fisher's *From Now On*, from Annapolis, Gordon Mendelsohn's *Quartermore*, of Detroit, and W. E. Heller's *Kare*, from Manhasset.

▶ The Coast Guard Cutter *Mojave*, which for the last five years has convoyed southern ocean races, now has among her officers some of the yachtsmen themselves. E. F. Hanks, from St. Petersburg, who has had full tonnage papers for some years, and Gordon Hempstead, of Miami, who has been writing for yachting magazines, are both junior lieutenants. John Saussy, a regular in the St. Petersburg-Habana Race, and Thomas Hallock, whose *Sea Gull* carried the first Covic Diesel seen around Biscayne Bay, are both ensigns in the Reserve. Lieutenant Henry McHarg, Jr., also in the Coast Guard Reserve, recently left Miami for duty in the West Indies, commanding his own 56′ Diesel cruiser *Estherbelle*.

▶ Commodore Manuel Aspuru reports an important addition to the Habana Y.C. fleet, the 50′ motor cruiser *Asthore*, recently purchased from Charles Gulden by Manuel J. Diaz. Built by Consolidated, she is powered with a 180 hp. Speedway engine. Another new boat flying the Habana burgee is the 35′ Chris-Craft cruiser *Freflo II*, bought by F. J. Kessler. Kessler has qualified for membership in the Power Squadron through the Miami unit.

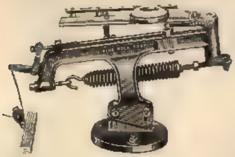
▶ The Miami Chris-Craft Corporation has taken over Port Elco at Miami Beach and will continue the basin under the name of the Venetian Dock. Recent deliveries from here include a 35′ sedan to J. E. McAuliffe, of Palm Beach, a 34′ express cruiser to Frederick Kleinschmidt, of Chicago, and a 29′ express cruiser to B. J. Van Ingen, of New York. Howard Bond has sold the *Chieftain*, which he brought down from New York, to Edward Thomas, of Detroit and Washington. The 106′ motor houseboat is moored at Rivo Alto Island for use in Florida waters this winter. *Santa Cruz*, which W. A. Robinson used in the West Indies the last two winter seasons, is reported to have been bought by Ralph Zimmermann, of Chicago. The 51′ ketch is built along the lines of the famous Virginia pilot boats.

▶ At Nassau, Walter von Hutschler has just bought the Star *Twist* with which Basil McKinney has had varying success during the past year. McKinney, in turn, is tuning up a new Walton Hubbard boat, number 2014 in the class, which he has named *C-Me-Go*. With Count de Marigny's *Concubine* going well, and Albert Kelly's *Gem* winner of the fall series, the rest of the Nassau Stars, including Durwood Knowles' *Margie*, will have plenty of competition this season.

▶ The Jacksonville Junior Chamber of Commerce appears to be taking up where the St. Johns Sailing Squadron left off. Including everything from Comets to 45′ yawls, their races are held monthly over a six-mile course in the river off Ortega Point. Winners of the November races were: Comets, Ruster Robson's *Foam II;* Class B, John Peyton's *Miss Ripp;* Class C, Lyle Vernier's *Four Winds*, and Cruising Class, R. C. Sanders' *Illaka*. Other auxiliaries in the cruising group were Jack Yates' 40′ schooner, Wesley Leake's Bounty, and John Northwood's 36′ yawl. Active in the racing is Commander R. M. Fortson, U.S.N., recently recalled to active duty.

Remington Traps and Targets

"BLUE ROCK" TARGET TRAPS



Suitable for small clubs and private estates. Throws either double or single targets for straight target shooting, and suited for skeet.

Equipped with stainless steel shovel type carrier that assures flat flight and uniformly high rotation of every target. All important parts of malleable iron. Barrel support gives greater strength and cuts down vibration.

Complete with instructions for proper erection.

S-2BET .... **Each ‡$80.00**

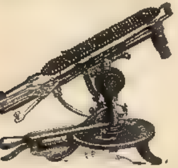
"BLUE ROCK" SINGLEVER SKEET OUTFIT

Recommended for small clubs and private estates where low-priced, dependable equipment is desired.

Two "Blue Rock" target traps. Same "Singlever" control unit and other accessories as are provided with the "wonder deluxe outfit."

S-BBS .... **Each ‡$70.00**

Expert Target Traps



Japanned iron frame, extra heavy springs. Has excellent throwing mechanism. Easily manipulated, and can be pulled with either rope or electric pulls.

Length of arm 16 inches. Spread 11 inches

S-9ETT .... **Each $12.00**

One in a box.

REMINGTON AUTOMATIC HAND TRAP

THE REMINGTON AUTOMATIC HAND TRAP

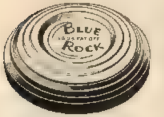
Will throw targets up to 65 yards with very little effort. The spring does the work.

Every type of wing shot, from woodcock to wild fowl can be thrown with this versatile little trap.

S-3RHT .... **Each $2.95**

One in a box.

BLUE ROCK CLAY TARGETS



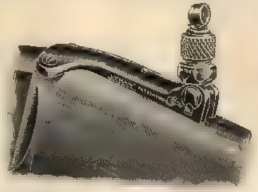
Scientifically designed to give maximum stability in flight, greatest distance, longest spin and truest trajectory. Special formula causes "Blue Rock" targets to "smoke" when hit with a full shot pattern or crumble under the impact of only a few pellets. Band and poker chip, both chrome yellow—most visible color—and the rim colored black

S-135BR .... **Per Double Carton $8.00**

270 in a double carton.

LYMAN TANG AND RECEIVER SIGHTS

Lyman tang and receiver sights are designed especially for hunting and target shooting with each sight developed for definite shooting conditions. The aperture permits the sight to be located conveniently close to the eye, thereby increasing distance between and lessening error in aiming. In this position a peep sight does not require that the rear sight be in focus and all attention can be devoted to front sight and object, with quicker and more accurate results. Lyman aperture rear sights have been popular with shooters for over fifty years.



COMBINATION REAR SIGHTS

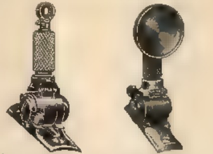
Suitable for both hunting and target practice. Will fit practically all American rifles. Strong spring holds them in proper position. Knurled sleeve elevates or lowers sleeve and holds it in position without the necessity of locking. **When ordering specify model and make of rifle.**

With built-in turn down peep feature.

S-1 .... **Each ‡$4.00**

With cup disc, 1 inch outside diameter with .052 inch aperture.

S-2 .... **Each ‡$4.50**



Built-in turn down peep feature. Lyman lock that holds it in shooting position

S-1A .... **Each ‡$4.50**

Cup disc, 1 inch outside diameter, .052 aperture. Lyman lock holds it in shooting position

S-2A .... **Each ‡$5.00**

MICROMETER RECEIVER SIGHTS

The Lyman S-48WJS micrometer receiver sight has the short slide, limiting cut in stock to the dimensions of the base, but has ample elevation adjustment for usual ranges. Newly designed windage and **elevation adjustment** knobs turn in the same direction as in telescope sight mounts. "Click" adjustments of ¼ minute move center of group ¼ inch at 100 yards. ½ inch at 200 yards, etc. Windage scale is in form of aperture, and detachable disc is regularly supplied. Winchester 70 and 54 receivers are already tapped for this sight.

S-48WJS—With disc .... **Each ‡$11.50**

Special adaptation for Winchester Models 54 and 70 bolt action—270, 30-06, .250-3000 calibers

S-48W—With disc .... **Each ‡$11.50**

For Winchester Model 52 target rifles. Specially designed to be mounted in the factory rear sight slot. Mounted without special tools and without cutting away the stock for base

S-48J—With disc .... **Each ‡$13.50**

RECEIVER SIGHTS

For popular priced bolt action .22 cal. rifles. Requires no cutting of stock. Has quick, easy, graduated features for windage and elevation adjustment. Furnished with detachable disc with sand blasted face, eliminating light reflection.

For Stevens .22-.410 combination rifle and shotgun. Use with S-17S front sight.

S-55C .... **Each ‡$2.00**

For Winchester Models 59, 60, 60-A, 67, 68 and [illegible]

S-55-W .... **Each ‡$2.00**

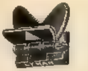
For Remington Models 33, 34, 41 and 341.

S-55-R .... **Each ‡$2.00**

For Savage Model 3 and many other Savage bolt action rifles. Stevens Springfield 52-R, 53-R, 56-R, 66-R, 053-R, 055-R, 056-R, 066-R.

S-55-S .... **Each ‡$2.00**

FOLDING LEAF SIGHTS



For all standard American rifles. Replaces the ordinary factory rear sight. One leaf is a bar with a triangular ivory center, the other a wide open V-crotch. Both leaves fold down close to barrel when not in use. When ordering specify model and make of rifle.

S-6 .... **Each ‡$1.75**

IVORY BEAD FRONT SIGHTS

"Does Not Shoot Away from the Light"

Furnished for all rifles taking rifle type front sight. Can be furnished with gold, silver or red beads, if preferred. Supplied in all regular dimensions.

Bead diameter $\frac{1}{16}$ inch. White bead, contrasting black neck.

S-3L1B .... **Each ‡$1.00**

Semi-Jack. Bead diameter $\frac{5}{64}$ inch. Exactly same as No. 3 with the exception of its ivory bead, which is of a size between S-3L1B and S-20L1B.

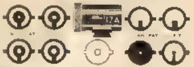
S-28L1B .... **Each ‡$1.00**

Jack. Bead of a size satisfactory for snapshooting, or shooting in poor light or at night. Target shooting can be done with the Lyman Jack if used with Lyman rear sights.

S-20L1B .... **Each ‡$1.00**

Specify make and model of rifle when ordering.

No. S-17A Lyman Globe Front Target Sight



Adapted for rifles. Provides accurate sight combinations with the Lyman Micrometer Receiver Sights for target shooting

Complete as illustrated. Nine inserts include three apertures with holes .130, .110 and .039 inches in diameter, and two measuring .070 inches. One solid with enlargeable hole. Transparent aperture insert. Two posts .050 and .100 inches wide and conventional Lyman Pinhead. Inserts are quickly interchangeable without tools

Specify make and model of rifle when ordering

Globe Target Front Sights

S-17A .... **Each ‡$2.50**

Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added.

‡ Goods marked thus (‡) are not carried in stock and can be furnished only by shipment direct from factory.

Lyman Telescope Sights

Outstanding sights perfected by Lyman's engineers and designers in collaboration with Bausch & Lomb's experts.

Exclusive, non-rotating objective lenses and easily read range scales enable shooter to select the correct range quickly Graduations are marked in clear white on front sleeve

No Unnecessary Focusing

The ocular lens magnifies both target and reticule so that you can achieve extreme accuracy with a minimum of effort. Focus is not disturbed by change of range. Parallax can be entirely removed by a simple adjustment of the lenses—the image made sharp and distinct.

Flexible Mounts

The so-called flexible mounts permit the tube to slide in the mountings with the recoil of the gun, avoiding the constant shock it would undergo if held rigidly in place.

SUPER TARGETSPOT

The ultimate in sighting equipment. Bausch & Lomb lenses. Objective of 34 mm. (1⅜ inches) effective free aperture provides approximately **twice the size of the field of view of ordinary scopes of equal magnification.** Non-rotating objective lens. Ocular lens adjustable to focus cross hairs. Objective and ocular protected by threaded metal caps. Micrometer click adjustments of ¼ minute angle against windage and elevation permit grouping of shots. Rear mount features large adjusting knobs, clear white markings and clicks that are sharp and distinct by feel and sound.

Complete with micrometer ¼-minute click rear mount, front mount, metal lens caps, rubber eye cap, bases (blocks), base screws, tap and drill.

10-power Super-Targetspot. Field of 12 feet at 100 yards.

S-10XST .... **Each ‡$75.00**

12-power Super-Targetspot. Field of 9 feet, 3 inches at 100 yards.

S-12XST .... **Each ‡$75.00**

15-power Super-Targetspot. Field of 8 feet, 9 inches at 100 yards.

S-15XST .... **Each ‡$75.00**

20-power Super-Targetspot. Field of 5 feet, 6 inches at 100 yards.

S-20XST .... **Each ‡$80.00**

TARGETSPOT

Similar to the Super-Targetspot, but with 1¼ inch objective free aperture lens.

Complete with micrometer ¼ minute click rear mount, front mount, metal lens caps, rubber eye cap, bases (blocks), base screws, tap and drill

8-power Scope. Field of 14 feet at 100 yards.

S-8XT .... **Each ‡$60.00**

10-power Scope. Field of 12 feet at 100 yards.

S-10XT .... **Each ‡$60.00**

LYMAN JUNIOR TARGETSPOT

6x, 8x, 10x

High quality medium priced scope suitable for vermin hunting and target shooting. Has Bausch & Lomb optics. Adjustable for individual eye and distance. Single crosswire reticule standard; other styles available in new scopes.

6-power scope gives a field of 16 feet at 100 yards. 8-power scope gives a field of 14 feet at 100 yards. 10-power scope gives a field of 12 feet at 100 yards.

S-6XJT—6-Power Junior Targetspot	**Each ‡$45.00**
S-8XJT—8-Power Junior Targetspot	**Each ‡ 45.00**
S-10XJT—10-Power Junior Targetspot	**Each ‡ 45.00**

LYMAN ALASKAN ALL-WEATHER HUNTING SCOPE

Favorite with big game hunters because it is designed for high powered rifles and uses fixed style mount. Has Bausch & Lomb optics with universal light gathering ability. Gives wide field—40 feet at 100 yards; universal focus, long eye relief and 2½ magnification. Internal adjustments for windage and elevation closely graduated and protected against outside moisture by newly designed caps. Steel tube.

Objective free aperture of 19 mm. Ocular lens is adjustable to the individual eye. Lens polaroid tested.

Length 10½ inches. Weight scope only 8 ounces.

Scope Only .... **Each ‡$50.00**

Complete with Griffin & Howe Mount,
16 ounces .... **Each ‡ 75.00**

Complete with Redfield Jr.
Mount .... **Each ‡ 60.00**

LYMAN FIELD SCOPE

Four-power magnification. Bausch & Lomb lens gives a wide field of approximately 23 feet diameter per 100 yards of range. Knobs of elevation and windage screws are graduated and numbered with white enamel markings. Single cross hair reticule is standard.

Complete with mounts, bases (blocks), base screws, tap and drill.

Field Scope. Adjustable rear mount.

S-438 .... **Each ‡$17.50**

Field Scope. Micrometer ¼-minute click adjustable rear mount.

S-438M .... **Each ‡$25.00**

Weaver Telescope Sights

MODEL S298

An outstanding value for all-around use. Eye relief is sufficient for use on high power rifles Lenses are achromatic—excellent illumination and sharp definition. One-half minute "click" adjustments for windage and elevation.

Always specify make and model of rifle when ordering.

S-298—With B Mounts	**Each $15.20**
S-298—With T Mounts	**Each 11.70**

Weaver Telescope Sights

MODELS 333 AND 344

Similar except in power. Eye relief 2 inches, so recommended only for rifles with light recoil Internal "click" windage and elevation adjustments, cross hair reticule. Precision ground and optically matched lenses.

S-333—3 Power, with B Mounts	**Each $11.25**
S-344—4 Power, with B Mounts	**Each 11.50**
S-333—3 Power, with T Mounts	**Each 7.75**
S-344—4 Power, with T Mounts	**Each 8.00**

One in a box.

Always specify make and model of rifle when ordering.

MODEL S329

A very low priced scope, but gives good results for hunting and general use on rifles from .22 caliber to .30-06. Internal windage and elevation adjustments controlled by screws and lock nuts Standard reticule is cross hairs

Always specify make and model of rifle when ordering.

S-329—With B Mounts	**Each $8.25**
S-329—With T Mounts	**Each 4.75**

Weaver Telescope Mounts

BRIDGE MOUNT

Held in an extremely low and rigid position, the scope becomes really a part of the gun. Supported on two widely separated bases free from all joints or hinges where looseness could develop

Can be removed (to allow use of metal sights) and replaced in exact alignment easily and quickly. Scope and mounts are removed as one complete unit. No bases remain on gun.

S-B—Mount .... **Each ‡$5.50**

BRACKET MOUNT

A side bracket mount which has been thoroughly proved under all conditions. Has been used with high degree of success on the powerful Magnum rifles. Easily attached to gun, and is held by large knurled and tapered screws. It can be quickly detached and replaced in exact position

S-T—Mount .... **Each $1.95**

Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added.

‡ Goods marked thus (‡) are not carried in stock and can be furnished only by shipment direct from factory.

LET'S FACE THE FACTS . . .

The "38" De Luxe Sedan shown above is considered the most popular model we have built in years. It has everything—crew quarters—hot and cold water shower room—berths for 5 or 6 in owner's party—large screened and enclosed deckhouse—a roomy aft cockpit for fishing. This model can be completely equipped with special Matthews fishing gear as shown and leaves nothing to be desired as a cruising-fishing model

DEFENSE
COMES
FIRST

SINCE "ALL-OUT" WAR is here, there is greater need than ever before for ships and more ships—for picket boats and fast, modern combat ships.

Matthews has been busily engaged in this program for several months. We frankly don't know how long the program will continue. Meanwhile we welcome your inquiry and hope you will bear with us during this emergency.

As soon as the job at hand is successfully disposed of, we'll be at your service again ready to build that cruiser you have always wanted.

Mechanical Tractors CLIMB HILLS... PULL LOADS

(A) **Super-Power Climbing Tractor—9-Pc. Set.** Biggest, most powerful tractor of them all. Climbs steep grades, crawls right over obstacles in its path, hauls loads many toy tractors won't even budge. We hitched this heavy duty climber and our smaller tractor (48 T 3882) often sold with sets at this price together back to back, wound them up and set them going. This one not only walked right off with the smaller job that was pulling against it, but pulled a 35-lb. coaster wagon as well!

Heavy duty super-power Marx motor can't be over wound. Special governor insures smooth, even speed; brake to stop motor. Sturdy, all metal construction in bright colors. Bright red wheels have heavy 1-inch rubber treads. Size 9½ in. long. 8 other pieces of road and farm equipment, all metal, all easy to hook on: 2 Trailers, each 7½ in. long, 5½ in. Road Scraper; 3¼ in. Road Roller; 5½ in. Disc Harrow with revolving discs. 9 in. Derrick with Windlass that actually lifts loads; 30-in. Loading Chain and Shovel.

48 T 3917 -9-Pc. Set. Ship. wt. 7 lbs. 4 oz. **$2.39**

(B) **Heavy Duty Tractor with Road Scraper** This tough Bull Dog Tractor will climb 50° slopes without a struggle on its sure-grip rubber treads. Same powerful motor as in set 48 T 3917 at left. Strong, super-power clock spring can't be overwound. Drive it with or without the detachable road scraper shown on front. There's a hook on rear too for attaching other wheeled toys. Stout brake stops it instantly and holds it even on steep inclines. All metal construction, lithographed to look like real tractor. Key is attached. Tractor 9½ in. long. Road Scraper 5½ in. long. Ship. wt. 2 lbs. 8 oz.

48 T 3944—Tractor with Road Scraper **$1.69**

(C) **Tractor with Road Scraper.** Will climb 35° hills, shove aside sand with the Road Scraper. Shaped radiator front. Strong, easy-to-wind clock spring motor. Brake stops it instantly. Has hook on rear for other toys. Detachable 5½ in. Road Scraper. All metal, in bright colors with heavy sure-grip rubber treads. 8½ in. long. Ship. wt. 2 lbs.

48 T 3882—Tractor with Road Scraper........**$1.00**

(D) **Climbing Tractor.** Plenty of power for a tractor that costs so little. Actually climbs 20° grades, and hauls loads many times its weight. Strong Marx wind up motor, key attached. All metal in bright colors. Sure-grip rubber treads. Wt. 1 lb. 8 oz.

48 T 3945- Climbing Tractor 8½ in. long........ **59c**

(E) **Big Greyhound Bus.** Wind the strong spring motor and away it rolls 'cross country or, by adjusting front wheels, in wide circles. All steel, finished blue and gray like real luxury liners. Back door opens. Brightly enameled radiator and "play" headlights. 2-in. rubber wheels. 18 in. long.

48 T 3886—Bus. Ship. wt. 3 lbs. 8 oz. **$1.39**

(F) **Largest Wind-Up Toy in America at This Price.** Measures 16½ in.—much more than a foot long. Long, low and FAST . . . like a real speedster. Strong 30-coil spring motor gives it real ZIP on the getaway. All metal in bright lithographed colors. Big metal disc wheels look like balloon tires.

48 T 3948 -Streamline Racer. Wt. 2 lbs........ .. **57c**

Mechanical Farm Tractor

COMPLETE WITH 9 IMPLEMENTS

$1.23

Play Farmer! Hook the hayrake on behind the Tractor . . . wind 'er up and watch her GO. She looks like the real thing as she crawls along

Designed and sold only by Wards . . . the only farm implement set we know of with a Tractor that actually pulls the implements. Nine pieces of equipment like the big ones used on model farms. Hook any piece to the tractor . . . wheels turn, Hay Rake lifts, Mower blade slides back and forth. Tractor is 5½ in. long with driver in the seat . . . big 2¼-in. rear wheels, 1⅝-in. front wheels. All pieces are metal, lithographed in bright colors.

- 6¼-in **Hayrake** . rake actually raises to "drop load" as wheels turn.
- 6 in. **Dump Trailer** carries sand or pebbles . . hauls loads around farm.
- 4 in. **Corn Planter** "plants" two rows at a time. Dummy marker
- 5¾-in. **Disc Harrow** . . . 10 metal discs turn like big ones on the farm.
- 8¼ in **Mower** . . long "cutting" blade slides back and forth like real mower.
- 6¼ in. **Gang Plow** . . hooks to back of tractor . . . has two plow shares.
- 3½ in. **Road Scraper** . . . fastens to front of tractor. Play at scraping roads.
- 3⅜-in. **Shovel** and 4½-in. **Pitchfork** will come in handy around your farm.

Mechanical Tractors CLIMB HILLS...PULL LOADS

A **Super-Power Climbing Tractor—9-Pc. Set.** Biggest, most powerful tractor of them all. Climbs steep grades, crawls right over obstacles in its path, hauls loads many toy tractors won't even budge. We hitched this heavy duty climber and our smaller tractor (48 T 3882) often sold with sets at this price together back to back, wound them up and set them going. This one not only walked right off with the smaller job that was pulling against it, but pulled a 35-lb. coaster wagon as well!

Heavy duty super-power Marx motor can't be overwound. Special governor insures smooth, even speed, brake to stop motor. Sturdy, all metal construction in bright colors. Bright red wheels have heavy 1-inch rubber treads. Size 9½ in. long. 8 other pieces of road and farm equipment, all metal, all easy to hook on: 2 Trailers, each 7½ in. long, 5½ in. Road Scraper; 3¼ in. Road Roller; 5½ in. Disc Harrow with revolving discs; 9 in. Derrick with Windlass that actually lifts loads; 30-in. Loading Chain and Shovel.

48 T 3917 9-Pc. Set. Ship. wt. 7 lbs. 4 oz. . . . $2.19

B **Heavy Duty Tractor with Road Scraper.** Climbs 50° slopes on its sure-grip rubber treads. Hauls many times its own weight. All metal; lithographed. Super-power motor can't be overwound. Road Scraper detachable. Hook on rear for attaching other toys. Brake. Tractor 9½ in. long. Ship. wt. 2 lbs. 8 oz.

48 T 3944—Tractor with Road Scraper. $1.59

C **Tractor with Road Scraper.** Will climb 35° hills, shove aside sand with road scraper. Strong spring motor. Detachable road scraper. Hook on rear for attaching toys. Brake. Metal with sure-grip rubber treads. 8½ in. long. Shipping weight 2 lbs.

48 T 3882 Tractor with Road Scraper. 98c

D **Largest Wind-Up Toy in America at This Price.** Measures 16½ in.—much more than a foot long. Long, low and FAST . . . like a real speedster Strong 30-coil spring motor gives it real ZIP on the getaway. All metal in bright lithographed colors. Big metal disc wheels look like balloon tires.

48 T 3948—Streamline Racer. Wt. 2 lbs. 49c

E **Big Greyhound Bus.** Wind the strong spring motor and away it speeds—'cross country or, by adjusting front wheels, in wide circles. All metal, finished blue and gray like real luxury liners. Back door opens. Enameled radiator; "play" headlights. 2-in. rubber wheels. 18 in. long

48 T 3886—Bus. Ship. wt. 3 lbs. 8 oz. $1.23

F **Promenading Porky Pig.** Wind him up and little Mr. Porky Pig struts along—teetering from side to side, and twirling his little umbrella. Made of metal, lithographed in bright, cheery colors. Strong spring drives motor. 8¼ in. tall

48 T 389[illegible]—Porky Pig Ship. wt. 12 oz 39c

G **Popeye the Fireman.** The Firetruck bucks, rears and twists but Popeye, atop his ladder, hangs right on through all sorts of reckless driving. All metal in vivid colors. Strong, easy-to-wind-spring drives motor. Lots of fun on a single winding. 10½ in. high. Ship. wt. 12 oz.

48 T 3880—Popeye the Fireman. 59c

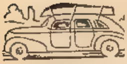
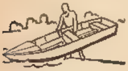
WATER-MASTER LIGHTWEIGHT WOOD BOATS



WATER-MASTER boats because of their exclusive design can easily be carried on top of a car without "rolling"

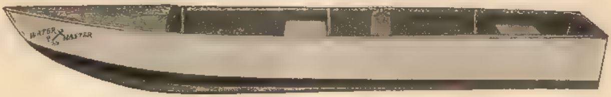


Shows the effortless process of launching. Easily handled by one person. Light in weight

Very roomy. Standard model seats 3 to 5 persons. De Luxe model 3 to 4 persons. Ideal "family" boats.

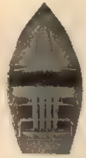
Ideal for fishing, hunting, camping—in fact for any outing or vacation trip.

Stern especially built for medium or light weight outboard motor



DE LUXE MODEL

All-purpose model insuring maximum of safety, comfort, stability, buoyancy and ease of operation in water and portability out of water. Has special design spray-eliminating deck of ¼-inch special laminated water-proof bonded ply wood supported by carlings and framework which adds much to appearance and comfort. Comes complete with seats, floorboars and galvanized North River side plate oarlocks, accommodates three to four persons in addition to equipment that can be placed under deck Feature by feature it will compare to boats selling for 25 per cent more money



Fitted with custom built streamlined 3-section deck, 42 inches long, 33 inches wide, of ¼-inch specially laminated water-proof bonded ply wood supported by carlings and framework

SPECIFICATIONS

Design—Streamlined, tested and proven, attractive in appearance, supreme in performance Exclusive with Water-Master

Construction—Finest materials assembled by experienced craftsmen insure acme of performance plus utmost in service.

Sides and Bottom—Special laminated waterproof bonded ¼-inch ply wood

Rib Frame Work—Solid clear pine, cut, beveled and fitted to shape

Stern—Specially designed for light or medium weight outboard motors heavily reinforced on center and sides. Special designed secondary rib lessens vibration and adds basic strength

Prow—Solid one-piece double rabbeted.

Keelson—1¾-inch finished full length keelson of clear pine laid into construction of rib frame work.

Keel—Full length one-piece solid clear pine.

Gunwale—Full length half-round one-piece solid clear pine.

Seats—Two full width seats as illustrated of clear pine boards. Accommodates three to four persons.

Deck—Streamlined design custom-built in three sections of ¼-inch specially laminated waterproof bonded ply wood supported by carlings and frame work, 44 inches long and 35 inches wide

Floorboards—Four front, four rear, of one-piece clear pine.

Finish—Interior two coats. Marine specification special Elliott bakelite waterproof white sides and stern, green bottom and water line.

Oarlocks—Galvanized North River side plate oarlocks, complete with horns.

Screws—Over 1,000 cadmium plated screws of assorted sizes, as required.

Dimensions: Length 12 feet, width (beam) 41 inches, stern width 35 inches; depth amidship, including bottom, 18 inches; deck 44 inches long and 35 inches wide. Weight approximately 92 pounds

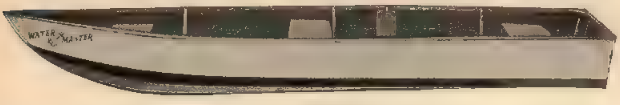
12-Foot De Luxe Model .... **Each ‡$54.50**

If Shipping Carton Is Desired, Add $2.00 Extra

Dimensions: Length 14 feet, width (beam) 50 inches, stern width 42 inches; depth amidship, including bottom, 19 inches; deck 53 inches long and 42 inches wide. Weight approximately 150 pounds.

14 Foot De Luxe Model .... **Each ‡$69.50**

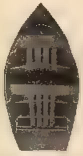
If Shipping Carton Is Desired, Add $2.50 Extra



STANDARD MODEL

This model meets demands for strong, safe, durable and seaworthy all-wood boat. Ideal for campers, hunters, fishermen Attractive in appearance, distinctive in design and exceptionally easy to handle in and out of water Truly a masterpiece of boat-makers' art. Exceptionally light weight means ease of portability in addition to ease of beaching or launching. Will hold as many as five persons, an unusually large passenger capacity thus making it an ideal family boat. In performance, too, this boat is without a peer. Its streamline design not only makes it distinctive in appearance and smooth riding in water, but assures perfect buoyancy even with heavy load and safe banking on turns under outboard motor power. Never before has such outstanding quality of materials, such superior craftsmanship and such exceptional performance been offered at so low a price.

Equipped with seats, floorboards and oarlocks.



Equipped with seats, floorboards and oarlocks.

SPECIFICATIONS

Similar in all details of construction to the De Luxe Model described above except without deck, but comes with three full width seats as shown (forward seat in place of deck). Accommodates three to five persons.

The most sensational portable typewriter ever presented! The Royal Quiet DeLuxe shown above has Magic Margin, touch control, everything. Plus this important "extra!" It's quiet! So quiet you can barely hear it in operation. No "clickety-clack"—just a subdued whisper.

You'll hardly believe your eyes when you see this new portable, or your fingers when you try it. It's so simple to use—so fast—so smooth in operation! When you touch the shift key to type a capital letter, the carriage doesn't "bob" up, instead the type moves downward easily, smoothly. No rattle or clatter to distract you as your fingers fly over the concave shaped Lucite keys. Shock absorber feet soften the typing stroke impact—keep the machine from sliding. Takes paper 9-7/8 in. wide, writes a line 9 in. long. Comes in Black or Brown Velvetone finish with Chromium trim. Handsome carrying case included. Be sure to specify type—Pica or Elite.

RIBBONS for All Makes of Typewriters

Full Standard Length Ribbons Guaranteed by Royal. Cellophane Wrapped to Keep Them Factory Fresh.

Superior quality ribbons for all makes and models of typewriters. Guaranteed for five years against deterioration These evenly inked ribbons produce fine, clear-cut typed characters that look like print. Retail value 75c each. Packed six ribbons to a box With each order for two or more boxes we furnish an attractive counter display without charge

How to Order Ribbons

Please specify the make of machine, such as Royal, Corona, Remington or Underwood, also the model number if you know it Specify color of ribbon desired If you do not specify we furnish all Black. Box of six may be had in same style and color or all assorted in colors or styles, without extra charge.

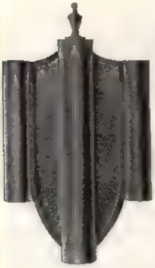
NUTONE CHIMES

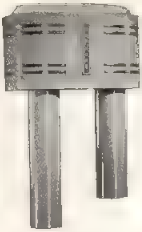
Banish forever the shrill, jarring sound of the old-fashioned door bell. Set the mood for gracious living with the rich, melodious notes of your NuTone door chimes.



"MOUNT VERNON"

Authentic hammered brass Colonial shield forms the mounting for three satin-smooth brass tubes. Sound two melodious notes for the front door, one note for the rear door. Operates on your present bell wiring Size: 11¾ in. high, 7 in. wide.

A63825 Price..................$7.75

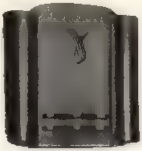


"KITCHENEER"

NuTone famous short tube model for the kitchen or breakfast nook. Ideal two-door model, sounds brilliant chime tones for front door and rear door Offered in White or Ivory baked enamel with chrome bands. 12½ in. high, 8 in. wide

A63827 White $5.15

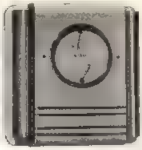
A63833 Ivory 5.15



"COMMANDER"

New ultra-smart NuTone chimes designed for Entrance Hall, Living Room or Dining Room. Two musical notes for front door; one for rear door. Antique Ivory plastic, brass tubes.

A63834 Price............$6.40



"WEATHERMAN"

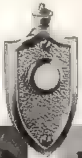
Combination of a melodic, two-door chime with an Airguide thermometer and humidity gauge. Ivory cover with brass-finish tubes. Sounds two notes for front door, one note for rear

A63826 Price............$9.00

NU TONE'S COLONIAL DOOR BUTTON

Handsome, solid cast-brass plate in Colonial shield design. Has sure-contact pearl push-button Designed to fit any standard door frame Size: 1½ in. wide, 3¼ in. high. Tarnish-proof, gleaming finish

A63835 Price...$1.30



"CLASSIC 3"

Handsome, classic styled, three-tube door chimes The center tube is silent, adds to the decorative appearance of this model Sounds two melodious tones for the front door, single tone for the rear door Tubes are tarnish-proof gleaming brass. Unbreakable Ivory plastic cover has attractive cameo-like decoration. Operates on 10-volt transformer on wiring now in the home. Overall length 41 inches.

A63828 Price...........$9.70

"NOTRE DAME"

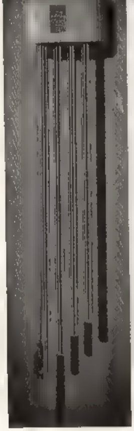
The graceful lines of the unbreakable plastic cover are styled after classic cathedral windows. Three tarnish-proof brass tubes. Sounds two resonant tones for front door, one for rear door Center tube is silent, but adds to decorative appearance of the chimes. Concealed night light operates through transformer furnished with the "Notre Dame" chimes. Gold-color tassel pull cord also included. 41 in long

A63829 Ivory.......$12.95

"TRINITY 3"

Full three tubs, automatic cathedral chime Sounds three exquisite notes, one on each tube for front door one note for rear door Night light, concealed in the cover, adds to the rich dignity of the Trinity model. Gold-color tassel pull-cord for light included. Cover is Ivory catalin plastic with a strikingly handsome design. Transformer included. 45 in long.

A63830 Price.......$23.35



"TRINITY 4"

Cathedral chimes for the home—at their best! Automatic and electric, the four tubes sound four wonderfully melodic notes for the front door, single tone for the back door. Concealed in the cover, a night light softly illuminates the gleaming brass tubes. Ivory catalin plastic cover has beautiful, etched design Comes with transformer. Length 51 inches

A63831 Price.... $25.95

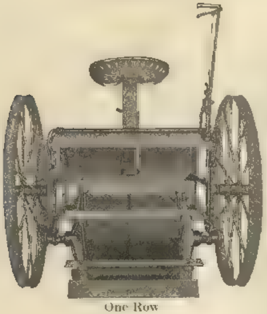
"MONTICELLO"

Genuine hand-rubbed solid Walnut cabinet houses a Telechron self-starting electric clock. Has gold-color dial and hands Brass bezel harmonizes with brass chime tubes. Clock tells time (does not chime the hours) Chimes sound four mellow tones for front door, one for the rear door. Clock operates on transformer included with the chimes 55⅛ in long, 10¼ in. wide.

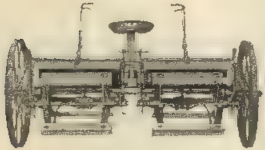
A63832 Price......$52.00

STALK CUTTERS

OLIVER



One Row



Two Row

Heavy coil springs give the sharp knives a quick chopping motion to insure effective cutting These springs also absorb the shock caused by the rebound of the blades as they chop the stalks Shock for the driver is absorbed both through these springs and the long comfortable seat spring. The hitch is spring cushioned on the frame, relieving the team of all jars and vibration

The stalk rake bars drag all loose stalks onto the row for chopping. Should the rake become clogged, it can easily be raised to clear by a foot pedal

The heavy, high grade double edged steel knives are reversible to double their length of service. They are rigidly fixed to the knife heads to prevent wobbling. Knife head journal boxes are practically dust proof. They are attached to the frame to allow the knives to work over uneven surfaces without binding the bearings.

Levers reached conveniently from the seat, have right angle grips for easy operation. Ample range of depth adjustment is provided to meet all cutting conditions. The operator is protected from the knives and flying stalks by a steel shield.

Well braced steel frame; renewable bearings, lubricated with grease from accessible cups. Heavy steel wheels.

No. 1—One-Row

Complete with pole, neckyoke and two-horse steel evener.

Nos.	(A) 1-7	(A) 1-9

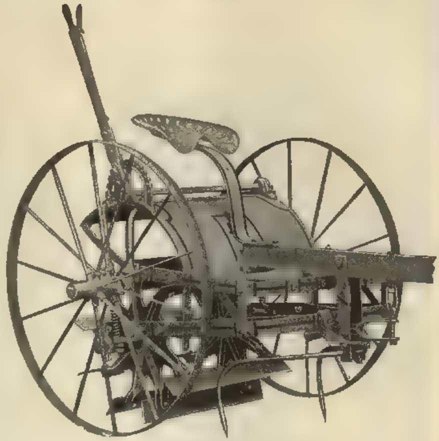
STALK CUTTERS

VULCAN



Double Head Pattern

Designed to meet the demands for various sections. Its use is not restricted to the cutting of corn and cotton stalks, but can also be used very effectively on larger kinds of obnoxious weeds. Constructed to withstand hard usage.

Has a positive, powerful chop stroke which cuts the stalks in pieces from 8 to 10 in. long, according to the number of knives The chop stroke is emphasized by the tension springs upon which the whole weight of the cutter and operator could be thrown, if it were necessary. Only sufficient pressure is required to get the quick stroke.

Weight is so carefully distributed there is almost no weight on the horses' necks. Cylinder heads are solid, very heavy and are built to stand hard service. Cylinder may be raised for a large clearance or forced down as much as desired. Cylinder axles run in dust-proof boxes. The chilled bearings are lubricated by improved compression grease cups, which means long service and light draft.

The frame is all steel, the axles high carbon steel and the wheels 40 in. high with staggered spokes, broad tires and fitted with removable dust-proof boxes.

Knives are made from special blade steel and will hold a good, sharp cutting edge. They are double edge and may be reversed when worn, being attached by heavy bolts and lock nuts so they can never work loose

	Each
No. 7—With 7 knives; double head; cuts 10 in. lengths; weight each 490 lbs.	$..

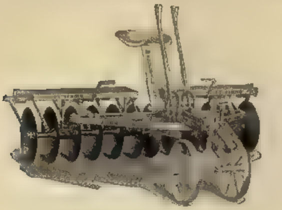
DISC HARROWS

RODERICK-LEAN, HORSE-DRAWN, "FT" SERIES



Double Lever, with Foretruck

The most up-to-date tool on the market This splendid new harrow is the result of years of experience in designing by one of the largest manufacturers of disc harrows. In this harrow has been incorporated every feature that can possibly make for efficiency, economy and ease of operation

Frame is extra heavy, high carbon angle steel, rigidly braced through the center by the steel stub pole. Scraper frame is strongly braced to the main frame and supported by steel standards at each bearing. Oscillating scrapers of flexible spring steel operate by convenient foot lever and keep the discs clean from the center to the outer edge. The center foot lever construction permits instant adjustment for working dead furrows, ridges or uneven ground. No pressure springs to weaken or break Pressure released by foot lever lock. Easier to adjust than hand lever. Equipped with Galesburg electric heat treated discs. Long steel levers work in forged steel ratchets, insuring good strength and easy shifting of gangs.

Extra large new split-type bearings: upper section of bearing box houses a heavy, oil soaked hardwood bushing, set at the proper angle to care for all working strain and also to carry the operator's weight; the lower section contains a thick felt pad, thoroughly saturated in oil, which constantly wipes the bearing spindle. Dirt-proof housing is held in place by a single bolt.

Double wheel foretruck axle is heavy, round steel, arched to provide ample clearance; heavy steel wheels with dustproof hubs, 16 in. diam., 2 in. oval tires; reinforced spokes. Wheels held in place by linch pin and cast thrust washer which is adjustable to compensate for wear

Built-in weight boxes with angle steel sides and sheet steel bottom.

Standard equipment includes 2-horse hitch on 8 and 10 disc sizes; 3-horse hitch on 12 disc size.

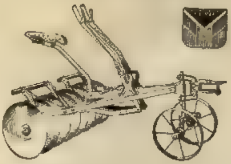
DISC HARROWS

OLIVER, HORSE-DRAWN, "HDH" SERIES



Double Lever, with Foretruck

These harrows are unique among the horse drawn machines because they penetrate practically all soils without additional weights. The drawbars meet the bearing standards above the bearings, which affords unusual clearance and relieves the bearing cap from pulling strain

Disc bearings are fitted with oil soaked, hard maple bearings in one-piece malleable standards. These bearings are superior because end thrust is absorbed by the entire circular end surface which is 13/16 in thick. Heavy gauge electrically heat treated steel disc blades. Heavy flat bar steel frame is exceptionally well braced.

Gangs are easily angled with two long levers set close in front of the driver's seat. Four bolts hold the fore-carriage in place and are easily removed to drop the wheels.

Standard equipment includes rigid scrapers and eveners.

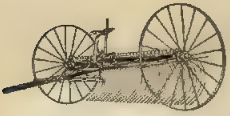
SELF-DUMP HAY RAKES

OLIVER SULKY



Built with a strong, rigid frame of hot riveted angle steel. A heavy truss rod runs the entire length of the frame and supports the center of the rake. It is a bridge trussed frame that is built to prevent sagging or twisting.

The rake teeth are lifted, and the hay dumped, by a pair of strong lift rods operating from each wheel. The ends of the lift rods are shaped into pawls to fit into the ratchets in the wheel hubs. The large number of ratchet teeth in the wheel hubs cause the rake to lift, the instant pressure is applied to the foot dump pedal. The rake teeth drop to the ground immediately, without leaving an unraked strip next to the windrow.

The upper pedal serves as a foot rest for the operator, as a lock to hold the rake down after dumping, and for bunching windrows. The Oliver Sulky Dump Rake provides three different "down" positions of the teeth to meet all raking conditions, and four different heights for the "up" position of the teeth. It will handle heavy or light hay under any and all conditions.

Tooth holders are made of steel, formed into shape, instead of castings. Therefore, they are practically unbreakable. The teeth, 11/32 or 7/16 in diameter, as ordered, are made of heat treated high carbon spring steel. They are strong, but have sufficient springiness to prevent breakage when they encounter an obstruction Rakes are furnished as ordered either single or double coil with pencil or flat runner type points, as preferred. Stripper rods are also of steel formed to shape.

The wheels are unusually strong. The concave tires are 1¾ in. wide and 54 in. diameter.

Equipped with shafts, or thills, and singletree. The shafts can be made into a pole for two horses.

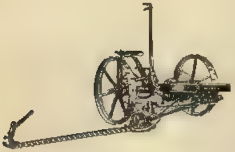
MOWERS

OLIVER



Underserrated Sections; Standard 3 in. Guard Spacing

Full Length Axle—The one-piece axle runs in long bearings accurately aligned and widely spaced, to give the lightest bearing load and secure the easiest draft.

Strong Wheels—Big, light and strong. The lugs hold to the ground and transmit full power to the axle. The tongue is placed slightly off center for light draft and freedom from side draft.

Gears Run in Oil—Gears are enclosed in a dustproof leakproof housing and run in a constant bath of oil. They mesh perfectly and operate with a noiseless, rolling action.

Perfectly Balanced—The transmission gears are all back of the axle, where they belong, giving the proper weight distribution for easiest pulling and taking the weight off the horses' necks.

Counter Shaft Assembly—The two gear, two pinion transmission functioning as a unit, is the simplest type possible and hence uses the least power. It is easily demountable should any adjustment or repair ever be necessary. Bearings are replaceable.

Gears and Clutch—All teeth of the gears and pinions are correctly designed to mesh with a smooth rolling action. The clutch is of the four jaw dog type, wide on its faces to lessen wear, with positive and sure action. It is controlled by a two-pad double-acting foot lever which throws it quickly, either in or out.

Long Pitman Drive—Runs almost parallel with the ground, in extra long bronze 4⅝ in. bearings, pressed into bearing seats in the frame These bearings are interchangeable and provided with special oil grooves The pitman is driven by the counter-balanced pitman flywheel on the front of the pitman shaft. Crank wheel pin is hardened and ground with big bearing area for long wear. All rotating bearings are pressure grease lubricated

Pitman—Selected straight grain hickory Forged crank pin bearing and straps pivot to keep the pitman in line with the knives without binding the crank pin All these parts are steel forgings, heat treated and hardened so that all will resist wear equally

Yoke and Shoe—The parts that drive the sickle and hold the cutter bar are centered in the yoke and shoe. The yoke pivots on a forged steel coupling bar. It is located by a wide faced steel thrust collar securely pinned to the bar The collar has a series of stepped holes so that the shoe can be adjusted to secure knife register and cutter bar alignment. The coupling bar brace guards the pitman and is lock-nutted against the crank wheel shield, which is fitted to the end of the big four-square frame by a chilled ball and socket joint This joint directly takes up the twisting of the locked coupling bar brace instead of through the usual threaded joint which loosens easily The shoe itself, large and strong for wear, combines with the yoke to provide a firm base for holding the cutter bar in alignment An adjustment is provided in the yoke by means of a step collar together with an adjustable tie bar, to advance the outer end of the cutter bar should it develop any tendency to lag Adjustment is simple, easy and effective, but seldom necessary.

Lever-Control—The main lever is pivoted to take up back and forward movement from the shoe in the "down" position without affecting the cutter bar. The foot lever is also pivoted and used to handle the cutter bar in operating, without moving the main lever As the foot lever has a range equal to the main lever as far as the main ratchet pawl, the latter need never be used while cutting under normal conditions The tilting lever is solidly fixed, with positive latch engagement in its segment, with a special clevis adjustment provided for fine adjustment or additional range The whole lever system is interconnected by a balance spring, keeping cutter bar pressure on the ground equal from end to end. This operates whether the frame is running level or not.

PENNSYLVANIA

Quality

"Standard of the World Since 1877"

Pennsylvania has devoted the past 54 years to the manufacture of lawn mowers **exclusively.** This specialization has resulted in the development of a complete line of **proved** performers. Experienced gardeners the world over regard Pennsylvania as "The Lawn Mower Standard of the World" and know that in this line they can find the right mower, for the right job, at the right price

Because the parts are made in Pennsylvania's own shops from Pennsylvania's own design—because they are made of quality materials and assembled by experienced workers—Pennsylvania Quality Lawn Mowers—run easier—cut better—and last longer

Look for the name Pennsylvania on the handle—it means the most for your money

GREAT AMERICAN— The easy-running, smooth-cutting ruggedness of this mower has made it the largest selling quality mower of all times SPECIFICATIONS: 10-inch wheels Rubber tires optional **Five extra-wide, high carbon, hardened steel blades,** double-riveted to four unbreakable brackets. Steel axles screwed and bolted to side plates Ball bearings adjustable by eccentric screw to take up wear Ratchet pinion with **hardened steel pawl** in each wheel Chrome steel lower blade has raised edge. **Sizes 15, 17, 19, 21 inches.**

PENNSYLVANIA METEOR— Modern streamlined aluminum mower—the last word in design and appearance quiet and easy to push—"Tops" in its field. SPECIFICATIONS 10 inch wheels and side plates made of a special aluminum alloy which is tough Weighs ⅓ less than conventional mowers yet is so perfectly balanced it holds the ground through thickest grass. Rubber tires and precision adjustment of cutting reel makes this mower exceptionally quiet **Five crucible analysis steel blades** riveted to four unbreakable brackets Stub tooth ratchet pinion with hardened steel pawl in each wheel. Oil cups for all moving parts. **Size 16 inch** (weighs only 35 lbs.) **19 inch** (weighs only 39 lbs.)

ANNIVERSARY— High Quality at a Popular Price SPECIFICATIONS Open style, 10-inch wheels Internal gear with ratchet pinion and hardened steel pawl in each wheel Spring adjustment of ball bearings which are protected against dirt Steel wheel axles screwed and bolted to side plates. **Five crucible analysis steel blades. Perfex Fifty-Five

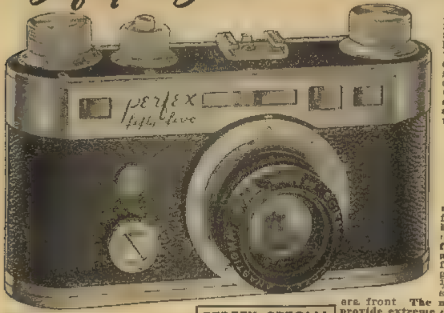
35 mm. CANDID CAMERA

100% American Made with Coupled Range Finder

Focal Plane Shutter with Speeds of 1/1250th of Second to 1 Second



The original Perfex "44" made American history! Camera fans found that in results it excelled many of the finest foreign makes. Now in the new improved Perfex "55" there is offered the finest of quality in materials and workmanship. **The Perfex accordingly is a** camera that positively admits no competition **Takes the most difficult shots with amazing simplicity that appeals to the expert as strongly as to the beginner.**

The Perfex Camera Takes All Guesswork Out of Photography

Easy to take "best" quality pictures with the Perfex. The split-image coupled range finder at first shows the subject divided horizontally. Rotating the lens flange until the divided image is joined in one, brings camera into accurate focus automatically.

With WOLLENSAK
F:3.5 or F:2.8 LENS
ANASTIGMAT TYPE
Fully Color Corrected

The split-image type coupled range finder insures perfect focus for correct distance automatically. **Focal plane shutter** covers a full range of exposure **speeds from one full second to 1/1250th of a second, and bulb.** Takes perfect pictures of fastest action. Through a precision gear arrangement, slow speeds of 1, ½, ⅕, and 1/10th second are easily selected by the lower button on camera front **The new special highly corrected lenses provide extreme depth of focus insuring sharpness of detail, even when diaphragm is wide open**—valuable for indoor candid shots. Both the F 3.5 and F.2.8 lenses "stop" down to F 22 a real selling feature Equipped with **automatic film transport** and exposure counter. Eliminates possibility of double exposures. Lens barrel has extended flange which acts as sunshade. Lenses are interchangeable. **Built-in exposure** meter assures negatives of uniform density. **The built-in flash synchronizer mechanism is positive in action,** brings new thrills to photo flash fans. The Perfex is precision constructed and **machined to 5/10,000th of an inch, assuring a lifetime of smooth trouble-free operation.**

FEATURES

Usually found only in The Highest Priced Cameras

- *Coupled Range Finder.*
- *Uses 35 mm. film, 18, 20 or 36 exposures.*
- *BUILT-IN EXPOSURE METER.*
- *Focal Plane Shutter.*
- *Shutter Speed Adjustment: exposure speeds from 1 Sec. to 1/1250 second and bulb. graduated in split Seconds.*
- *Anastigmat lenses of F3.5 or F2.8 aperture. Lenses are interchangeable for telephoto, etc.*
- *Automatic film transport and exposure counters.*
- *No Double Exposures.*
- *Built-in photoflash Synchronizer.*
- *Telescopic through the camera optical view finder.*

The New Perfex FLASH GUN
For Model 55 Perfex CAMERAS
SYNCHRONIZES PERFECTLY with CAMERA SHUTTER

Enables any candid camera fan to obtain more interesting and more perfect pictures. Now night or dim light is no hindrance to taking "shots"—with this flash gun, fascinating pictures can be taken in pitch darkness, better results can also be secured in daytime when light is poor. Provides greater depth to the picture, keener and more definite detail. **The flash is correctly synchronized with the fastest shutter speed of the Perfex; fastest motion is caught in the picture** and all types of photography handled amazingly well. Indoor portraiture, child photography, even newspaper work is done better with this unit. Consists of battery case, socket and highly polished 5 in. reflector and mounts on the accessory clip atop the camera where it contacts the **built-in synchronizer.** Complete with operating instructions. High Powered Autoloading Repeating Rifles

REMINGTON WOODSMASTER—MODEL 81
HAMMERLESS—CLIP—TAKEDOWN—6-SHOT
SOLID BREECH—STANDARD GRADE

The "Woodsmaster" is truly a master of the woods for big game hunting—lightning fast, powerful, accurate, dependable. The only high power autoloading rifle that locks the cartridge in the chamber until after the bullet has left the muzzle. No loss of power Delivers full energy of the cartridge.

Loading, cocking and ejecting all done by recoil shoots as fast as you can pull and release the trigger. Locked breech with double locking lugs also provides utmost safety and accuracy with modern high power cartridges

Remington steel 22-inch round barrel. Positive thumb-operated safety Semi-beavertail fore-end and shotgun style steel butt plate, deeply checkered, assures a firm steady grip. New style sporting stock with half-pistol grip. Stock and fore-end American walnut.

White metal bead front sight. Step adjustable sporting rear sight.

Box magazine holds five cartridges in addition to one in chamber—a total of six shots.

High Powered Bolt Action Repeating Rifles

WINCHESTER—MODEL 70
SIX SHOT—SOLID FRAME

The most highly developed rifle of its type—convenient and easy to operate, fast, accurate and dependable Strongly built throughout.

Mauser type bolt with new design handle that will clear practically any telescope sight, even on lowest mounting. New bolt stop is independent of the sear—saves wear New speed lock—exceptionally fast in operation. Bolts easily dismantled for cleaning

Entirely new firing mechanism—one-piece trigger designed, together with sear, to give exceptionally short, crisp let-off New, three-position safety lock—quick and easy to use, even with a low-mounted telescope sight.

Winchester proof-steel, round tapered barrel with matted ramp front sight base. Receiver matted on top. Hardened and tempered receiver and bolt

American walnut pistol grip N.R.A. type stock and full, well-shaped fore-end—for a firm, comfortable grip. Grip and fore-end checkered. Swivel bows for gun sling attached Checkered steel butt plate. Length stock 13½ inches. Drop at heel 2⅝ inches, at comb 1⅝ inches.

Lyman gold bead front sight with $\frac{1}{16}$-inch bead, mounted on ramp base with sight cover. Receiver drilled and tapped for Lyman 48WJS receiver sight. Forward bridge of receiver drilled for telescope rear mount base. For type of rear sight see listings below

Box magazine with hinged floor plate—readily accessible. Holds five cartridges in addition to one in chamber—a total of six shots.

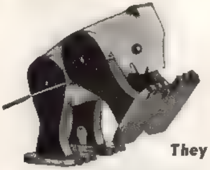
COLORFUL WOOD TOYS—THE NEWEST FOR 1942



"LIVE"
ACROBATIC
TOYS

They Do Handsprings

Fun to Watch

SU-PANDA

An acrobatic fun-maker. Su's antics and appearance are much like those of the popular, live pandas. Turns handsprings, does back-flips, bows . . . at your command. Operated by remote control with a wire leash—not a wind-up toy Perfect balance makes possible Su-Panda's astonishing feats. Precision built . . . yet not harmed by rough usage. Made of wood . . . attractively painted Black and White. Ten inches high.

A31323 Price $1.40

Fun to Work

ANNIE ELEPHANT

A captivating new action toy . . . to be led with a string. Annie lumbers along with the rocking gait of a real elephant . . . an absolutely new motion in a toy. Also sits on her hind legs and tail and bows. Looks and performs like a cunning baby elephant. A precision-built toy, perfectly balanced, but sturdily made to withstand rough and tumble treatment. Made of wood . . . finished in Grey, Blue and other colors with a Red blanket. Six inches high . . . ten inches long.

A31324 Price........................$1.40

WOOD FUN FLEET

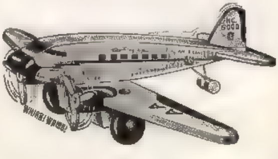
Gay, colorful bath-tub toys for the kiddies. Fleet includes three sail-boats 4½ in. long with plastic sails 4½ in. high. The hulls of the boats are painted, one each, in Red, White and Blue. Also one Red and one Blue tug boat, 4 in. long; one cruiser 5¼ in. long, one cabin cruiser 5¼ in. long; one lighthouse 4 in. high, one buoy 3¼ in. high, with American Flag. 9 pieces, packed in brightly-designed lithographed box, size 12½x16x2 in.

A31326 Price complete $1.40

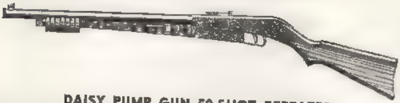
WOOD AIRPLANE PULL-TOY

It's the "Flagship" of the American Airlines. Giant twin-motor plane painted in Orange and Blue with Black wheels and propellers. Whirr! Whirr! goes this plane as it is taxied around on the ground pulled by the cord. The propellers spin as plane is pulled. Measures 14 inches from the nose to the tail and has a wing spread of 20 inches. Sturdily constructed to stand hard play.

A31325 Price........................$1.65



DAISY AIR RIFLES

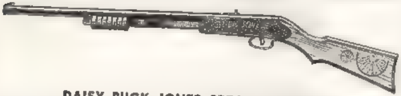


DAISY PUMP GUN 50-SHOT REPEATER

The above gun is the king of all air rifles, a 50-shot force feed repeater It cocks easily by pulling the slide toward the stock Has adjustable rear sight and non-slip grooves on the butt of the pistol grip The stock is solid American Walnut All metal parts are in gun blue finish with beautiful gold colored jacket, handsomely engraved This is a take-down model 37 inches long weighing 3¼ lbs. A hard hitting, straight shooting, repeating air rifle with all the Daisy features that mean so much in safety accuracy, durability, and general all-around shooting performance.

A30421 Price **$6.90**

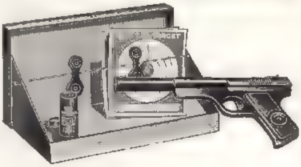
His first gun—there's no greater thrill for an active, outdoor boy! Make his first gun a safe, "straight-shooting" Daisy Air Rifle. Preferred by boys everywhere!



DAISY BUCK JONES SPECIAL 60-SHOT

The Daisy Buck Jones Special is a handsome and efficient 60-shot pump-action repeater sponsored by Buck Jones himself It bears his name beautifully engraved right in the jacket Genuine sundial and compass are built right into the natural hardwood stocks. Wherever you travel, in field or forest, you'll always know your directions, and have the correct time by the sun! An air rifle that boys everywhere prefer It has a safety bar that prevents accidental discharge. 36 in. long, weighs 2½ lbs. A grand gift for year 'round fun.

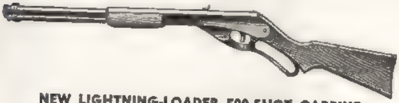
A30422 Price **$5.50**



DAISY "TARGETEER" SET

Step up and try your skill! You can shoot indoors or out. Outfit consists of Daisy targeteer air pistol, metal tube of 500 shot, set of "spinner" targets and Handipad of 25 Daisy cards In a box which is a shooting range in itself. For still more fun order the bell target, that rings the bell when you score a bull's-eye, and with a heavy, armor-plate backstop that deadens all shot. Bell target is 4½ in. square, comes with 12 extra target cards.

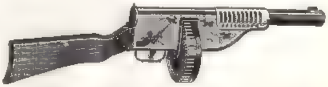
A30424	Targeteer Pistol	**$2.80**
A30425	Bell Target and 12 Cards	**.35**
A30426	Tube of 500 Shot	**.15**



NEW LIGHTNING-LOADER 500-SHOT CARBINE
With Adjustable Double-Notch Rear Sight

The great new Daisy 500-Shot Lightning-Loading Carbine with features not found on any other rifle It looks, feels and shoots like the powerful carbines used by Buffalo Bill and other famous Frontier Scouts Completely equipped with the first and only lightning-loader shot magazine in air rifle history—and—a new adjustable double-notch rear sight! Made of blued gun-steel, with walnut finish fore piece and pistol-grip stock Heavy metal strap holds the magazine tube under the main barrel in real carbine style. Every boy wants one . . . every boy deserves one!

A30423 Price.. .... **$3.90**



TOY SUB-MACHINE GUN WITH SOUND EFFECT

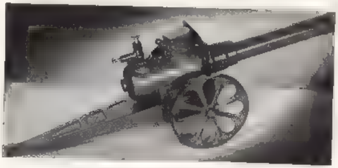
Just like the models used by parachute troopers! This toy machine gun sounds just like the real thing. Cartridge drum revolves when you pull the trigger—makes a sharp "rat-tat-tat" noise Solid wood shoulder stock, barrel and drum are rolled metal, brightly colored in Red, Yellow, Blue and Black. Over 25 inches long!

A30427 Price........ **$1.65**

COAST ARTILLERY CANNON

A big "Bertha" cannon modelled after the giant coast defense guns. Gun is mounted on a metal platform, has spring mechanism that shoots wooden projectiles! Gun barrel and breech block are solid wood. Has range finder, elevating mechanism, swings from left to right Button release "shoots" the cannon. A harmless, fascinating toy—children love to aim the cannon by using the gunner's peep sight. Cannon is 15 in. long overall length 18 in. Elevates to 10 in. high! Complete with set of wood projectiles.

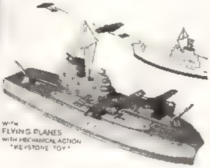
A30428 Price **$1.40**



"BING-BANG" CANNON
Uses Harmless Ammunition

Every boy wants one—it's a big noise maker. Every parent approves it—it's 100% safe. A reproduction of a full-size army field gun 17 in. long. No matches, no gun powder, but a big Bang! You can fire the cannon hundreds of times for a few pennies. The ammunition is non-poisonous, non-inflammable. It combines with water, making a harmless gas that causes the Bang. Comes complete with one tube of ammunition. Makes a grand companion piece for the "Big-Bang" Tank shown at the left. Tank is of heavy cast metal finished in Army Olive drab color Big-Bang cannon mounted in the turret uses same ammunition as cannon shown above. Tank has smaller turret in rear, rides on four solid rubber wheels. Size 9½ in. long, 4 in. wide, 4¾ in. high.

A30429	Field Cannon (above)	**$3.50**
A30430	Tank (at left)	**2.80**
A30431	Ammunition for Both	**.20**



AIRCRAFT CARRIER

A scale model aircraft carrier of solid wood with realistically painted deck, superstructure and masts. Has cannons fore and aft, make-believe searchlight. **ACTUALLY CATAPULTS PLANES INTO THE AIR!** Spring-action catapult launches the two planes, shown on deck, into the air. Ship is 16 in. long, has 4 in. beam, 7¼ in. high. Each of the two planes is 3 in. long.

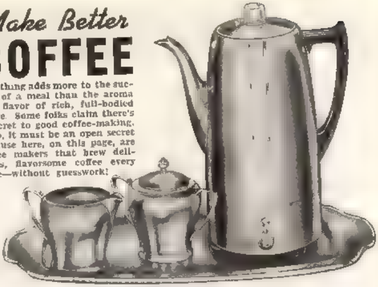
Make Better COFFEE

Nothing adds more to the success of a meal than the aroma and flavor of rich, full-bodied coffee. Some folks claim there's a secret to good coffee-making. If so, it must be an open secret because here, on this page, are coffee makers that brew delicious, flavorsome coffee every time—without guesswork!



COFFEEMATIC SERVICE

The new Coffeematic percolator makes perfect, delicious coffee exactly the way you want it—not just once but every time. Just set the multi-control dial to **Mild** or **Strong**, or any point in between. Percolation stops at the exact time that the coffee is brewed to your taste. At the same time, current is reduced to low heat—keeps the coffee at correct serving temperature. Chromium-plated percolator has full 7-cup capacity, distinctive decorative panel, Black bakelite handle, six foot cord. Service set includes the percolator, 16-inch serving tray, and creamer and sugar; all in glistening chrome plate.

A63428	Automatic Percolator Only	**$16.30**
A63429	Complete Service	**26.50**

ELECTRIC PERCO-VAC

You can see the coffee being brewed in this heat-proof glass percolator. When the coffee is just the right shade—shut off the current. The 8-cup capacity percolator is attractively platinum banded, has aluminum percolator basket assembly, chromium cover; and electric table stove, complete with cord. Makes flavorsome coffee. When ready to serve, remove the percolator basket and serve direct from the pitcher, which can also be used separately to serve all kinds of hot or cold drinks.

A63430 PRICE.. **$6.50**

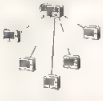
Send Your Voice . . . Just Where You Want It

MASTER SELECTIVE INTER-COMMUNICATING SYSTEM

This amazing economical new intercommunicating system brings unrivalled efficiency to offices, factories, stores, homes and farms—large or small. You can instantly talk with any one person or group of persons you wish—as far as 3,000 feet away in whispers or with loud speaker volume Locate the master station wherever you wish, by a flip of the knob you can instantly carry on a two-way conversation with any single substation or all simultaneously Each substation can call the master station. Remarkable amplification power yet extremely economical in use—operates anywhere on 110-115 volts AC-DC. Units are beautifully designed to harmonize with the most luxurious settings. Master station in handsome Walnut cabinet 9¾x5¾x8 in. high. Substations in modernly-styled metal cabinets 5¾x3¾x7 in. high.

AS MANY UNITS AS YOU WISH



Illustrated above is only one of the many hookups that can be made with this intercommunicating system.

With the installation of a master station, you can set up a communication system as large or as small as you desire—a single substation or as many more as your requirements demand. The master selective intercommunicating system has more than enough power for all normal requirements; amazing natural tone quality flexibility of operation; and quality construction that will stand up under all conditions and give continuous dependable service. Master station A77102 will operate up to 5 substations; A77103 up to 10. For systems requiring more than 10 substations, we will be glad to send complete information, illustrations, detailed drawings, specifications and prices.

EASY TO INSTALL

It is not necessary to be an electrician to install the master selective intercommunicating system—just plug into light socket The units come to you as a complete package Thorough, simple instructions are included enabling any adult to make the installation Amount of cable needed depends on distances between stations Original system can be set up very easily and quickly, additions made later as desired. Write for complete information on intercommunicating systems of any size or type to meet your special needs.

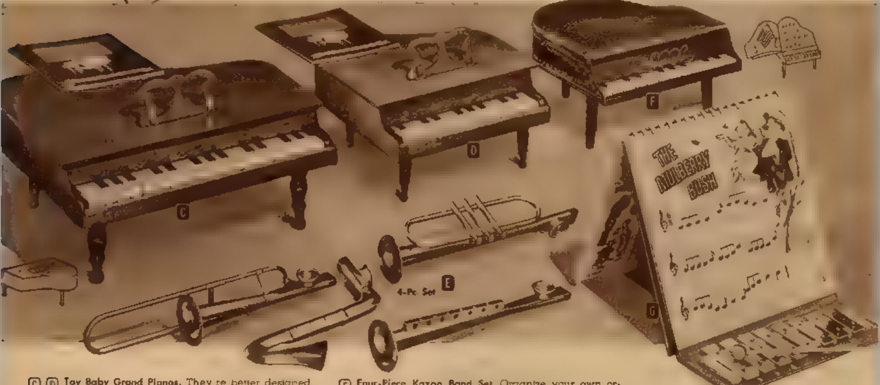
Tony Sarg's Books ... A SURPRISE ON EVERY PAGE

(A) **Tony Sarg's Treasure Book.** Three famous classics come to life . . . Treasure Island, Alice in Wonderland, and Rip Van Winkle . . . all in a single volume. Ship tosses, waves roll as you turn a wheel on the cover. Turn the pages . . . find the buried treasure . . . watch Alice's neck grow and grow. Adventure . . . page after page . . . pictures, story and action by the famous Tony Sarg. This amazing book with its 3 stories and pictures that move, measures 9½ by 11½ in., 2¾ in. thick. Illustrated in full color on heavy paper. Ship. wt. 2 lbs. 8 oz.
48 T 990—Tony Sarg's Treasure Book . $1.89

(B) **Tony Sarg's Surprise Book.** A surprise on every page as you read Tony Sarg's animated book of Nursery Stories. LOOK . . . Jack climbs the beanstalk and meets the Giant. LISTEN . . . and you'll hear the fiddle of Old King Cole. TASTE the lollypop. SMELL the flowers. PET the Black Sheep and FEEL her wool. Turn the pages and you'll find a real penny in Simple Simon's pocket. It's more than a book, it's more than a game . . . it's a child's dream come true. Illustrated in full color on heavy paper. Stiff cover binding with plastic rings. 11⅛ by 8¾ in. Ship. wt. 2 lbs.
48 T 989—Tony Sarg's Surprise Book 89c



(C) (D) **Toy Baby Grand Pianos.** They're better designed than most toy pianos, having backs that are curved and shaped just like real Baby Grands, not straight and flat like most toy pianos. The keys are numbered, making it simple to learn tunes. Each piano has a booklet of music with notes numbered to correspond to the numbers on the piano keys. Listen to the mellow tone as you touch the keys. Specially tempered wires make the tone exceptionally fine for a small piano. Turned legs like those on a real piano. Body made of Plywood with an attractive Walnut-stained finish.

(C) **18 Key Baby Grand Piano.** Wider range for more difficult pieces. 14 inches wide by 13 inches deep by 6 inches high. Shipping wt. 6 lbs. 4 oz.
48 T 3627 .... $2.98

(D) **12-Key Baby Grand Piano.** Smaller key range on which any simple melody may be played. Size 10 inches wide by 10¼ inches deep by 5⅜ inches high. Shipping weight 3 lbs. 12 oz.
48 T 3626........... $1.79

(E) **Four-Piece Kazoo Band Set.** Organize your own orchestra with this Four Piece Swing Band Set. It's fun to play with any one of these four instruments . . . Cornet, Saxophone, Trombone, or Clarinet. Easy too—all you do is hum through them. Each instrument has a Kazoo mounted in the mouthpiece. Humming causes the diaphragm to vibrate. Trombone slides like a real instrument. Cornet has keys to push, but trombone slide and cornet keys are for fun—they don't affect the tune. Gold-colored Metal. 9 to 11¾ inches long. Ship. wt. 2 lbs. 6 oz.
48 T 3645—Four-Piece Swing Band 59c

(F) **12-Key Metal Toy Piano.** Play clear, true toned music with this 12-Key Toy Piano—12 popular nursery songs ingeniously attached to form the cover of the piano. Easy to read and play. Note arrangements are all numbered to correspond with the numbers on the keys of the piano. Curved baby grand back—turned wood legs. Body made of attractively lithographed Metal. 9¼ in. wide, 9¼ in. deep, and 5¼ in. high.
48 T 3644 12-Key Piano. Ship. wt. 2 lbs. 12 oz.....$1.19

Wind-up Trains RUN FORWARD OR BACKWARD

Two Trains in One . . . Passenger-Freight 55 Inches Long $3.79

Most fun of any wind-up train you've ever seen because it runs backward as well as forward, can be switched onto the spur siding to pick up or drop off cars, can be run as a fast passenger train through the tunnel and into the station, or as a three car freight. Or you can run a 6-car combination freight and passenger almost five feet long.

Looks like a real train too. Mechanical steam type Locomotive with coal and water-type Tender. Combined length—15 inches. Equipped with bell, brake, forward and reverse lever. Speed governor keeps train from jumping the track at high speed. Special strong spring motor cannot be overwound.

6 Cars—2 Passenger Coaches, Observation Car, Baggage Car, Gondola and Caboose. Each 6 inches long. All metal, finished in bright colors. Entire train is 55 inches long.

Extra Equipment with your Wind-up Train. Accessories include metal Tunnel and Station with Platform, and Crossing Gate, brightly lithographed in realistic colors. Your railway system is more fun, more realistic with this extra equipment. Watch train speed through the tunnel and past railroad station like real trains do. 137 inches of oval track with a spur siding, hand operated Switch and Dead End Stop. 18 sections "0" gauge track: 7 straight, 9 curved. Requires floor space 34 by 54 inches. See Page 37 for Wards Time Payment Plan. Shipping weight 6 lbs. 8 oz.

48 T 149—55-in. Train and Accessories . . . $3.79

Passenger-Freight Train . . . 42 Inches Long $2.65

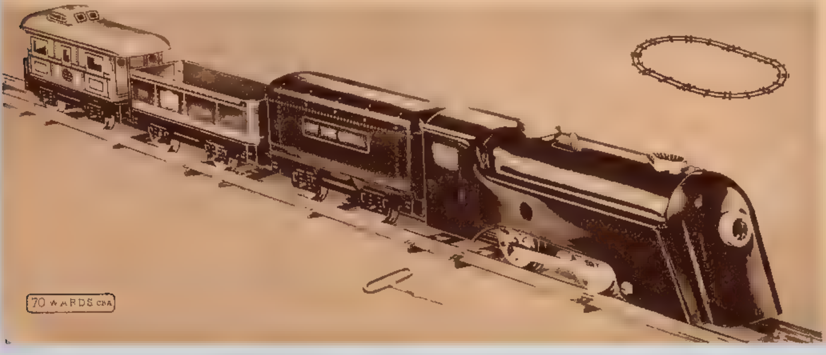
This combination passenger-freight train has the same big 15-inch locomotive and tender pictured above, with a 4-car train composed of Passenger Coach, Baggage Car, Gondola and Caboose. Steam-type locomotive runs forward or backward, equipped with bell, brake, speed governor to keep it from jumping the curves at high speeds, and a forward and reverse lever. Strong spring motor that cannot be overwound. Entire train is 42 inches long. All metal, finished in bright colors. 137 inches of oval track with spur siding, hand operated Switch and Dead End Stop. 16 sections of "0" gauge track: 7 straight, 9 curved. Takes 34 by 54-in. space. (Station, tunnel and platform with crossing gate not included.) Ship. wt. 5 lbs. 12 oz.

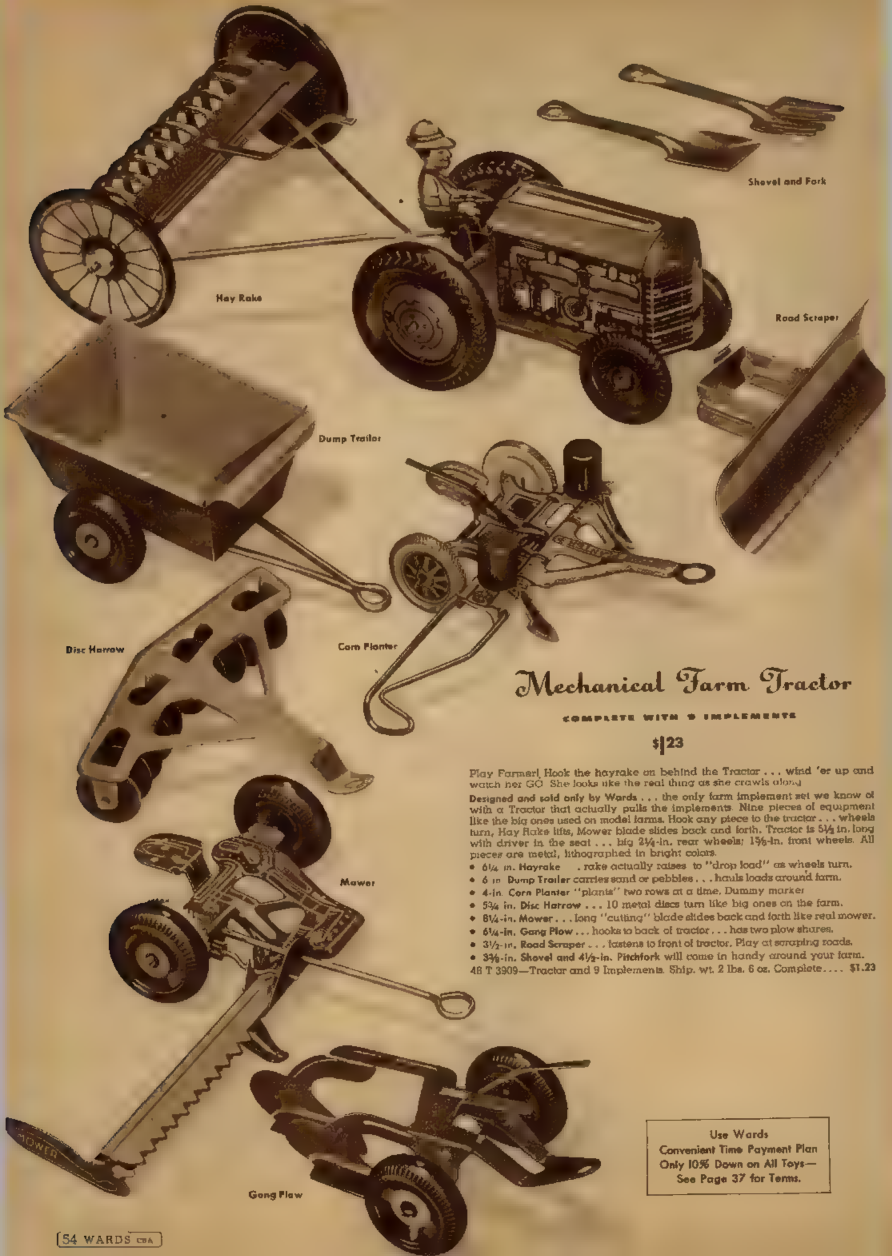
48 T 147—42-in. Passenger Freight Train . . . $2.65

28½-in. Freight Train Below Spouts Harmless Sparks as It Speeds By $1.33

With bell ringing and harmless sparks spouting from its smoke-stack, the streamline Commodore Vanderbilt locomotive speeds around its oval track. Much more fun because it looks almost like a real steam type locomotive with the new water and coal tender just like transcontinental streamliners have. Sparks can't harm or burn. Engine and tender are 15 in. long. Governor to keep it from jumping tracks at curves. Locomotive has brake and spring driven motor; can't be overwound. With gondola and caboose entire train 28½ in. long. All metal, realistic colors. Oval track 102 inches around. 10 sections "0" gauge track, 2 straight, 8 curved. Requires 27 by 35¼-in. "freight yard."

48 T 145—Complete Train Set. Shipping weight 3 lbs. 14 oz. $1.33





Mechanical Farm Tractor

COMPLETE WITH 9 IMPLEMENTS

$1.23

Play Farmer! Hook the hayrake on behind the Tractor . . . wind 'er up and watch her GO. She looks like the real thing as she crawls along

Designed and sold only by Wards . . . the only farm implement set we know of with a Tractor that actually pulls the implements. Nine pieces of equipment like the big ones used on model farms. Hook any piece to the tractor . . . wheels turn, Hay Rake lifts, Mower blade slides back and forth. Tractor is 5½ in. long with driver in the seat . . . big 2¼-in. rear wheels; 1⅝-in. front wheels. All pieces are metal, lithographed in bright colors.

- 6¼ in. **Hayrake** . . . rake actually raises to "drop load" as wheels turn.
- 6 in. **Dump Trailer** carries sand or pebbles . . . hauls loads around farm.
- 4-in. **Corn Planter** "plants" two rows at a time. Dummy marker
- 5¾ in. **Disc Harrow** . . . 10 metal discs turn like big ones on the farm.
- 8¼-in. **Mower** . . . long "cutting" blade slides back and forth like real mower.
- 6¼-in. **Gang Plow** . . . hooks to back of tractor . . . has two plow shares.
- 3½-in. **Road Scraper** . . . fastens to front of tractor. Play at scraping roads.
- 3⅜-in. **Shovel and 4½-in. Pitchfork** will come in handy around your farm.

48 T 3909—Tractor and 9 Implements. Ship. wt. 2 lbs. 6 oz. Complete **$1.23**

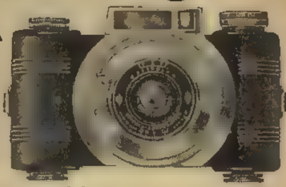
★ DETROLA CAMERA Precision-Built ★



Famous Model "B" With ACHROMAT F:7.9 LENS

Has Built-in Features of Expensive Cameras

- Built-In Exposure Meter
- Built-In Optical View Finder
- All Adjustments on Front Panel

Has features of expensive cameras—such as built-in exposure meter and built-in optical view-finder. All adjustments on front panel: shutter release, shutter speed, lever-diaphragm opening—cable release attachment, etc. Easier to take quick shots. Another important feature is the **Telescoping Lens Mount.** When closed the mount is flat against camera, lens protected, and camera takes less space.

NOTE: In keeping with our policy, photographic equipment is offered only to camera dealers who maintain a department where cameras and photographic supplies are retailed.

Dealers interested in establishing a retail camera department—write for details.

A famous name—a great camera—at a low price that means better value for your customers, more sales and profits for you. Takes pictures by time, bulb or instantaneous exposure. Has **telescoping achromat F:7.9 lens; 4-stop diaphragm.** Provision for cable release and tripod mount. Weaver Telescope Sights

A popular hunting and all-around scope for almost all rifles. Crystal clear definition throughout field Maximum illustration. Large field facilitates shots at moving targets. Scope is 2¾ power. Reticule either flat top post or cross hairs. Windage and elevation adjustments are internal. 330S has coin slotted, friction tight adjustment screws with knurled lock nuts. 330C has ¼ minute micrometer "click" adjustments. Supplied with bridge mount (as illustrated) or with side bracket mount.

S-330S—With B Mounts	Each	‡$31.00
S-330S—With T Mounts	Each	27.50
S-330C—With B Mounts	Each	‡ 31.00
S-330S—With T Mounts	Each	27.50

Mossberg Telescope Sights

Automatic range finder scope sight. Elevation is set automatically between 25 and 200 yards. Can be used with Mossberg New Side Mounts or with Regular Mounting. Micrometer Click adjustments. Four power. Field at 100 yards, 27 feet. Length 15¾ inches.

S-RF1 Each $8.95

Mossberg Side Mounting Scopes

No. 9 SERIES Designed for the Mossberg-pioneered side mount. Tube can be mounted at two different heights, and is removable at will. Micrometer "click" adjustments graduated in ¼ minutes, equivalent to ¼ inch change of point of impact at 100 yards. Tube can be mounted to almost any small bore rifle by drilling and tapping two holes in the receiver, using standard thread screws.

All the "No. 9 Series" tubes are precision ground, finely finished optical instruments. Universal focus, medium fine reticules and five lens systems.

No. 9 Mount fitted with 2½ power tube. Medium fine cross hair reticule.
S-9-2½ Each $5.45

No. 9 Mount fitted with new Mossberg four power scope.
S-9R. Each $6.95

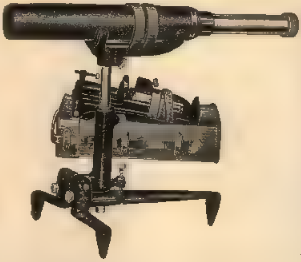
All above one in a box.

Mossberg Internal Scope

The new type internal adjustments with the "click" screws move the cross hair reticule in ¼ minute adjustments instead of the whole scope tube. Elevation scale graduated from 25 yards to 200 yards. After scope is sighted any adjustments between those distances can be made instantly. Focus adjustment can be made on the objective lens by a twist of the front cap. Sleek streamlined tube, free from plate, screws, and other adjusting parts usually found on the sides of scope tubes. Four power Field of view at 100 yards, 20 feet. Length of scope 18 inches.

S-5M4 Each $5.95

Mossberg Spotshot Telescope



A high grade optical instrument, 20 power, designed primarily for spotting targets on the firing line, but is equally effective for camp, marine and general observation.

Materials of the finest quality and expert workmanship combine to give light weight and adequately sturdy construction

Erecting objective lens is achromatic 38 mm. in diameter, ground 1/100,000 of an inch (equivalent to one-half the length of a light wave), eyepiece lens is 10 mm. Micrometer adjustment for focus. Protective metal caps for both ends. Black crackle finish and chrome plated draw tube on stand. Length extended is 17 inches, closed 12½ inches. Field approximately 7½ feet at 100 yards. Weight 1½ pounds. American materials, American made.

S-20XA Each $19.85

MOSSBERG (MODEL A) FOLDING STAND

Sturdily built of strong aluminum alloy and steel, finished in black crinkle and cadmium plate. Screw adjustments for horizontal and vertical adjustments. Can be used for all makes of spotting scopes Folds to 10x3¼ inches. Weight only 2¾ pounds. Height, adjustable from 9½ to 14½ inches.

S-MFS. Each $5.95

All above one in a box.

Field Glasses

AIR GUIDE

Five Power Field Glass

Observation at great distances made possible by the brilliant illumination and sharp and clear focus of this five power field glass. Its great magnification and light weight—only 12 ounces—make it ideal for hunting, fishing and camping trips. Distinguishing features include 40 mm. achromatic lens system, rigid frame of cast magnesium alloy, smooth focusing and trim appearance. Bakelite eye pieces, metal parts finished in black enamel and satin chrome—barrels covered black leather. Height closed 4¾ inches. With leather case

S-47A. Each $16.50

One pair in a box.

FOUR POWER

Refined style—compact design—light weight—these three outstanding features make this field glass ideal for the outdoor-minded. 40 mm. achromatic lenses combine clarity and sharpness of image with wide vision field. Handsomely finished in black enamel, satin chrome and black leather. Bakelite eye pieces. Weighs only 11 ounces. Height closed 3¾ inches.

S-46A Each $15.00

One pair in a box.

ACHROMATIC

Finest glass in the Trojan line—answers any ordinary need for powerful field glasses, but is priced in the lower range. Designed especially for wide angle of vision—extra wide field gives 450 feet of vision at 1000 yards. Weighs only 14 ounces. Draw tubes have rich satin chrome finish—other exposed metal parts of black enamel and polished chrome. Height open 5 inches, closed 3¼ inches. Genuine leather neck and case straps—brown leatherette carrying case.

S-33A Each $10.00

One pair in a box.

Wind-up Trains RUN FORWARD OR BACKWARD

Two Trains in One . . . Passenger-Freight 55 Inches Long $3.89

Most fun of any wind-up train you've ever seen because it runs backward as well as forward, can be switched onto the spur siding to pick up or drop off cars, can be run as a fast passenger train through the tunnel and into the station, or as a three-car freight. Or you can run a 6-car combination freight and passenger almost five feet long

Looks like a real train too. Mechanical steam type Locomotive with coal-and-water-type Tender Combined length—15 inches. Equipped with bell, brake, forward and reverse lever Speed governor keeps train from jumping the track at high speed Special strong spring motor cannot be overwound

6 Cars 2 Passenger Coaches, Observation Car, Baggage Car Gondola and Caboose. Each 6 inches long. All metal, finished in bright colors. Entire train is 55 inches long

Extra Equipment with your Wind-up Train Accessories include metal Tunnel and Station with Platform and Crossing Gate—brightly lithographed in realistic colors. Your railway system is more fun . . . more realistic with this extra equipment. Watch train speed through the tunnel and past railroad station like real trains do. 137 inches of oval track with a spur siding, hand operated Switch and Dead End Stop. 16 section "0" gauge track—7 straight, 9 curved Requires floor space 34 by 54 inches. See Page 37 for Wards Time Payment Plan Shipping weight 6 lbs. 8 oz

48 T 149—55-in. Train and Accessories. $3.89

Passenger-Freight Train . . . 42 Inches Long $2.98

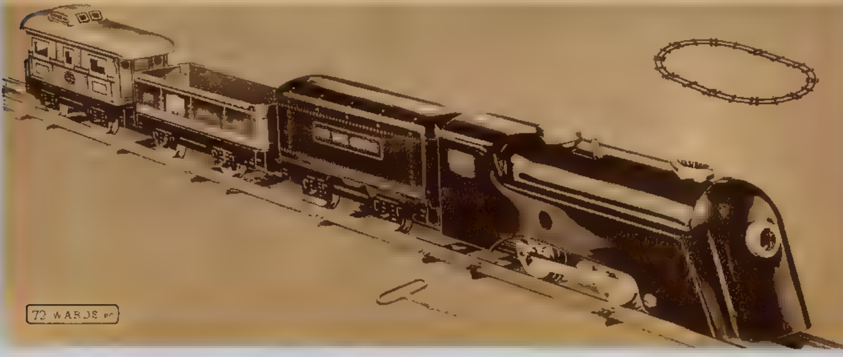
This combination passenger-freight train has the same big 15-inch locomotive and tender pictured above, with a 4-car train composed of Passenger Coach, Baggage Car, Gondola and Caboose Steam-type locomotive runs forward or backward—equipped with bell, brake, speed governor to keep it from jumping the curves at high speeds, and a forward and reverse lever. Strong spring motor that cannot be overwound. Entire train is 42 inches long. All metal, finished in bright colors. 137 inches of oval track with spur siding, hand operated Switch and Dead End Stop. 16 sections of "0" gauge track—7 straight, 9 curved Takes 34 by 54 in. space. (Station, tunnel and platform with crossing gate not included.) Ship. wt. 5 lbs. 12 oz

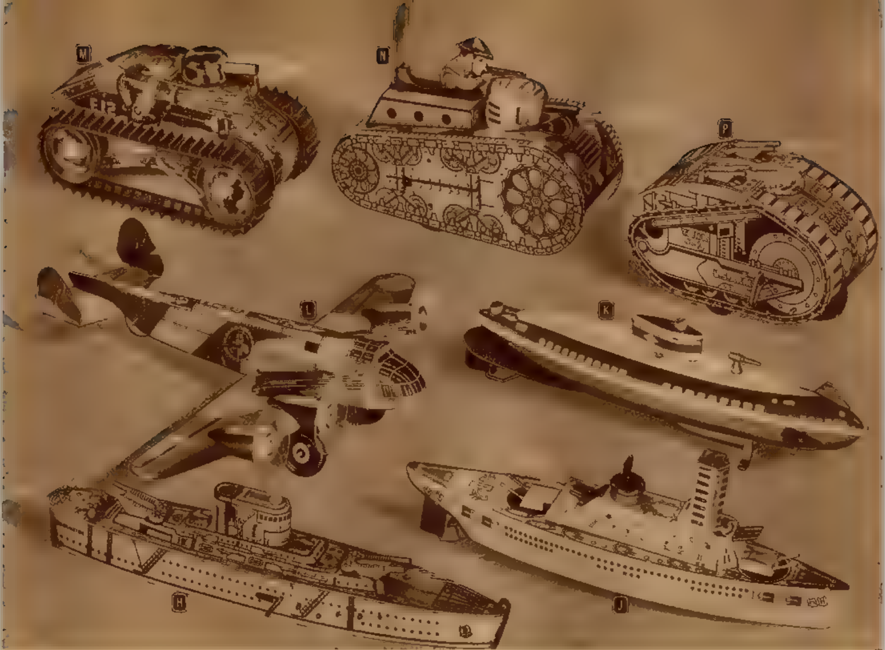
48 T 147—42-in. Passenger-Freight Train $2 98

28½-in. Freight Train Below Spouts Harmless Sparks as It Speeds By $1.33

With bell ringing and harmless sparks spouting from its smoke-stack, the streamline Commodore Vanderbilt locomotive speeds around its oval track. Much more fun because it looks almost like a real steam type locomotive with the new water and coal tender just like transcontinental streamliners have Sparks can't harm or burn Engine and tender are 15 in. long Governor to keep it from jumping tracks at curves. Locomotive has brake and spring driven motor; can't be overwound. With gondola and caboose entire train 28½ in. long All metal, realistic colors. Oval track 102 inches around 10 sections "0" gauge track, 2 straight, 8 curved. Requires 27 by 36¾ in. "freight yard."

48 T 145—Complete Train Set. Shipping weight 3 lbs. 14 oz $1 33





Wind them up AND WATCH THEM GO!

[H] **Sparkling Battleship.** 2 guns shoot harmless sparks. Deck catapult shoots wood bombs. 2 die-cast airplanes. Strong spring motor. Rolls on concealed wheels. All metal. Realistic colors.

100 Yards Capacity
14 Lb. Test Line

This beautiful reel was originally designed by the late Walter E. Marhoff. Made in the Shakespeare shop "as he would make it."

In this Shakespeare masterpiece are embodied exclusive features which add immeasurably to the joy of bait casting. With its jeweled end bearings set in bronze bushings, its compact and handsome frame, its every working part precisioned to an accuracy of less than 1/1000 of an inch, its smooth and silent matched spiral gears, the new Marhoff is a marvel of skilled workmanship and superior material. Modern two-tone styling with green anodized aluminum head plate with contrasting nickel silver disc. New "automatic thumb" casting drag designed for continuous use while casting. New oiling spool caps and oiling crank nut. Aluminum spool with anodized flanges. Split cork arbor. 14 lb. test line. Spool diameter 1½ inch; pillar length. 1$\frac{13}{16}$ inch.

S-1964AS..Each $10.00

All the above, one in a box.

Retail prices quoted above are those found to be prevailing in the Cleveland area. Freight to destination should be added.

Franklin County

By ROBERT F. WHITE, JR.

For the visitor intent upon spending a quiet, restful vacation embodying comforts and natural beauty, the environs of Franklin County commend themselves to the most discriminating.

With Farmington, the shire town, as the hub, good roads lead to the many smaller towns and villages, through rolling country indescribably beautiful, dotted with lakes, blue-capped hills and picturesque forest — emerald-green in summer, dark in winter, multi-colored in spring, and gorgeous in autumn with its gaily-colored sweep from the valleys to the rounded summits.

Perhaps the most noted of summer resorts in the County is the Rangeley Region, 1500 to 1800 feet above sea level. Here come sportsmen, statesmen, scholars, artists and nature lovers to rest and play. The Region lies in the great Appalachian range. It contains the second highest mountain in Maine — Saddleback; and because of its elevation and its pure spruce-scented air the Rangeley Region is famed as a health-giving summer resort, free from hay fever conditions.

Rangeley's chain of lakes embracing Rangeley, Quimby Pond, Dodge Pond, Kennebago, Loon, Saddleback, Mooselookmeguntic, Cupsuptic, Upper and Lower Richardson and Umbagog lakes with connecting streams, affords an imperative lure to vacationists all over the world — 450 square miles of playground in which to fish, swim, canoe, hunt and loaf.

Besides its Saddleback, Franklin County contains scores of other mountain summits of varying elevation offering every variety of mountain climbing and hiking.

The Rangeley Region is the birthplace of the cabin idea of summer hotel life, wherein you and your family occupy a separate cabin, oftentimes built of logs, with a fireplace in the living room, ample verandas, one, two or more bedrooms with private bath. You are relieved of all housekeeping details as all service is provided from a larger main cabin in which is usually found the office, dining room, recreation room, lounge, more fireplaces and more often than not a library of good books.

While Dad is perhaps off fishing Mother can ride horseback, knit, play bridge, listen to music on the radio, walk a bit, meet congenial people and enjoy the entertainment provided for her and the children by the camp management. Such camps are now found in many other lake regions.

Eustis is a favorite haunt of the hunter and fisherman. Here also are found the famous "cathedral pines," one of the few remaining stands of virgin timber. Names like King & Bartlett, Deer Pond, Jim Pond, Round Mountain Lake and Tim Pond have made this section synonymous with good hunting and fishing. The Arnold Trail highway starts at Stratton on its way into Canada, following the trail of Benedict Arnold on his ill-fated march to Quebec over the Height of Land, through the Chain of Ponds and on to Lake Megantic where that hardy group of men found the waters of the Chaudiere flowing to the St. Lawrence River opposite the City of Quebec.

A beautiful valley, surrounded by rugged mountains with Lake Webb in their midst — that's the site of the

The Playground of Maine

Rangeley is the ideal family vacation spot—three sporty golf courses, saddle trails, motor boating, canoeing, camping and mountain climbing. Our 2,000 feet elevation affords excellent relief to hay-fever sufferers. No ragweed.

Renowned for salmon and trout fishing. Splendid fly fishing in June and September. Deer, bear, partridge and duck shooting. Ultra hotels, and camps with every modern convenience. Also motor and overnight camp cottages. Tenting sites. Come to Rangeley over new black roads. Information requests quickly answered.

SKOWHEGAN

On the KENNEBEC

From the Indian Name Meaning
"A PLACE TO WATCH"

HALF WAY between the White Mountains and Bar Harbor and between Boston and Quebec—that's Skowhegan. No longer do Indians watch for salmon in the winding Kennebec River here, yet Skowhegan is still a place to watch. Nestled on both sides of the river well harnessed and on a central island, the shire town of Somerset County is widely known for manufactured products consisting mainly of woolen cloth, worsted yarn, shoes, moccasins and hardwood novelties. We have modern stores, hotels, banks, restaurants, rich farmlands, scenic attractions. We are a short ride from numerous lakes; an hour and a half from Moosehead.

More than 7000 people call Skowhegan home. Artemus Ward called it "The Garden Spot of America." Thousands of tourists have admired, will admire, what we have to offer you.

Lakewood, nationally-known resort, is only eight minutes' drive from the center of Skowhegan. There thousands annually see some of the finest theatrical productions by America's oldest summer stock company and enjoy golf, swimming, boating, fishing, dancing, and other healthful outdoor recreation. Lakewood cottages are available this year for vacations of any length. Tourist Homes and Camps, the finest in Maine, are found in Skowhegan—you'll like their "Old New England" hospitality

SKOWHEGAN FAIR
AUGUST 16-23, 1942

The oldest County Fair in America. Maine's outstanding outdoor attraction. New England's most remarkable Flower Show. Unsurpassed Agricultural Exhibits. Fish and game exhibition in natural setting. GEORGE HAMID'S famous Broadway vaudeville and circus acts. Maine's only BIG TIME AUTOMOBILE RACING. THE WORLD OF MIRTH at its best. Six big days HARNESS RACING on the East's safest track, with Pari-Mutuel betting. LUCKY TETER and his HELL DRIVERS.

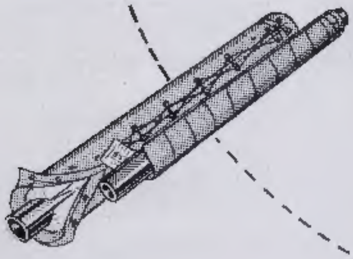
EFFICIENCY IN INSULATION: Insutape & Wovenstone

PROTECTION FOR THE VEINS OF THE TRAIN



UNARCO **Insutape and Wovenstone** steam pipe insulation are providing added insulating efficiencies and economies for Roads throughout the country. It will not shake down, even under the most severe vibration — remains firm and snug against the pipe . . . has a water repellent filler that keeps the insulating medium from matting down. This added efficiency — plus the ease of applying and reapplying Insutape and Wovenstone—is keeping rolling stock rolling. Higher insulating efficiency, greater ease of application, the economy of reapplication and the elimination of need for maintenance are Unarco's contribution to railroadings' vital part in the service of the Nation.
